TENDERS WORK ON LIGHTHOUSE

IVY AND POPPY CONTINUE OPERATIONS AT COS. GROVE SHOALS

Both lighthouse Tenders Ivy and Poppy are at Cosgrove Shoals continuing the work of construction on the lighthouse to be established there.

The foundation has been completed and all struts and members placed. The first series of the superstructure has been started and as long as weather is favorable activities will continue.

Both of the tenders will come up to the dock this evening for New Year's Eve and, with the Tender Poinciana, remain until Wednesday morning.

At that time the Ivy and Poinciana will leave to resume work at Cosgrove Shoals and the Poinciana will sail to commence a work assignment in Miami harbor.
