Portsm.o New Hamp.r 28th June 1790

Dear Sir

If your Country affords any thing for your amusement or information I should be happy to devote some of my time for conveying it — but it does not — You must have heard of our new Presidents election & that Mr. P. the President elect was not a little disappointed as he had much the greater No.o of voters of the people. — Our Genl Court finished the third week in their Session without passing a single public Act — their Adjournment is to the 1st Wed.y in January next. — They did not Cede the Lighthouse to the U S. which is now supported by the State at £170 pr Year

I have been wishing to know at what time Congress will Adjourn — the vague accounts we have had of an intended adjournment in June — or first of July cannot be relied on — Indeed it appears by the matters now before Congress & the progress of them that it must take Several Months to compleat them

Proceed

Yr Friend

without taking into the calculation any time for new subjects —

Your Sloop Eliza arrived here to day of which you will doubtless hear particularly by the next if not this post — I believe she has made a Savory Voyage. —

I am

D.r Sir with Sincere Regard

Your Obd.t Humb.l Serv.t

J. Whipple
