INSTRUCTIONS FOR UNIFORMED SERVICE OR GSA RECORDS CENTER

In all cases, please verify the veteran's name and service number furnished by the Social Security Administration. If identical with the military file, check "Yes" in the spaces provided on the reverse of this form; if different, check "No" and enter the name and/or service number shown in the military file.

Then certify the information requested by the Social Security Administration in item 2 above. All applicable items in the block are to be filled in by the certifying organization. If you need additional space or remarks are appropriate, use the "Remarks" space on the reverse.

The duplicate copy of this form should be kept in the veteran's military file whenever a certification about retired or retainer pay (Part B) is furnished. If there is ever a subsequent change made in the retirement record which affects the information furnished, the Social Security Administration should be advised accordingly.

PART A – This information permits the Social Security Administration to determine whether the veteran had active military or naval service during World War II (September 16, 1940–July 24, 1947) or post-World War II (July 25, 1947–December 31, 1956) for which military service wage credits may be granted. List each period of service and identify all periods of service designated as "active duty for training."

PART B – Social Security needs this information to determine whether wage credits are precluded because another Federal Agency has determined that a periodic benefit is payable based in whole or part on active military service in World War II or post-World War II.

Military retired pay is based on the WW II or post-WW II period of service, as the case may be, if active service in the period *has ever* been directly credited (used) in establishing eligibility to the retired pay, or in computing the amount of such pay. Transfer to the Fleet Naval Reserve or Marine Corps) Reserve is treated the same as a normal retirement for purposes of completing this form. A decision to retire an individual, when officially approved, constitutes a retirement even though for any reason no retired pay is ever made.

Items 1(c) and (d) – Active service was "used" in establishing eligibility to retired pay if it comprises part of the total minimum service required for retirement according to the provisions of law under which the veteran was actually retired. The fact that he was eligible for retirement under some other provision of law is immaterial.

Item 2(a) – Retired pay is "fixed" when one of several applicable formulas for computing retirement pay is selected. If the individual is given the option of deciding which formula is to be used, the pay is not "fixed" until the selection is made and approved.

Items 2(a), (b) and (c) – A "multiple of active service" is that number used to represent years of active service when computing retirement pay. For purposes of this multiple, fractions of one-half year or more of active service are counted as a whole year. However, when computing longevity retirement and pay from the Public Health Service, the multiple is the last full year.

Item 3 – The terms "active duty" and "active duty for training" have the same meaning as defined in Sec. 102 of Public Law 881, 84th Congress (Servicemen's and Veterans' Survivor Benefits Act).

PART C – This information is requested where proof of the veteran's age is needed to adjudicate his Social Security claim.

The oldest record giving the veteran's date of birth or age should be certified. However, if a later record contains discrepant date of birth or age, certify that record as well. (The "Remarks" block may be used as necessary.)

When certifying *age*, it is important to show the date as of which the age was given. For example, some World War I discharge or separation records may show the veteran's age when he entered service. In this case, the date of entry into service is the "Date As of Which Age Was Given" while the date of discharge may be the "Date Record Established."

2 October, 1942.

From: Commandant.
To: Commanding Officer, Newport Station.

Subject: PELOQUIN, Francis H. (227-283) B.M.1c.; application for quarters allowance for dependents.

References: (a) Letters of 26 August and 25 September, 1942 from the subject named man.
(b) Title 37, sections 8 and 8a, U. S. Code.

Inclosures: (A) Certified copy of adoption petition.
(B) Final divorce decree.

1. The subject named man and his wife adopted the alleged dependent in January 1928. In 1934, the subject named man was divorced. The final decree of divorce ordered him to pay $30 monthly to his wife for the support of a minor child. We have received no evidence indicating that the subject named man has made these or any other payments for the support of the alleged dependent. For the purpose of proving his support of the alleged dependent an allotment beginning in September 1942 is not sufficient.

2. In view of the foregoing it is impossible to determine that the subject named man is entitled to a quarters allowance based upon the dependency of an adopted child. His application is, therefore, denied.

3. Please bring this letter to the attention of the subject named man.

J. L. AHERN,
Chief, Military Morale Section,

Subject: PELOQUIN, Francis H. (227-283) B.M.1c.; application for quarters allowance for dependents.

References: (a) Letters of 26 August and 25 September, 1942 from the subject named man.
(b) Title 37, sections 8 and 8a, U. S. Code.

Inclosures: (A) Certified copy of adoption petition.
(B) Final divorce decree.

1. The subject named man and his wife adopted the alleged dependent in January 1928. In 1934, the subjcet named man was divorced. The final decree of divorce ordered him to pay $30 monthly to his wife for the support of a minor child. We have received no evidence indicating that the subject named man has made these or any other payments for the support of the alleged dependent. For the purpose of proving his support of the alleged dependent an allotment beginning in September 1942 is not sufficient.

2. In view of the foregoing it is impossible to determine that the subject named man is entilted to a quarters allowance based upon the dependency of an adopted child. His application is, therefore, denied.

3. Please bring this letter to the attention of the subject named man.
