Sir

we have seen your Letter of 10th Inst addressd to Gen Lincoln on the subject of the Light Houses on Seguin Island, ower Proposition it appears does not coincide with your Views.—

we where Induced to make them thinking that there would not be any person who would Engage to compleate the Buildings for a certain sum, — we are happy to hear that several Proposals have ben forwarded on—

But Should there be no one more advantageous to Government than ours we will con-

with your Views. —
