Pittston Octob.r 13.th 1796

Dear Sir

The light house, dwelling house, oil vault, cisterns &c was completed on Sequin last monday, Oil, wicks, & some rods to hang the lamps on, are only necessary to enlighten them dark & benighted shores. It would be useful to have some person who understands the business sent with the oil &c to put up the lamps & give some necessary directions relative to the business of the person who has the care of the light.

I am Dear Sir, with esteem

your very Humn.l Servt.
