Cape Fear Lt. Sta. N.C.
1893 - 5 - 6.

The Chairman of the L. H. Board.
Washington, D.C.
Through Capt. Eric Bergland.
L. H. Engineer.
Baltimore Md.

THE NATIONAL ARCHIVES OF THE UNITED STATES

Sir:

I have the honor to transmit herewith 3 sheets showing the results of my survey at the Georgetown Lt. Sta. S. C.

As no old marks could be found a boundary line was laid down as shown. Its courses and distances are as nearly as it was practicable to make them, the same as those given on the map made by

File 6-16 6-16-12

Surveyor Solomon in 1857.

The dwelling cut by the line on the north is of rude construction and little value. It will be noticed that all the government constructions except the south end of wharf No. 2 are included by the proposed boundary.

Very respectfully
H. Bamber.
Asst Engr.
