Subject 467

March 26th 79

Sect: 27

Warwick encloses us transmits a copy of a letter dated March 20th, 1879, from the Superintendent of Lights at Burlington Vt, in case to the Contemplated dwelling house erected upon the Breakwater at that port, designed for the use of the keeper of the Burlington Beacon Lights, and requesting that, as it is not occupied by him, and will become unsafe in consequence of the settling of the foundation of the breakwater, it be removed to Isle La Motte, and used for light house purposes there.

The Board requests that you will consider this matter, and inform us of your opinion as to the advisability of removing the

building, making such recommendation as you shall deem proper, and stating the estimated cost of its removal in case that course should be decided upon.

Very respectfully
Wm. E. Haines
Engineer Secretary

J. G. Barnard,
Lt Col Brig. Genl, U.S.A.
Engineer 3rd Lt District.
New York
