Treasury Department,

OFFICE OF THE LIGHT-HOUSE BOARD,

Washington, Oct. 6th, 1882

Sir:

The Committee on Engineering, to which the plans for Ram Island light-house, Me., were referred, returns them and respectfully reports as follows:

The Committee approves the plans submitted by the Engineer of the 1st L. H. District, with his letter of Sept. 18th, 1882, and recommends their adoption by the Board, with a single modification, namely:

The Committee is of opinion that it will be safe to omit the cover to the bridge leading to the tower until necessity shall show that it is required; but that in the meantime, a storm vestibule

shades be added to the lower.

Very respectfully.

D. H. Mitchell

Chairman of the

Committee on Engineering.

The Chairman of

The Light-House Board.
