The Light House Board,

Washington D. C.

Thro' Maj. M. B. Adams

L. H. Engr.

Detroit, Mich.

Gentn.

I have the honor to transmit herewith four sheets showing the results of my survey at the Port Washington Lt. Sta. Wis.

I could get no information as to the exact location of the circular piece of land 40' in dia. deeded by the village in 1845 to be selected by the U. S. in the street. The approximate location of the center of the old tower however is shown on Sht. 4.

In looking up descriptions in the records of the County Register's office, I noticed that in the deed to the U. S. of the L. H. Site now occupied, it is described as Lots 27 & 28 Blk. 3 of that part of the village known and recorded as "Johnson's Plat". The same wording is used in the next preceding conveyance-- Sojon Johnson to Henry Allen but there is no such plot on record. The site is in that part of the village known and recorded as the "N.

12-5-P-28

E. Addition" which is evidently the one meant.

In the deed of the circular piece of ground the wording is "known and recorded as Johnson's Addition."

Very respectfully

(Signed) H. Bamber

Asst. Engr.
