1 INCLOSURES.

LIGHT-HOUSE ESTABLISHMENT,

OFFICE OF ENGINEER, 10TH DISTRICT,

BUFFALO, N. Y., April 10, 1903

SUBJECT: No. 316
South Buffalo
Bulkhead

The Light-House Board,

Washington, D. C.

Sirs:-

Referring to the Board's letter (No. 58) dated 31 March, 1903, authorizing me to take the necessary steps for the construction of the pile and timber bulkhead for the light-house reservation at Stony Point, South Buffalo, N.Y.: I have the honor to inclose herewith for the approval of the Board, the specifications for the work as shown on the plan submitted with my letter of 23 March, 1903.

I have the honor to recommend that the work be done by contract, to be awarded to the lowest bidder after inviting proposals by Poster and Circular Letters put up in the post-offices at Cleveland, Ohio and Buffalo, N.Y., and mailed to contractors and others engaged in this kind of work, which in my opinion, is the most economical and advantageous method.

It is desirable that I should be advised at the earliest practicable moment as to the action taken by the Board upon my recommendation, as the pile and timber bulkhead should be completed without delay in order to avail of the advantages

offered by the Lackawanna Steel Co. in filling in the light-house reservation which this bulkhead is to front.

Very respectfully,

Major of Engineers, U.S.A.
Engineer 10th L.H.District
