225

MCJ. March 7, 1911.

(3)

Buffalo Breakwater North End
Light-Station, New York.

The Inspector of

The Tenth Lighthouse District,

Buffalo, New York.

Sir;

1. The sundry civil act approved March 4, 1911, contains the following appropriation item with reference to your district:

> "Buffalo Breakwater North End Light-Station, New York; For rebuilding the Buffalo Breakwater North End Light-Station, New York, on the present or an adjacent site, sixty thousand dollars."

2. You are requested to submit as soon as practicable preliminary plans, specifications, and estimates for accomplishing the work thus appropriated for, with the expectation of advertising for contract, and commencing the work of construction at the earliest date possible after July 1, 1911.

3. You are further requested to include this item in your monthly report upon the condition of special works and to continue to carry it in said report until the work is completed.

4. You will be informed later of the official title of this appropriation.

5. The act also contains the following item of appropriation:

> "For a light vessel for service at or near a point between Point Abino and Sturgeon Point, in Lake Erie, seventy-five thousand dollars."

Steps will be taken by the Bureau to carry out the provision of law in regard to the construction of this light vessel.

Respectfully,

Commissioner.
TSO
