BALTIMORE, MD.

Sent list A/L. men entered service prior to June 30/17, not granted increase & June 30/18, not recommended in present list.

Rec'd 7/29/18

Sent to Dept 7/30/18
Wired 5 Lt

July 19th, 1918.

Commissioner of Lighthouses.

The following Assistant Keepers, although appointed since June 30th, 1917, are **recommended to receive the increase of compensation provided by Act of Congress for the fiscal year 1919. These employees all have received up to June 30th, 1918 the ten percent increase of compensation provided by Act of Congress for the fiscal year 1918,** which ceased on June 30th, 1918.

As recognised by another Act of Congress approved June 20th, 1918, the present compensation of these employees is insufficient, and warrants increases generally throughout the Service. To cut off the percentage allowed last year without providing the increase substituted for the present fiscal year will, without doubt, lose to the service a number of these employees, who can with difficulty be replaced, if at all, pending further increase in compensation.

Each of the following employees has ability and qualifications which warrant the increase recommended.

LIST OF EMPLOYEES IN FIFTH LIGHTHOUSE DISTRICT WHO ENTERED THE SERVICE SINCE JUNE 30, 1917, AND THOSE IN THE SERVICE ON JUNE 30, 1917, WHO HAVE RECEIVED INCREASE OF OVER $200.00 SINCE JUNE 30, 1917.

A - Persons who entered the Service since June 30th, 1917.
B - Persons whose pay was increased over $200.00 per annum since June 30th, 1917.

District Circular Letter No. 117.

November 4, 1918.

To Keepers of Light Stations.

Attached is a revised pay scale of Keepers in this District as approved by the Department, effective November 1, 1918. The rates given are the permanent base pay of positions, and do not include the $10 per month bonus provided by Congress for fiscal year ending June 30, 1919.

The rates given furthermore do not include a longevity increase of $60 per annum payable to all keepers of good record over five years in service, and to those over three years who show especial proficiency. The rates shown are, of course, also exclusive of ration allowance and represent the minimum base salary of stations.

In view of the extensive changes, relative rates of pay, no further reference will be had to requests for transfer heretofore on file. But each keeper will be given opportunity to submit new list of stations to which he desires consideration for transfer until January 1, 1920, in case of vacancy.

A suitable blank will be sent each keeper within a few days to fill out, showing any stations he may desire to be transferred to. The attached list of pay is forwarded at this time so that you can give the matter careful consideration. Not more than five stations can be selected by one keeper for transfer.

H. D. KING.

Superintendent of Lighthouses
