Commissioner of Lighthouses;

SUBJECT: John F. Anderson, Keeper, Block Island North Lt.Sta.

1. The Bureau is advised that John F. Anderson, Keeper of Block Island North Light Station is and has been confined to the Marine Hospital at Stapleton, Staten Island since December 18,1925 and has been reported totally disabled by the hospital authorities and recommended for retirement on account of disability, effective at the close of January 31,1925. Prior to the commencement of this period of absence Mr.Anderson had been granted 39 days leave during the year 1925. Mr.Anderson has been in the Lighthouse Service since November 2,1906, and in view of the length of his service and his physical condition, which will no doubt result in retirement on account of disability, the case is considered to be a meritorious one, and it is therefore recommended that this office be authorized to grant Mr.Anderson leave to cover all his absence from December 18 to Dec. 31st, inclusive, 1925.

Subject. Retirement.

I respectfully wish to report that I left the Marine hospital on Jan 7th 1926 and that at present I am staying with my son at Watch Hill.

Also I would ask if it is advisable for me to remove my household goods from Block Island North Light at this time, as my condition does not warrant my going to Block Island my self at this time, it will be necessary for me to have someone else get my things, and so will need most of the time that is left between now and when my retirement takes affect if it is approved.

Sir: I desire to hereby Certify to the fact that Mr. John F. Anderson, Keeper of North Light, Block Island is, & has been for a long time my patient. He suffers mainly from a Subacute Follicular Pharyngitis, which is rapidly becoming Chronic, - in my opinion, due to the adverse effect of climatic conditions here at Block Island.

This has been emphasized by his becoming almost entirely relieved of throat irritation every time he has been away from the Island, even for 2 days.

Immediately on his return here every time, his throat symptoms become annoying almost at once, & requires more or less local treatment to keep the irritation & congestion within bounds.

(Supt. of Transmission.) 2. (76)

In view of the immediate amelioration of the throat irritation &c, whenever he is temporarily on the mainland, I am convinced that his only chance for relief, & only chance to avoid a fixed chronic throat, is by removal or transfer from this Island.

Inspector of 3rd Dist. Tompkinsville, N. Y.

Sir:

I respectfully prefer charges against Mr. John A. Anderson Keeper of this station for cruelty to people on the high seas, by disconnecting the government telephone before he went off watch at 4 this a.m. I went on watch at 4 to 8 at 6.16, I sighted a tow of barges of the Scully line in a distressed condition so I went to the phone not knowing it was disconnected and I rung for ditch Plain Li fe Saving station several times but got no reply so I tried every station between here and Fire Island but got no reply. At about 7 oclock two of the barges broke adrift. I kept up the call until 7.40 and not getting any reply I thought the wires was down so went to Mr. Anderson's kitchen and his son told me that he did not know where he was, so I kept up the call first one station and then another and at 8.10 Mr. Anderson came out and said that he had taken the fuses out so he got them and replaced them. Then I called Ditch Plain Life Saving station and reported it to Mr. Luper who was on watch at that time and if the telephone had been in working order, I could have sent a message to Fire Island which has a wireless station and the barges could have got help from Newport 2 hours sooner which would have amounted to a lot. As the best we could see one of the barges went down about 9.30 a.m. the other one we saw go pass Block Island the tug headed for Newport with the third one. If you will please look at my application you will see attached to it recommendation of 15 years as master of sea going vessels and it was hard for me to see the people out there and not able to render any assistance by a man being afraid to leave the telephone so as another could use it, but since 8.10 Mr. Anderson has given all the information he could which I hope will not be too late to do some good.

Respectfully,

Robert R. Lanier, 1st Asst. Keeper

Sir:-

Referring to your letter of January 26, 1931, reporting the freezing and bursting of water jacket on one of the oil engines on January 25.

From the correspondence on file in this office, it is evident that the damage was the indirect by the petty quarrelling of yourself and assistant keeper. You, as keeper of the station, should not allow such conditions to exist, and eventually out to the extent of damage to Government property as a result thereof.

This matter will be thoroughly investigated by the next Inspecting Officer visiting the station. In the meantime, you are re quested to see that no further unwarranted damage occurs to the Government property in your charge.

An allowance of coal is granted by the Government, sufficient to keep the fog signal house at all times sufficiently warm to prevent any possibility of any part of engines freezing, and you are directed to explain to this office why this has not been done.

Dear Sir:-

As I have heard that the Keeper Mr. J. G. Scott is going to resign from Montauk Light Station in September, I wish to make application for the position as Keeper of that Station. I have had two years experience there as assistant and am thoroughly familiar with the workings of the fog signal and the kerosene vapor lamps located at that place.
I have been in the Light House service nearly four years, as assistant and as Keeper and feel that I am capable of filling the position.
Trusting that my application will be favorably considered when the change is made at the Station.

I remain

Sir:-

You are informed that at the inspection of the station in your charge made September 29, 1909, it was noted that unauthorized materials were stowed in oil house, also that the General Account Book was not kept.

Your attention is called to paragraph 37, page 11, and also to paragraph 72, page 15, of Instructions to Keepers, 1902.

You are cautioned that the above instructions must be strictly adhered to, and it is hoped it will not be necessary to call your attention to similar offences in the future.
