Sir:

In 1927 when fourteen buoys were established in the Shrewsbury and Navesink Rivers and the maintenance of the buoys, including the operation and care of a buoy boat, was added to the duties of the keepers of Navesink Light Station, the salary ranges were increased $120.00 per annum. The complement consists of three positions, as shown in the following tabulation, and family quarters valued at $240.00 per annum are attached to the station:

Keeper	$1440-1800
Keeper	1260-1620
Keeper	1200-1560

Since 1927 the buoys established and serviced by the keepers at this station have increased to upwards of sixty, although no adjustment has been made in the compensation ranges of the keepers since 1927. The increase in the number of aids has added materially to the duties of the keepers since their work in this connection includes cleaning, painting, patrolling, charging, and placing the lighted buoys on station about the first of April each year and withdrawing and replacing them with unlighted buoys about the first of November. The distance traveled in the care of these aids has increased from about 500 miles a year in 1927 to about 2000 miles at present. Consequently it is considered that an adjustment of $120.00 is warranted, making the new salary ranges:

Journal Nos.

Keeper	$1560-1920	Murphy L. Rockette	41015
Keeper	1380-1740	Hanny B. Deane	41016
Keeper	1320-1680	Marvin O. Barnett	41017

Nominations (Form 2249) to cover the adjustments in individual cases are inclosed.

By direction of the Commandant.

Secretary of Commerce:

Pursuant to the Department's memorandum of June 6, 1938, copy inclosed, it is recommended that Marvin O. Barrett, keeper at Navesink Light Station, N. J., in the 3d lighthouse district, be promoted from $1200 to $1260 per annum in the range $1200-1560. His last date of promotion was October 23, 1936 in the amount of $60. Effective July 16, 1938, the Department approved the administrative promotion of 15 keepers in the amount of $60 each, but the present case of Mr. Barrett was not included in the list, and in view of the Department's memorandum inclosed the matter is submitted as funds permit this adjustment at the present time. The appropriation involved is Salaries, Lighthouse Keepers.

It is further recommended that Gordon B. Lindquist, depot keeper at Yerba Buena Lighthouse Depot in the 18th lighthouse district be promoted from $2300 per annum (including quarters valued at $300) to $2400 per annum (including quarters valued at $300), under the appropriation, Salaries, Lighthouse Service. In its recommendation for administrative promotions at the last adjustment period, the Bureau submitted and the Department approved the promotion of only one employee because this was all the status of the appropriation permitted at that time. Further consideration has been given to Mr. Lindquist's case, however, and it is believed that it is an specially meritorious case which warrants the Department's approval at this time by reason of the fact that he was transferred effective May 1, 1938 to his present position at his present rate of pay from the position of first officer on the tender SEQUOIA where his pay was $2280 per annum, plus subsistence valued at $378 per annum, so that his transfer in effect involved his acceptance of a lower rate of pay. He was considered to be a particularly desirable incumbent for the position of depot keeper however and when his transfer was effected it was necessary to effect it at the minimum of the range although his administrative promotion at a later date when funds permitted was contemplated at the time. Mr. Lindquist has had continuous service since 1924 when he was appointed as second officer. Prior to his change in status to depot keeper on May 1st of the present year, his last previous promotion was from second officer at $2040 per annum to first officer at $2280 per annum effective October 20, 1931.

Secretary of Commerce:

In 1927 there ware 14 gas buoys attached to the Navesink Light Station for attendance by the keepers of that station. During the intervening period of eleven years, the number of buoys attached to this station has been increased to 60. This adds materially to the work of the keepers in that they are required to observe and attend the buoys and clean and repaint them from time to time and store those not in use on a dock provided for that purpose.

Therefore, in accordance with the regular practice of the Service where additional minor aids are attached to a station for the attendance of the keepers, it is recommended that the salary range of the complement at this station be increased $120 per annum, the present and proposed ranges being shown below.

	Present	Proposed
Keeper	$1440-1800	$1560-1920

SUBJECT: Damage to Boat at Whale Rock Light Station.

REFERENCE: Your letter October 31, 1927.

1. Your explanation concerning the matter of damage to the station boat due to the pawl on boat winch becoming disengaged has been carefully noted. Your letter of October 31 states, among other things, that subsequent to the boat dropping to the water and becoming damaged, the boat winch was found to be in good condition, and winch has been used frequently and operated properly without giving any trouble. It is therefore apparent that at the time the boat was hoisted by yourself and the other assistant keeper, care was not taken to see that the pawl was perfectly engaged with the gear teeth, and the jar of swinging the boat in disengaged the pawl and released the gear which allowed the boat to drop. You are hereby cautioned for your carelessness in failing to see that the pawl was not perfectly engaged with the gear teeth on the winch when the station boat was hoisted, and directed to see to it that there is no reoccurrence of this character in the future as such would necessitate more drastic disciplinary measures than are taken in this instance.

Director of Personnel,
Treasury Department,
Washington, D. C.

Sir:

In 1927 when fourteen buoys were established in the Shrewsbury and Navesink Rivers and the maintenance of the buoys, including the operation and care of a buoy boat, was added to the duties of the keepers of Navesink Light Station, the salary ranges were increased $120.00 per annum. The complement consists of three positions, as shown in the following tabulation, and family quarters valued at $240.00 per annum are attached to the station:

Keeper	$1440-1800
Keeper	1260-1620
Keeper	1200-1560

Since 1927 the buoys established and serviced by the keepers at this station have increased to upwards of sixty, although no adjustment has been made in the compensation ranges of the keepers since 1927. The increase in the number of aids has added materially to the duties of the keepers since their work in this connection includes cleaning, painting, patrolling, charging, and placing the lighted buoys on station about the first of April each year and withdrawing and replacing them with unlighted buoys about the first of November. The distance traveled in the care of these aids has increased from about 500 miles a year in 1927 to about 2000 miles at present. Consequently it is considered that an adjustment of $120.00 is warranted, making the new salary ranges:

Keeper	$1560-1920	Murphy L. Rockette
Keeper	1380-1740	Harry B. Dean
Keeper	1320-1680	Marvin O. Barnett

Nominations (Form 2249) to cover the adjustments in individual cases are inclosed.

By direction of the Commandant.

N. R. STILES,

GOVERNMENT PRINTING OFFICE 11—9051

Secretary of Commerce:

Pursuant to the Department's memorandum of June 6, 1938, copy inclosed, it is recommended that Marvin O. Barrett, keeper at Navesink Light Station, N. J., in the 3d lighthouse district, be promoted from $1200 to $1260 per annum in the range $1200-1560. His last date of promotion was October 23, 1936 in the amount of $60. Effective July 16, 1938, the Department approved the administrative promotion of 15 keepers in the amount of $60 each, but the present case of Mr. Barrett was not included in the list, and in view of the Department's memorandum inclosed the matter is submitted as funds permit this adjustment at the present time. The appropriation involved is Salaries, Lighthouse Keepers.

It is further recommended that Gordon B. Lindquist, depot keeper at Yerba Buena Lighthouse Depot in the 18th lighthouse district be promoted from $2300 per annum (including quarters valued at $300) to $2400 per annum (including quarters valued at $300), under the appropriation, Salaries, Lighthouse Service. In its recommendation for administrative promotions at the last adjustment period, the Bureau submitted and the Department approved the promotion of only one employee because this was all the status of the appropriation permitted at that time. Further consideration has been given to Mr. Lindquist's case, however, and it is believed that it is an specially meritorious case which warrants the Department's approval at this time by reason of the fact that he was transferred effective May 1, 1938 to his present position at his present rate of pay from the position of first officer on the tender SEQUOIA where his pay was $2280 per annum, plus subsistence valued at $378 per annum, so that his transfer in effect involved his acceptance of a lower rate of pay. He was considered to be a particularly desirable incumbent for the position of depot keeper however and when his transfer was effected it was necessary to effect it at the minimum of the range although his administrative promotion at a later date when funds permitted was contemplated at the time. Mr. Lindquist has had continuous service since 1924 when he was appointed as second officer. Prior to his change in status to depot keeper on May 1st of the present year, his last previous promotion was from second officer at $2040 per annum to first officer at $2280 per annum effective October 20, 1931.

SUBJECT: Damage to Boat at Whale Rock Light Station.

REFERENCE: Your letter October 31, 1927.

Your explanation concerning the matter of damage to the station boat due to the pawl on boat winch becoming disengaged has been carefully noted. Your letter of October 31 states, among other things, that subsequent to the boat dropping to the water and becoming damaged, the boat winch was found to be in good condition, and winch has been used frequently and operated properly without giving any trouble. It is therefore apparent that at the time the boat was hoisted by yourself and the other assistant keeper, care was not taken to see that the pawl was perfectly engaged with the gear teeth, and the jar of swinging the boat in, disengaged the pawl and released the gear which allowed the boat to drop. You are hereby cautioned for your carelessness in failing to see that the pawl was not perfectly engaged with the gear teeth on the winch when the station boat was hoisted, and directed to see to it that there is no reoccurrence of this character in the future as such would necessitate more drastic disciplinary measures than are taken in this instance.
