

Boon Island May 9th. 1839..

To all whom it may concern.

This certifies that on taking charge of the light house kept at Boon Island by Elephat Crown Esq. I found every thing connected with the establishment in prime order and that Mr. Crown exhibited the most kindly disposition and gentlemanly deportment toward me, and he has my best wishes in retiring from an office the duties of which he has undoubtedly long performed with the utmost faithfulness.

Joseph L. Jenkins
