Sir:-

In answer to your letter of June 28, 1929. I will answer the charges to the best of my ability.

(a) Regarding my speaking in an insulting and disrespectful manner in the keepers residence on April 4th to the keeper, relative to the officers of this service.

The entire matter was concerning the chimney on my residence. This matter had been called to the attention of the office several times, a new chimney having been sent and proving unsuccessful. The keeper had notified the office ten days previously that he could remedy it, but had not done so up to that time. My wife and I arrived home cold and hungry. On starting the fire in the stove, it smoked profusely, causing the house to become filled with smoke. Consequently we were forced to be without warmth inwardly and

outwardly. I went to the keeper's residence but was told by the keeper's wife, that he was asleep. She then wanted to know my business. I told her and made the remark, that if the keeper were compelled to live in my residence under the circumstances, the matter would be quickly remedied. The keeper later made two unsuccessful attempts to remedy the chimney and made the statement that, "if it didn't help, we'd have to stand it".

(b) and (c) I am charged with leaving station on May 19th, time unknown and again on May 20th sometime before 6:40 P.M. and returning at 8 P.M. Incidently the keeper has his dates confused, as my wife and I left the station on May 19th at 7 P.M. and returned at 8 P.M. walking to cut in the road about 300 yards east of driveway and keeping in sight and hearing of station. On May 20th my wife and I left at 2:30 P.M. and returned at 4 P.M., going on the beach at foot of reservation. I did not know that I was disobeying any rules or orders; as it has been always

a habit not to say anything to anyone, on such short distances as on several occasions the keeper and I have left station, to shoot rabbits or pick some vegetables and when keeper was on light-up watch he has gone on several occasions up on the road to shoot rabbits. I was not informed that the keeper was asleep and I was in charge.

(d) Regarding disagreement between 1st Asst. Zimmermann and myself, this was regarding the use of the telephone, the matter was settled satisfactorily to both of us.

(e) Regarding the abuse of 1st Asst. Vradenburg's children. I did not abuse them. Mr. Vradenburg and I was on good terms always and I even conducted him and his family thru Los Angeles and Hollywood until he was headed on the right road for Point Reyes Light Station, at which I bid his children and him a bon farewell.

(f) Regarding the use of insulting language to Mr. Regan and family, is untrue!

The conversation was with Mr. Regan Jr. of Point Fermin was concerning two kittens, I had given his sister a month or so before. My fiancée, (now my wife) was with me at the time and I do not believe anyone could have taken offence at what was said.

My wife and I, met Mr. Regan Jr. several months later and held an intresting conversation with him, no reference being made about insulting language or even denied permission on the premises.

(g) Charges against me regarding the late Mr. Martin of the Palos Verdes Est. are untrue.

Mr. Martin never had much to say and we never argued at any time, much less had an altercation. Mr. Morton of the Palos Verdes Nursey will substaniate the fact that I was not the cause of curtailing of privileges to this station.

(h) Regarding my work for the past six months I have tried to fullfil my duties to the best of my ability. I have obeyed the orders of the keeper to the

The trouble has been the keeper's wife, she has been very dictatorial and obtrusive, annoying my wife and causing an unhappy feeling between us by story telling regarding me! She was constantly running in and out of my residence and now being denied that privilege, she is annoyed.

The 2nd asistant. Mr Denbo reported the lens 6 seconds slow and the light in the watch room turned off at 1 20 am this date.
His repot is that he left the watch room a few minutes before and went over to the lumber shed and while there this condition developed and could not have been in such condition more than five minutes.
I can not understand how this could happen unobserved by Mr Denbo or do I believe that any one on the reservation would interfere with the apparatus. and unless the reostat was interfered with it would take several hours for the voltage of the batteries to drop to such an extent as to make such a difference in the timing of the lens.
Mr Denbo did not report this at the time of my relieving him or watch at 2. am

Sir

The deportment of the 2nd assistant on this station has been such that I feel compelled to make this repot as his conduct on the reservation and at Point Fermin and with Mr Martin Landscape Engineer of the Palos Verdes Estates has cast reflection on the personnel of the service and caused embarassment to myself.

While at Point Fermin recently Mrs Regan reported that Mr Denloe had been at that place some time ago and had actid in an insulting and nasty manner toward Mr Ed Regan

About a year ago Mr Denloe reported at the station that Mr Lawyer had given orders that no more plants be given to Point Vincents by the Palos Verdes Nurseries

I have every reason to believe that this orde was given as the result of an altercation between Mr Denloe and the late Mr Martin

Mr Denlow up to the time that this order was given had been in the habit of soliciting flowers and plants at the nursery against my advice
Mr Martin had sole charge of the disposition of the plants raised at the nurseries and previous to the time of the altercation with Denlow had brought quantities of plants and sent others by truck. and had assured me that the Palos Verdes Co. were interested in this place and that he was going to assist me in beautifying it (with your permission) and Mr Martin had come to the reservation and spent several hours looking over the grounds with me and consulting the planting plan and had made arrangements to send a quantity of plants and shrubs for the circle
At this time Mr Denlow had the altercation with Mr Martin and the order was given and all interest in this place ceased
Information that I have obtained recently has convinced me that Mr Denlow was directly

Responsible and that the order was given by Mr Martin and not by Mr Lawyer.
On april 4th Mr Denlow entered the Keepers residence and spoke in a disrespectful and insulting manner of the Superintendent of Lighthouses and of the Keeper
On May 19th Mr Denlow left the reservation without notifying the Keeper at this time the 1st Assistant was absent and Keeper asleep in quarters supposing Mr Denlow was on watch Mr Denlow returning to station at 3 45 P.M.
May 20th Mr Denlow left station sometime before 6.40 PM returning at 8. Mr Denlow has been a source of trouble since his arrival at this station and was denied admission to the South quarter also Mr Zimmerman will not allow Mr Denlow in his quarter to use phone also had trouble with Mr Vradenburg through his interfering with and abusing the children. Supplementing my report of the 3rd ult regarding the deportment of Mr Denbo.
I have been very patient with Mr Denbo in spite of the many annoyances that he has caused me since his arrival on that station. his untruthfulness has caused much trouble and annoyance. and his periodical outbreaks of smartness and arrogance has been the means of my having to refuse to allow him to enter my quarters upon any pretext.
his statement regarding the working of the chimney caused much delay in remedying the trouble. Denbo having reported the chimney all right and then complaining about it several months later after he had smoked and ruined the ceilings in his quarters.
Regarding the Mr Martin incident.
I had no reason to disbelieve Mr Denbo's statement until recently when remarks by Mr Coleman

the road superintendent, and also by Mr Morton at the nurseries convinced me that Mr Denlon had misrepresented the facts. Mr Coleman having assured me that any plants that I wanted for personal use I would be welcome to. Mr Morton saying that as Mr Martin was no more that I could have plants gratis.

I called on Mrs Martin to ascertain the facts in the case but she was not inclined to talk about the affair but in the course of conversing Mrs Martin said that Mr Martin did have some words with Denlon and was pretty hot about it at the time. and also informed me that Mr Martin had sole charge of the nursery and the disposal of the plants.

I had noticed a change in the demeanor of Mr Martin towards me and could not account for the change as our relations up till the time of the trouble with Denlon had been very friendly

and if I had only been suspicious and asked Mr Martin believe that I would have found out why the Point Vincente station was made the victim in a personal grievance and just what Denloo had said or done that would cause the station to be included in this order.

I also called on Mr Reagan and he and Mr Ed Reagan verified the report of Mr Reagan Mr Reagan saying that he did not wish Mr Ed Regan to come in contact with (that fellow) meaning Denloo, again. I had noted that Mr Reagans reception of me on a previous meeting was not as friendly as it had been on other visits and that I had received no plants this spring. however I have reestablished friendly relations with the Reagans and without the interference of others hope to have these relations continue. as Mr Reagan has been a great help to me and has given many plants to us
