Frank Faulkingham, Keeper, Baker Island LH., Me.

With reference to your reply of December 10 to my letter of the 7th regarding light at your station showing fixed at 5.00 a.m. of December 5, you are informed that your explanation for the failure of your light to show its proper characteristic is not satisfactory. You should see that your apparatus is in good condition at all times; that is what you are there for, and what will be required of you in the future.

It is a serious thing to exhibit a false light along the coast which might lead to disaster. It is hoped that there will not be any further complaints, and you are cautioned to see that there are none for which you are responsible as I will be compelled to take drastic action if there should be.

Sir:

In regards to your letter of Dec. 5 at five a.m. about my light. The feed pipe comes down through the top part of the lens and it rubs against it so it slowed the light down so I could not hear when the light was burning as the light makes quite a noise but discovered it after I put out that morning and put light on time.

Frank Faulkingham - Follow-up report on caution.

1. Since the Superintendent's letter of caution, dated July 27, 1932, the efficiency of this keeper with respect to the lack of attention for which he was cautioned has shown some improvement and he has performed his duties in a degree consistent with his capabilities and general makeup, with the exceptions noted in cautionary letters, dated Augusut 23, 1932, and December 22, 1932.

2. I am not yet satisfied, however, that this man should be retained in the Service, and as he has but recently been transferred to a one-keeper station which was in A-1 condition when he assumed charge of it a careful check on subsequent developments thereat will be maintained and should he fail to keep the station up to the standard maintained by his predecessor, recommendation for suitable disciplinary action will follow.

1. Your letter of the 20th, offering as a reason for your not showing the Assistant Keeper, Moose Peak Lighthouse, while keeper of that station, my letter of October 25, 1932, regarding assistance to be granted workmen, as directed therein, the fact that the letter was misplaced by your wife and later found among your personal effects upon arrival at Baker Island Lighthouse:

2. This reason is not considered sufficient to excuse your failure to obey orders. Official correspondence should not be handled by your wife. Any letter received from this office should be thoroughly read immediately upon receiving it, and if it contains orders these orders must be carried out at the first possible moment, after which the letter should be filed in a gum-stub letter file, such as are provided for the purpose upon requisition.

CAUTIONARY LETTER.

Frank Faulkingham,
Keeper, Moose Peak LH., Me.

1. Your monthly report, form 65, for July is again returned — for the third time - for correction of information under item 8.

2. The printed lay-out of item 8 is sufficiently explanatory of the form in which report of absences is to be made to require no further explanation or instruction. Re-submit the form, properly executed, using each column under item 8 for what it was intended.

3. The records show that as originally received, your report failed to include entries under item 8 to cover your absence from July 3 to 16 and Asst. Keeper's (Wilson) absence from July 16 to 27, that the report was returned to you with memo attached requesting the insertion of this information, was again received without these entries, and returned by letter of August 15, 1932, specifically directing that you "insert in detail x x all absences in excess of six hours". Notwithstanding these explicit instructions, your report was received back here showing merely the fact that you left the station on July 3 and that Mr. Wilson left the station on July 16, neither the hour of departure nor date and hour of return being shown in either case.

4. The only exception to the requirement that absences be reported in detail as to date and hour of departure and return is in the case of absences covered by Article 135, Instructions to Employees, 1927, 1st paragraph, i. e. absences not exceeding six hours for any of the reasons stated therein, which absences you were authorized by memorandum sent all keepers in 1928, to report as to dates only for each keeper. Nowhere in any instructions furnished you is there any authority for you to omit a detailed record of all absences in your "Record of Absences," form 303, as required by paragraph 2 of printed instructions therein, nor to omit from your monthly report, form 65, a detailed record of all absences of over six hours and all absences at night (after sunset).

CARDED

5. The necessity for returning this report to you three times denotes either a lack of the required intelligence for the position of principal keeper, negligence in keeping your records and submitting your reports, or an utter disregard of instructions furnished you, and as the instructions regarding this matter are so simple and plain that anyone should be able to understand and follow them to the letter, it must be assumed as attributable to one of the latter two reasons. In any event you are cautioned that any further failure to observe strictly instructions regarding this and

CHIEF CLERK

Frank Faulkingham, Keeper,
Moose Peak Lighthouse, Me.

LETTER OF CAUTION

1. According to report on your station, as submitted by Machinist Morong, you have been keeping your station short of necessary spare parts, such as only one unjacketed vaporizer at station to use on two fog signal engines, and not enough spare parts for IOV light.

2. You are cautioned to make out requisition for such spare parts as are needed for the proper upkeep of your station, so that if anything breaks or is disabled you have spare parts to make repairs and adjustments with. Important light and fog signal stations, such as Moosepeak, are equipped with two fog signal engines, spare parts for light and two keepers, so it may be an absolutely dependable aid to navigation, and you are there to see that such spare parts are on hand, and are in such condition that they can be used immediately in an emergency. If such parts are not on hand, and the light or fog signal is out of commission through such neglect on your part, it is cause for your dismissal from the service.

3. Be guided accordingly in future.

First District

Moosepeak Lt. Sta.

July 22, 1932.

Superintendent of Lighthouses,

Portland, Maine.

Sir:

I finished work at this station today and am leaving today for Petit Manan. The entire fog signal apparatus has been thoroughly overhauled and is now in first-class condition.

Please note that I have put a little stronger certification on the engine record for this station.

The condition of the fog signal apparatus as reported by the assistant keeper was somewhat exaggerated. Engines were in good working order except that one vaporizer was out of order, and the only good vaporizer was being shifted back and forth between the two units. One whistle clock was also out of commission; also lubricating oil supply ran out.

These things should have been reported to the office in the beginning and I have again cautioned keeper in regard to this. Fog signal however has a better general appearance than on my previous two visits here.

I have requested keeper to send in for repairs, 2 vaporizers complete for H.A. engines, and one whistle clock; also one stop watch for replacement. Have also asked him to requisition vaporizer and other spare parts for IOV light which should be on hand.

The practice of cleaning IOV vaporizers but once in four or five days is still being kept up here. The vaporizers are not soaked in kerosene and cleaned every day with a brush as is the practice at other station, but are ram rodded out with a piece of copper wire every four or five days. Consequence is accumulation of carbon and wires broken off in vaporizers.

The unjacketed vaporizer cap #4 for H.A. engines requisitioned by keeper is needed soon as the one now in use has a small hole coming in it.

Respectfully,

(SGD) F W MORONG
Machinist.

With reference to your reply of December 10 to my letter of the 7th regarding light at your station showing fixed at 5.00 a.m. of December 5, you are informed that your explanation for the failure of your light to show its proper characteristic is not satisfactory. You should see that your apparatus is in good condition at all times; that is what you are there for, and what will be required of you in the future.

It is a serious thing to exhibit a false light along the coast which might lead to disaster. It is hoped that there will not be any further complaints, and you are cautioned to see that there are none for which you are responsible as I will be compelled to take drastic action if there should be.

1. With reference to District letter of June 23, 1933, containing follow-up on caution of Frank Faulkingham December 22, 1932:

2. The Bureau is advised that at inspection of Baker Island Lighthouse, Maine, by the Superintendent on August 3, 1933, the station was found to be in good condition, and it is evident that the action of this office in cautioning this employee has taken effect.

1. The attitude of this keeper with respect of the disregard of "Instructions" for which cautioned has been satisfactory since that date.

2. While no immediate action seems necessary, this man will be kept under close observation, as stated in district letter of January 28, 1933, and further report submitted after the next inspection of his station. Due to pressure of other work, his station has not been inspected since district letter of January 28, 1933 was submitted.

Commissioner of Lighthouses:

Frank Faulkingham - Follow-up report on caution.

1. Since the Superintendent's letter of caution, dated July 27, 1932, the efficiency of this keeper with respect to the lack of attention for which he was cautioned has shown some improvement and he has performed his duties in a degree consistent with his capabilities and general makeup, with the exceptions noted in cautionary letters, dated August 23, 1932, and December 22, 1932.

2. I am not yet satisfied, however, that this man should be retained in the Service, and as he has but recently been transferred to a one-keeper station which was in A-1 condition when he assumed charge of it a careful check on subsequent developments thereat will be maintained and should he fail to keep the station up to the standard maintained by his predecessor, recommendation for suitable disciplinary action will follow.

1. Your letter of the 20th, offering as a reason for your not showing the Assistant Keeper, Moose Peak Lighthouse, while keeper of that station, my letter of October 25, 1932, regarding assistance to be granted workmen, as directed therein, the fact that the letter was misplaced by your wife and later found among your personal effects upon arrival at Baker Island Lighthouse:

2. This reason is not considered sufficient to excuse your failure to obey orders. Official correspondence should not be handled by your wife. Any letter received from this office should be thoroughly read immediately upon receiving it, and if it contains orders these orders must be carried out at the first possible moment, after which the letter should be filed in a gum-stub letter file, such as are provided for the purpose upon requisition.

Your letter of December 6th received and contents fully noted.

It is indicated by your letter that Mr. Faulkingham did not present to you a letter from this office, dated Odtober 25th, as directed. This matter will be taken up with him for the purpose of findihg out why instructions from this office were not carried out by him.

It is noted in your letter that you have apparently been more or less abused by Mr. Faulkingham since you have been at Moose Peak Lighthouse and have enumerated several things that have happened at the station or in some cases insinuated that the keeper was ashore when he should have been at the station.

In connection with the above, you are informed that I am not in sympathy with you due to the fact that you did not make reports of these conditions prior to Faulkingham leaving his post of duty at Moose Peak. Bringing up things at this time does not have the weight that ~~they~~ would have had had you had spunk enough to make these statements while he was at the station. In the future, whether at Moose Peak Lighthouse or at some other station in this district, if you feel that you are being ill-treated or imposed upon by the principal keeper, you should at once notify this office that conditions might be investigated.

Mrs. Colbeth asking me after Mr. Faulkingham had been attending them for several weeks, to take them up to Rock.

I told him I would take and come get him anytime in my boat.

He wanted me to use the Stat Boat after they had stove a hole in her, and lost the rudder, and at present the out side stuffing box is out next to the hub of the wheel.

SUPT. OF LIGHTHOUSES 1ST DIST. PORTLAND, MAINE SEP 26 1932

September 22, 1932

SPECIAL

Superintendent of Lighthouses, Portland, Me.

Your nominations of September 15 for the exchange of positions of Keepers Frank Faulkingham and Joseph Muise are herewith returned. The former rule as to making transfers at the corresponding salary step will continue operative when the effect is to decrease pay, but it will not be operative when the effect is to increase pay, in the latter case the pay to be at the minimum of the new range or at a step in the new range not exceeding the transferred employee's present pay if practicable. In this connection it appears that the case of Faulkingham could be approved without Presidential authority. However, the transfer of Muise from $1380 (1380-1740) to $1440 ($1440-1800) involves an administrative promotion to a higher grade for which Presidential authority must be obtained and therefore justification must be submitted, although the total cost to the Service would not be increased. Resubmit both cases accordingly if you desire.

August 23, 1932

CAUTIONARY LETTER.

Frank Faulkingham,
Keeper, Moose Peak LH., Me.

1. Your monthly report, form 65, for July is again returned for the third time - for correction of information under item 8.

2. The printed lay-out of item 8 is sufficiently explanatory of the form in which report of absences is to be made to require no further explanation or instruction. Re-submit the form, properly executed, using each column under item 8 for what it was intended.

3. The records show that as originally received, your report failed to include entries under item 8 to cover your absence from July 3 to 16 and Asst. Keeper's (Wilson) absence from July 16 to 27, that the report was returned to you with memo attached requesting the insertion of this information, was again received without these entries, and returned by letter of August 15, 1932, specifically directing that you "insert in detail x x all absences in excess of six hours". Notwithstanding these explicit instructions, your report was received back here showing merely the fact that you left the station on July 3 and that Mr. Wilson left the station on July 16, neither the hour of departure nor date and hour of return being shown in either case.

4. The only exception to the requirement that absences be reported in detail as to date and hour of departure and return is in the case of absences covered by Article 135, Instructions to Employees, 1927, 1st paragraph, i. e. absences not exceeding six hours for any of the reasons stated therein, which absences you were authorized by memorandum sent all keepers in 1928, to report as to dates only for each keeper. Nowhere in any instructions furnished you is there any authority for you to omit a detailed record of all absences in your "Record of Absences," form 303, as required by paragraph 2 of printed instructions therein, nor to omit from your monthly report, form 65, a detailed record of all absences of over six hours and all absences at night (after sunset).

5. The necessity for returning this report to you three times denotes either a lack of the required intelligence for the position of principal keeper, negligence in keeping your records and submitting your reports, or an utter disregard of instructions furnished you, and as the instructions regarding this matter are so simple and plain that anyone should be able to understand and follow them to the letter, it must be assumed as attributable to one of the latter two reasons. In any event you are cautioned that any further failure to observe strictly instructions regarding this and

other reports or records will be deemed justification for disciplinary action.

LETTER OF CAUTION

1. According to report on your station, as submitted by Machinist Morong, you have been keeping your station short of necessary spare parts, such as only one unjacketed vaporizer at station to use on two fog signal engines, and not enough spare parts for IOV light.

2. You are cautioned to make out requisition for such spare parts as are needed for the proper upkeep of your station, so that if anything breaks or is disabled you have spare parts to make repairs and adjustments with. Important light and fog signal stations, such as Moosepeak, are equipped with two fog signal engines, spare parts for light and two keepers, so it may be an absolutely dependable aid to navigation, and you are there to see that such spare parts are on hand, and are in such condition that they can be used immediately in an emergency. If such parts are not on hand, and the light or fog signal is out of commission through such neglect on your part, it is cause for your dismissal from the service.

3. Be guided accordingly in future.

Dear Sir:-

Am writing you a few lines in behalf of Mr Frank Jauckinghom. Of late I have heard there has been complaints go in to the office against him, which from the stand point I take is very false. I have made frequent visits to the light and I have always found things in my estimation 100 p. and in business dealings with him very satisfactory. I cant speak for others, but I have found him a true and faithful servant to Uncle Sam.

My dear Mr.Sherman:-

Pardon delay in answering yours of May 1 1930, but I wanted to see Frank and see how much gain he had made before answering. In the first place I wish ~~you~~ to refere you to Mr.Sampson and the interview I had with him, which you no doubt, know all about. I have nothing to add to that, or detract from it. I am firm in my belief that Frank has never neglected his duties Now to our mutton- I have delved as deep into the case as I can, and I believe that his condition is due to one bottle of Jamaca Ginger, given to him just previous to his attact. I believe him when he he states that, because of the fact that I had one case about the same time, that drank four bottles, and the results are about four ~~###~~ times as bad as Frankies. He tells me that it is the only thing he has drank since last Christmas, and knowing him as I do I believe he has come clean. Also he has promised me that he will cut out all this business.

He has improved some and is getting good controll of his legs, and can walk much better, but the toes are still paralized, i.e. he cannot yet wiggle them. The medical profession are all at sea as to the best treatment of these cases, and as to the end results. I most sincerely hope that you will give Frank the benefit of any doubts as to his fitness, and if you continue him in his job, I will promise you that if I shouldknow of anything in the future, that is not according to regulations, I wiil let you know, and I shall tell him so too.

[1] Insert here "swear" or "affirm," as the case may be.

[2] Insert here "sworn to" or "affirmed," as the case may be.

[3] The oath may be taken any time after the date of appointment and prior to the payment of compensation, but no compensation shall be paid until the oath is executed in proper form.

[4] This oath should be taken before a justice of the peace, notary public, judge, clerk of a court, a chief clerk in the office of a lighthouse inspector or other employee in the Lighthouse Service designated by a chief clerk, or any other officer having authority to administer oaths, but never before a collector of customs or postmaster, as neither officer has power to administer oaths in such cases. In case the officer administering the oath has no seal, his official character should be duly certified to by the clerk of the proper court or the proper county clerk, except in the case of chief clerks in the offices of lighthouse inspectors and other employees in the Lighthouse Service designated by them, who are not required to have a seal.

[5] Give this information in all cases where new oath is required.

Failure to fill out this oath properly will result in its return for correction.
