INSTRUCTIONS

This form requests information to permit the Social Security Administration to determine whether the veteran had active military or naval service during World War II (September 16, 1940--July 24, 1947) or post-World War II (July 25, 1947--December 31, 1956) for which military service wage credits may be granted.

The duplicate copy of this form should be kept in the veteran's military file. If there is ever a subsequent change made in the service or retirement record which affects the information furnished on this form, the Social Security Administration should be advised accordingly.

PART I—The items identifying the veteran are completed by the requesting Social Security Administration office shown in the upper right corner of the form. That office will also check the block(s) after "Part II" and/or "Part III" to show the type of information being requested.

PART II—When this block is checked in Part I, all applicable items in Part II are to be completed by the certifying agency. If additional space is needed, use the space under "Remarks" below or on the reverse side of the form. List each period of service and identify all periods of service designated as "active duty for training."

PART III—When this block is checked in Part I, all applicable items in Part III are to be completed by the certifying agency. Additional explanations may be entered under "Remarks" below or on the reverse side.

Military retired pay is based on the WW II or post-WW II period of service, as the case may be, if active service in the period *has ever* been directly credited (used) in establishing eligibility to the retired pay, or in computing the amount of such pay. Transfer to the Fleet Naval (or Marine Corps) Reserve is treated the same as a normal retirement for purposes of completing this form. A decision to retire an individual, when officially approved, constitutes a retirement even though for any reason no retired pay is ever made.

Items 1(c) and (d)—Active service was "used" in establishing eligibility to retired pay if it comprises part of the total minimum service required for retirement according to the provisions of law under which the veteran was actually retired. The fact that he was eligible for retirement under some other provision of law is immaterial.

Item 2(a)—Retired pay is "fixed" when one of several applicable formulas for computing retirement pay is selected. If the individual is given the option of deciding which formula is to be used, the pay is not "fixed" until the selection is made and approved.

Items 2(a), (b) and (c)—A "multiple of active service" is that number used to represent years of active service when computing retirement pay. For purposes of this multiple, fractions of one-half year or more of active service are counted as a whole year. However, when computing longevity retirement and pay from the Public Health Service, the multiple is the last full year.

Item 3—The terms "active duty" and "active duty for training" have the same meaning as defined in Sec. 102 of Public Law 881, 84th Congress (Servicemen's and Veterans' Survivor Benefits Act).

Remarks by Certifying Agency:

Elected to receive retired pay based on percentage of physical disability.

Gross retired pay per month - $229.43 (PL85-422).

My dear Mrs. Francis:

This will acknowledge receipt of your letter of 14 December 1961 inquiring about the disposition of the November retired pay check for your late husband, Norman Leo Francis, Boatswain's Mate, first class, United States Coast Guard, retired.

Retired pay checks are mailed out on the last day of the month. Your husband's November retired pay check was not mailed as we had received notification of his death prior to 30 November 1961. The only portion of this check due is the retired pay from 1 to 16 November 1961. The Form SF-1174 completed by you and returned in your letter is the claim for this sum. Your claim has been processed and forwarded for settlement. A check in settlement will be forwarded to you in the near future.

Very truly yours,

J. F. BILLS

Subj: FRANCK, Waverly R., Jr.(282-092)EN3(P), USCG; National Service Life Insurance, V 673 979, Application for Waiver of Premiums, Allotment Adjustment required.

1. Reference is made to the Application for Waiver of Premiums on National Service Life Insurance dated 14 June 1951 and Form 2528-A, Allotment Stoppage in the amount of $6.40 effective with the month of last payment June 1951 submitted by FRANCK.

2. Information received from the Veterans Administration indicates that the effective date of the waiver of premiums is 1 July 1951. Since the allotment deducted from FRANCK's pay for the month of May 1951 paid the premiums for the period of 1 June 1951 through 30 June 1951, there is an overpayment of one month's premium. It is therefore requested that a corrected allotment stoppage showing the effective month of discontinuance as May 1951 be submitted to Commandant (PS) and that FRANCK be recredited for the overcheckage of pay.

3. Advise Commandant(PS) of action that will be taken.

Mrs. Florence Elsie Francis

My dear Mrs. Francis:

Information has been received at Coast Guard Headquarters of the death of your husband, Norman Leo Francis, Boatswain's Mate, first class, United States Coast Guard, Retired. It is realized that in time of your bereavement consideration of financial matters concerning your husband's estate is difficult and trying. However, experience indicates it is best to handle these matters as expeditiously as possible.

It is requested that a certified copy of the certificate of death, issued as proof of your husband's death and a certified copy of the public record of your marriage be forwarded for our records.

At the time of death there was due your husband retired pay for the period 1 - 16 November 1961. Retired pay ceases at the death of a retired member and eligible dependents surviving are compensated by laws which are administered by the Veterans Administration. Veterans Administration Form No. VB 8-534, "Application for Dependency and Indemnity Compensation or Death Pension by Widow or Child" and Veterans Administration Form No. 21-530, "Application for Burial Allowance" are enclosed to aid you in making application for the Veterans Administration death benefits that may be available to you. It is requested that an itemized funeral bill be forwarded to substantiate your application for the burial allowance.

Four Forms No. SF-1174, "Claim of Designated Beneficiary for Unpaid Pay and Allowances of Deceased Member of the Uniformed Services" are enclosed to aid you in making application for the final retired pay due. These forms are to be completed in the presence of two witnesses. The original and two copies of the claim with a copy of this letter should be returned to Commandant (PS-1).

If you have any uncashed retired pay checks in your possession, these should be returned to Coast Guard Headquarters with the completed Forms SF-1174 for inclusion with the claim for the final retired pay due. Any other uncashed Government checks should be returned to the issuing agency.

Two Forms DD-1172, "Application for Dependents' Authorization for Medical Care Card" are enclosed to aid you in making application for medical care benefits. It is requested that both copies of this form be returned to Commandant (PS-1). Upon receipt of the completed applications they will be processed at Coast Guard Headquarters and then returned to you so that a DD-1173, "Uniformed Services Identification and Privilege Card" may be issued.

When the enclosed forms have been completed, return them to Commandant (PS-1) in the enclosed pre-addressed envelope.

INSTRUCTIONS

1. RENEWAL

RENEWAL OF NATIONAL SERVICE LIFE INSURANCE ON THE 5-YEAR LEVEL PREMIUM TERM PLAN.—Pursuant to the provisions of an amendment approved June 29, 1948, amending subsection 602 (*f*) of the National Service Life Insurance Act of 1940, as amended (Public Law 838, 80th Congress, approved June 29, 1948), all or any part of National Service Life Insurance on the 5-year level premium term plan, in any multiple of $500 and not less than $1,000, issued before January 1, 1948, may be renewed without medical examination for an additional 5-year period, upon application therefor and payment of the premium at the 5-year level premium term rate required at the attained age of the insured, before the expiration of the first term period.

2. EFFECTIVE DATE OF RENEWED INSURANCE

The renewal of the insurance for an additional 5-year period will become effective as of the day following the expiration of the preceding term period.

3. TOTAL DISABILITY INCOME PROVISION

(*a*) If the total disability income provision is in effect on a term policy which is being renewed, such protection may be continued and attached to the new policy by payment of the appropriate premium.

(*b*) If the total disability income provision is not in effect on the term policy which is being renewed, and the insured desires to apply for the benefit at the time of renewal, Veterans Administration Form 9–1606, "Application for Total Disability Income Provision Under the National Service Life Insurance Act of 1940 as Amended," should be completed in addition to this form.

4. PAYMENT OF PREMIUM

Payment of premium on National Service Life Insurance may be made by allotment from service pay (monthly [The allotment must be effected prior to the expiration of the term which will pay the first premium either by advance or deduction.]); deduction from Veterans Administration compensation, pension, or retirement pay (monthly, when insurance is in force); direct remittance to the Veterans Administration by money order, postal note, check, or draft made payable to the Treasurer of the United States. If premiums are not currently being paid by deduction from compensation, pension, or retirement pay due and payable monthly by the Veterans Administration, the first premium for the renewed insurance must be paid directly with this application, and if desired, deduction may then be authorized for the payment of subsequent premiums. If the premiums are currently being paid by this method, deductions may be authorized to pay the first and subsequent premiums for the renewed insurance. CASH (CURRENCY AND/OR COIN) TENDERED BY MAIL IS AT THE INSURED'S OWN RISK.

5. BENEFICIARIES

The insured may designate as principal and/or contingent beneficiary or beneficiaries any person or persons, firm, corporation, or other legal entity (including the estate of the insured) individually or as trustee. Any named beneficiary may be designated as "Principal Beneficiary" or "Contingent Beneficiary." Any named beneficiary who is not designated as "Contingent Beneficiary" will, in general, be presumed to be a principal beneficiary. A contingent beneficiary is a person designated to receive the insurance if the principal beneficiary predeceases the insured, or if the principal beneficiary, not entitled to settlement in one sum, dies prior to receiving any or all of the guaranteed monthly installments. The insured will have the right at any time, and from time to time, and without the knowledge or consent of the beneficiary or beneficiaries to cancel the beneficiary designation, or to change the beneficiary. Upon receipt by the Veterans Administration, a valid designation or change of beneficiary will be deemed to be effective as of the date of execution: *Provided*, That any payment made, before proper notice of designation or change of beneficiary has been received in the Veterans Administration, will be deemed to have been properly made and to satisfy fully the obligations of the United States under such insurance policy to the extent of such payments. A designation of beneficiary, but not a change of beneficiary, may be made by last will and testament duly probated. The insured cannot assign his National Service Life Insurance.

6. OPTIONAL SETTLEMENT

National Service Life Insurance shall be payable in accordance with the following optional modes of settlement:

(*a*) *Option 1.*—In one sum (face amount less any indebtedness).

(*b*) *Option 2.*—In equal monthly installments of from thirty-six (36) to two hundred forty (240) in number, in multiples of 12. If Option 2 is selected, the number of monthly installments must be specified also in the "Option" column of the "Designation of Beneficiary and Selection of Optional Settlement" section of the application.

(*c*) *Option 3.*—In equal monthly installments for one hundred twenty (120) months certain with such payments continuing during the remaining lifetime of the first beneficiary.

(*d*) *Option 4.*—As a refund life income in monthly installments payable for such period certain as may be required in order that the sum of the installments certain shall equal the face value of the contract, less any indebtedness, with such payments continuing throughout the lifetime of the first beneficiary: *Provided*, That such optional settlement shall not be available in any case in which such settlement would result in payments of installments over a shorter period than one hundred twenty (120) months.

During his lifetime the insured may select an optional settlement or revoke a previous selection of an optional settlement. No selection or revocation will be valid unless and until notice thereof is received in the Veterans Administration. A selection or change of option may not be made by last will and testament, except in connection with a designation of a beneficiary by last will and testament. Option 3 or 4 may not be selected where the beneficiary is a firm, corporation, legal entity (including the estate of the insured), or trustee. If no option is selected by the insured, settlement will be made in 36 equal monthly installments but the designated beneficiary may elect to receive settlement under Option 2, 3, or 4. If the insured selects Option 1, the beneficiary upon the death of the insured may elect Option 2, 3, or 4. In the event of the death of such beneficiary, the present value of any unpaid guaranteed installments will be payable to the estate of the beneficiary to the exclusion of any contingent beneficiary designated by the insured. If the insured makes no selection or selects Option 2, 3, or 4 and the principal beneficiary and contingent beneficiary, if any, die before receiving the guaranteed number of installments thereunder, the present value of such remaining unpaid installments will be payable to the estate of the insured. No payment will be made to any estate where such payment would escheat. THE INSURED MAY SELECT MORE THAN ONE OPTION AND SEPARATE OPTIONS FOR SEPARATE BENEFICIARIES. If the insured selects one of the installment options for the principal beneficiary, he may select a different option for the contingent beneficiary, to be effective in the event the principal beneficiary dies before receiving any payments. If the insured selects one of the installment options for the principal beneficiary, he may name a contingent beneficiary to receive the present value, in one sum, of any remaining unpaid guaranteed installments upon death of the principal beneficiary. In that event, the contingent beneficiary upon the death of the principal beneficiary, in lieu of payment in one sum, may elect to receive the remaining unpaid guaranteed monthly installments as they become due in accordance with the mode of settlement established at the time of death of the insured.

7. SIGNATURE OF THE INSURED

Signature of the insured should be in ink and witnessed by a person other than a designated beneficiary.

8. DISPOSITION OF THIS FORM

When completed, this form should be forwarded immediately to the office of Veterans Administration having jurisdiction of the policyholder's insurance records. If the applicant is in active military service, the application when completed should be placed in military or naval channels, through the officer responsible for insurance activities within his unit of organization for direct transmittal to the Veterans Administration, Washington 25, D. C.

Subj: Retired Pay

1. Reference is made to your undated letter making inquiry relative to the increase in your retired pay as a result of the passage of Public Law 351, 81st Congress, approved 12 October 1949.

2. You are advised that the President signed the Executive Order prescribing regulations as authorized by section 411, Public Law 351, on 25 April 1950; therefore, the Coast Guard may now proceed with the work involved in connection with making adjustments in the pay of personnel retired for physical disability prior to 1 October 1949. However, there are over 3,000 cases to be reviewed by a board to be convened for the purpose of evaluating the degree of physical disability that existed at the time of retirement before adjustment may be made. You will be notified within the next several months of the degree of physical disability which the board finds in your case so that you can make the election authorized under Sec. 411 of the Career Compensation Act of 1949.

3. The anxiety expressed by you in desiring to have your retired pay adjusted is understood and you can be assured that this office will expedite the forwarding of any further information relative to this matter as soon as possible.

1.On advice that information at this time is limited regarding retirement of former lighthouse service personnel(Civil Service)inducted into the Coast Guard, possible information is requested from Headquarters.I was enlisted into the regular Coast Guard from Civil Service status on 8 July,1941;retaining present position as Keeper-in-charge of Piedras Blancas Light-Station in the rating of Boatdwain's Mate first class.

2.On 1 December,1945,I concluded twenty years of Lighthouse Service including Coast Guard.I have had two years of service in the Army in World War 1.It is my desire to retire on the accumulated years of Government service at the ter--mination of present enlistment which expires 8 July,1947,but I will accept earliar retirement if convenient to the service,should retirement be approved.

3.For the past four years I have been suffering from acute attacks of Sinus, including arthritis which has settled in the Lombar region adjacent to an old injury contracted in the lighthouse service while on duty.Complications set in at more frequent intervals and only temporary relief can be obtained because of the climatic conditions the duties of a lighthouse keeper subjects him to.

I. At a "Board of Medical Survey" in Jan. 1948 held at U.S. Marine Hospital (U.S.P.H.S. Hospital) at San Francisco, Calif. at which time it was recommended that I be retired from the U.S. Coast Guard (At Home Wat) for reasons of "Heart Condition - I was told I could give any statement desired for the "Record". This I did - asking that consideration be given to my years of experience, qualifications etc for the purpose of retiring me in the rating of Chief Boatswains Mate.

The answer given me would indicate that the policy of the 12th C.G. District offered extenuating circumstances where this step could not be taken, but that

in time it might be possible that Consideration would be given.

2. After a period of approximately eight years and at a time when Consideration of the sort would be highly appreciated, I am now asking that my "Record" Service be studied as to the qualifications + years of service, which I believe should have been requisite for "Chief Boatswains Mate" rating for retiring purposes.

Commandant,

I. As a former Light-house Keeper inducted into the Regular C. G. July 8, 1944 retired for reasons of "disability" May 1, 1948; it occured to me that for that number 4 years in the "Coast Guard", my "Records" do not indicate if my "Conduct" was good-bad-or indifferent + if good; my retirement pay does not indicate credit for retirement purposes.

Please advise.

3. NAV S&A Form 545, Allotment Authorization, enclosed herewith when signed and returned by you will accomplish the required allotment change. 1. There is herewith forwarded a notification from the Veterans Administration that the $5,000 level term National Service Life Insurance issued under policy number N 2 687 284 will expire on 30 April, 1950. RE: Norman L. Francis

Commandant
U. S. Coast Guard
Washington 25, D.C.

Dear Sir:

The marginally named Veteran has applied to this office for preferential credits in California State Civil Service Examinations and in substantiation of his rights to disability preference, has submitted a photostatic copy of his retirement orders dated 26 April 1948. This man has also submitted a Honorable Discharge from the Coast Guard with active service from 8 July 1941 to 7 July 1947.

We would like to know if this mans' service connected disability occured between 16 September 1940 and 31 December 1946 in order to qualify him for these benefits.

Your early attention to the above request will be appreciated.

Very truly yours,

James W. Cowan

1. You are detached from all duties previously assigned effective upon receipt hereof and are directed to proceed to your home and await orders pending action on the proceedings of the retiring board. Prior to detachment you will report to the Civil Readjustment Officer for an interview and explanation by that officer of the legal rights and benefits of retired personnel.

Upon detachment by the Civil Readjustment Officer, you will immediately notify the Commandant (PA-P) of your mailing address and of any change thereafter in that address. Your service and health records will be mailed to the Commandant (PR-C) on the date of your retirement.

4. In order to be reimbursed for your travel, you must complete all travel prior to one year from the date of your retirement or one year after the termination of war, whichever is later.

5. In the event you are placed on the retired list of the United States Coast Guard you will regard yourself relieved of all active duty as of the effective date of retirement.

6. Travel expenses incident to the execution of this order are chargeable to Headquarters allotment No. 051-20, under the authorization number indicated above. Transportation of dependents and household effects will be governed by Articles 456 (12) and 467 (5), respectively, Pay and Supply Instructions.

Ref: (a) VA Form 9-4457, countersigned 18 February 1955

1. There is herewith forwarded from the Veterans Administration Form 9-4457, National Service Life Insurance Renewal Endorsement, regarding the expiration of the term period of the $5,000 National Service Life Insurance issued to you under policy number V 14 258 798. The term period will expire on 30 April 1955. In order that you may continue to have the protection of this insurance, it must be renewed or, if you prefer, it may be converted to one of the six permanent plans of insurance.

2. Your attention is called to the fact that it will not be necessary for you to submit an application for renewal to this office. Public Law 148, 83d Congress provides for the automatic renewal of the term period of all National Service Life Insurance and United States Government Life Insurance that expires on or after 23 July, 1953 provided that the policy is in force at the end of the term period.

3. There is in effect at the present time an allotment of your pay in the amount of $6.75 per month for premiums on National Service Life Insurance as follows:

$6.75 - $5,000 Level Term Insurance V 14 258 798 ren. effective 1 May 1950

If the insurance is renewed, a new allotment in the amount of $9.50 should be established with the month of first payment April 1955 and the present allotment of $6.75 should be discontinued with the month of last payment March 1955 to confirm the administrative change authorized by Headquarters.

4. The necessary Allotment Authorization, Nav S&A Form 545, should be forwarded to Commandant (PS).

Subj: Family Allowance: Non-receipt of.

1. Advising that after a period of two years or more in which Family Allowance of $50.00 monthly was received by my wife (Mrs. Florence. E. Francis-San Simeon, Calif) payment of Allowance abruptly ceased and no Allotments have been received for May, June and July of 1946. Letters written to Offices concerned have failed to bring an answer to the situation.

2. Forty-nine dollars a month for the period; non-receipt of Allotments; has been deducted from my Compensation for the Family Allowance; One dollar a month payed by the Service. This has been the procedure since the original application began. There has been no change of address or amount of Allowance to cause delay. I have been advised by telephonic conversation with District Disbursing Office (12th CG District) that reports of pay-deductions for Family Allowance's are submitted Headquarters and hence to Family Allowance Division (Navy Dept) at Cleveland, Ohio for their information for making up Allotment checks. Apparently this information is failing to reach the proper source, or the Allowance's would be received.

3. I have submitted ALLOTMENT STOPPAGE application to my District Disbursing Office, beginning as of 31 July, 1946, termination of Family Allowance. The purpose of Family Allowance has been served. Meanwhile however, personnel obligations of immediate family make it necessary for me to remind the Service that the receipt of the Allowance's for the months stated would afford considerable relief.

Dear Sirs;

After waiting for some time for an answer, I am again writing you to inform your office that I am not receiving my allotment,(family allowance) and have received no allotments for the months of May, June, July and August.

The Cleveland Office, (Navy Dept) Division of Family Allowances, states that my correspondence with them concerning non-receipt of allotments has been referred to your Office for correction. This was on 21 August 1946.

The Allotment is in the amount of fifty dollars a month and was originally started through the 12th Naval District (Coast Guard at San Francisco), about three years ago and had been received promptly until beginning 1 May 1946 when they stopped. My husband has taken up the matter with the Pay-Office in San Francisco and from the records it would indicate that your office is responsible for the Allotment not reaching me.

There has been no change in status or station, rating or address. My husband's name is NORMAN LEO FRANCIS(221-351)BM1c. I reside with him at his duty station which is PIEDRAS BLANCAS LIGHT STATION, address of which is SAN SIMEON, CALIFORNIA, the same address other Allotments have been forwarded to prior to their sudden stoppage.

Will your office please give this matter your earliest attention as it is causing considerable financial difficulties.

Sincerely yours,

MRS. FLORENCE ELSIE FRANCIS

Dear Sir;

I wrote Military Morale Section Sept.22,1946 on advice of Navy Dept(Family Allowance Division)Bureau of Accounts and Supplies at Cleveland,Ohio,in regards to my not receiving my Allotments of fifty dollars a month for the months of May,June,July,August and September.This money has been deducted from my husbands pay each month,but as I stated I have not received the Allotments which deductions in pay made up.

The Allotment was started in 1943 I believe through the 12th Naval District (Coast Guard) San Francisco,Calif.I received it promptly each month until Mayl,19 1946 at which time the Allotments stopped coming.They were received through the Navy Dept(Family Allaewances)Bureau of Accounts and Supplies:Cleveland,Ohio.

There has been no chnage in my marital status or address.My husbands name i is NORMAN.L.FRANCIS(221-351)BM1c (Coast Guard) and is stationed at Piedras Blanca Light-Station ;San Simeon,California.He has been stationed at this place for nearly thirteen years.I reside with him and have for the entire thirteen years.

The Allotment checks always came addressed to Mrs.Florence.E.Francis;San Simeon,Calif.Thismatter is causing me great concern and I think that the inconvenience caused by the non-receipt of Allotments entitles me and my husband, even if he is in the Coast Guard;to some explanation.Please give this matter your attention.My husband took the ma ter up with the District Disbursing Office several times but they always refer him to Headquarters;at Washington;D.C.including THAT a despatch would be forward Headquarters inquiring into the matter.I doubt if any dispatches have been sent.

yours truly,

Dear Madam:

I am in receipt of your letter dated September 22, 1946, relative to non-receipt of family allowance checks on your behalf for the months of May, June, July, and August, 1946.

Records at Headquarters show that payment of this family allowance has been held by the Navy Department, Field Branch, Bureau of Supplies and Accounts, Family Allowance Division, Cleveland, Ohio. These checks were held by the Navy Department based on information which was received by that office from the Commander, 9th Coast Guard District, Cleveland, Ohio, to the effect that your husband had obtained a divorce from you on 16 April, 1946. Headquarters notified the Navy Department on 22 July, and again on 5 September, 1946, that there was no record of such divorce in our files. We are forwarding your recent letter to the Navy Department with the request that payments be released.

In the event that you are not in receipt of these back payments of family allowance within the near future, it is suggested that you communicate again with the Navy Department at their Cleveland office.

By direction of the Commandant.

Very truly yours,

The board met at 2:10 p.m.

Present:

Captain Gordon A. Littlefield, U. S. Coast Guard, president;
Commander George H. Miller, U. S. Coast Guard, member;
Lieutenant Commander Wayne L. Goff, U. S. Coast Guard, member and recorder;
Senior Surgeon Robert K. Maddock, U. S. Public Health Service, member;
Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service, member.

Harold Worster, yeoman, first class, U. S. Coast Guard, entered as reporter and was duly sworn.

The board decided to sit with open doors.

Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, the party under examination, entered and stated that he did not desire counsel.

The recorder read the precept and the modifications thereto, and the order to the party under examination, copies hereto prefixed, marked "A", "A(1)", "A(2)" and "B".

The recorder informed the board and the party under examination that Senior Surgeon Robert K. Maddock, U. S. Public Health Service, and Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service, were designated orally on February 24, 1948, by William Y. Hollingsworth, Medical Director, U. S. Marine Hospital, San Francisco, California, to act as medical members of the board convened in this case.

The party under examination was informed of his rights.

The party under examination stated that he did not object to any member.

The board and the recorder were duly sworn.

No witnesses not otherwise connected with the inquiry were present.

A letter appended, marked "C", was received from headquarters, transmitting the papers named therein, which are appended, marked "1(1)" to "3", all of which were read by the recorder.

The medical members were directed to examine into the past and present physical and mental condition of Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard; letter of instructions appended, marked "4". Such examination having previously been made the board proceeded.

The party under examination was asked by the president whether he wished to be retired and replied in the affirmative.

The party under examination was duly sworn as a witness.

Examined by the recorder:

1. Q. Francis, state the nature of your disability?
A. Coronary thrombosis or heart ailment disease.

2. Q. What is its cause?
A. Well, I don't know exactly.

3. Q. How long have you suffered from it. That is how long have you noticed symptoms which might indicate that you had this disease?
A. Well, symptoms I experienced about a year ago on and off, I don't know what it was at the time it started. I would say approximately a year ago, I can't say exactly. This distressed condition appeared in the chest upon exertion, climbing stairs or bending over on my knees in performing work, that is, painting and things like that, which I had to raise to my feet and take deep breaths to relieve the condition. However, this was in a rather minute form in the beginning and until October, correction, September of last year at which time I went on leave, the condition became more prominent. I was still unfamiliar with the cause or what it indicated. I experienced what I was told afterwards was a heart attack, about the last of September of last year 1947 in Las Vegas, Nevada, while sitting down in my ~~room~~ room at an auto court. The result was that for three days I was practically incapacitated still unfamiliar with what the condition was. I decided to lave Las Vegas, I was accompanied by my wife at the time, and go to Los Angeles to the Hotel Huntington, and there for two weeks I just rested up, laid around and did nothing. The condition still remained in a less degree than has been at Las Vegas. I returned to my station at the termination of leave about October 24, I believe it was, I am not sure. About October 26, I reported to Doctor Dunkley, a Public Health doctor at San Luis Obispo, California, for diagnosis and treatment. Doctor Dunkley put me on a diet, a 1500 calorie diet. I reported at four week intervals for further examination. Finally on December the 10th, the day I was to report to Doctor Dunkley again, I expressed the opinion, and if I can in this case; that I had symptoms of heart ailment.

At that time the doctor's opinion was that there was not a heart condition, however, he said he would take an electrocardiograph, which he did on that day, the results of which were shown to his associate Doctor Cotor, an ex-Army doctor, in his office. He immediately stated that I had heart trouble and that I should report to the Marine Hospital for further diagnosis and treatment. Doctor Dunkley contacted the District Office and a dispatch was forwarded from the District to the Commanding Officer, Monterey with orders to instruct me to report to the Marine Hospital.

4. Q. Francis, is there anything further you would like to add?
A. No, Sir.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as the party under examination.

The medical members submitted a report, which was sworn to, read, and appended marked "5(1)" and "5(2)".

Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service, the junior medical member of the board, was duly sworn as a witness.

Examined by the recorder:

1. Q. Doctor, from what cause does boatswain's mate, first class Francis's disability proceed?
A. From arteriosclerotic heart disease with coronary insufficiency.

2. Q. Is the disability permanent?
A. Yes.

3. Q. State the facts and reasons on which you base your conclusions, as to this permanency.
A. Well, from the nature of the ailment which we regard as due to arteriosclerosis of the coronary arteries and insufficiency of the blood supply to the heart muscles, and the fact that at the present time there seems to be no method of permanently relieving this condition. The fact that the observation of the patient during the past few months has revealed that his symptoms persist in spite of treatment and limited activity.

4. Q. Is boatswain's mate, first class Francis's disability such as to incapacitate him for active service?
A. Yes.

5. Q. State all the facts and reasons for your conclusions. Include details of recourse to medical stimulants which would be necessary in order to enable the Coast Guard to depend upon Francis to perform duty in active service.
A. The condition renders him incapable for active duty by the limitations imposed on his physical activities with the symptoms that have been described in the previous report. Recourse has been made to the usual medication used in this condition along with reduction in weight and physical activities with only temporary and transient relief in his symptoms. At the present time his capacity for physical exertion is such that very mild activity or exercise produces symptoms of coronary insufficiency.

6. Q. Have all reasonable measures for the amelioration of the disabling conditions been tried?
A. Yes.

7. Q. What were such measures and what were the results?
A. I think that would be answered in question five.

8. Q. Is his disability the result of an incident of service?
A. Yes.

9. Q. Was there any information before the medical members of the board which would lead you to believe that his condition might be due to vicious practices of his own?
A. There is none.

The party under examination did not desire to cross-examine this witness.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as a member.

Senior Surgeon Robert K. Maddock, U. S. Public Health Service, the senior medical member of the board, was duly sworn as a witness.

Examined by the recorder:

1. Q. Doctor, you have heard the questions that were put to Doctor Talbert, if these same questions were put to you would your answers be essentially the same?
A. Yes.

2. Q. Doctor, do you have anything to add to the testimony previously given?
A. No.

The party under examination did not desire to cross-examine this witness.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as a member.

Neither the board, the recorder, nor the party under examination desired to call any more witnesses.

Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, the party under examination, made the following oral statement:

"Well, having any dependents at my age as it is, 48 years, the amount of money derived from a disability pension is similarly insufficient to take care of the needs of two people. It has been my contention that I rate a consideration for retirement in the grade higher than the present one prior to retirement if retirement is approved, to affect the better financial income; that would help considerably at the present time. Physical disability would not allow me very good chances of making a living on the outside, except in a very minor degree. Well I think that is just about it.

Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, the party under examination, desired to make no argument.

The recorder desired to make no argument.

The inquiry was finished, the parth thereto withdrawing, having been informed that he would receive due notification when he might regard himself as discharged from further attendance before the board.

After full and mature deliberation the board finds as follows:

FINDING OF FACTS

That Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, is incapacitated for active service by reason of arteriosclerotic heart disease with coronary insufficiency; that his incapacity is permanent; is the result of an incident of service; and is not the result of his own vicious habits.

March 8, 1948

From: Senior Surgeon Robert K. Maddock, U. S. Public Health Service & Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service

To: President, Coast Guard Retiring Board

Subject: Francis, Norman Lee (221-351), BMlc, U. S. Coast Guard; examination for retirement.

We have carefully and separately examined BMlc Norman Lee Francis, U. S. Coast Guard, as to his past and present physical and mental condition, together with records pertaining to his case, and report as follows:

BMlc Norman Lee Francis is 48 years, 10 months and 7 days of age and has been in the U. S. Army for 2 years, in the U. S. Lighthouse Service for 16 years and in the U. S. Coast Guard for 6 years, 8 months and 2 days.

He has suffered from some of the common ailments including contusion, right great toe; hepatitis, toxic; obesity; jaundice; etc., which are shown to have originated in the line of duty and which have no bearing on his present condition.

He was first admitted to this hospital on December 11, 1947 with chief complaints of intermittent substernal pain radiated to the mandible, of about fifteen months duration. This symptom was accompanied by shortness of breath on exertion but there was no history of nocturnal dyspnea or edema. In December, 1946, he experienced a severe episode of this substernal pain but did not seek medical advice until some time later at which time he was placed on a reducing diet. His symptoms, however, persisted and one week prior to the first hospital admission, he had an electrocardiograph taken which was reported to show myocardial damage and hospitalization was advised.

Physical Examination:
General,--well developed, well nourished, rather plethoric white male, who did not appear acutely ill thoughrather intense and apprehensive.
EENT,--not remarkable.
Lungs,--revealed no rales or dullness.
Heart,--was not enlarged to percussion; rhythm was regular; sounds of good quality and no murmurs detected. Blood pressure, 140/80.
Liver,--was just palpable at the right costal margin and was not tender.
Extremities,--There was no edema, clubbing or cyanosis of the extremities.

Laboratory Studies:
Urinalysis,--color, straw; sp.gr., 1.036; reaction, acid; albumin, blood, sugar, casts, pus, zero.
Kahn,--negative.
White blood count, 8,600; hemoglobin percent, 16.9.gm; small mononuclears, 26; transitionals, 4; eosinophiles, 7; neutrophiles, 62; basophiles, 1.

Laboratory Studies (Con'd)
NPN,--30 mgm %.
Fasting blood sugar,--108 mgm%.
Sedimentation rate,--2 mm/hr.
Electrocardiograph,--"myocardial damage, probable old posterior infarct."
Xray of chest,--"Heart size, T-D value, Ungerleider's table, is minus 10%. Essentially a negative chest."

Hospital Course:
The patient was placed initially on bed rest for observation as well as a reducing diet, and electrocardiographic studies revealed myocardial damage, coronary type, suggestive of a possibly old myocardial infarct. He had occasional episodes of substernal pain relieved by nitroglycerine but was, after one week's observation, allowed to be ambulatory without any exaggeration of his symptoms. The remainder of his hospital course was essentially uneventful and he was discharged on two weeks' convalescent leave, to return at the end of that time for re-examination and disposition.

He returned to the hospital on January 16, 1948, for re-examination, in the interval having had substernal pain on occasions precipitated by exertion, and exertional dyspnea. The physical findings remained unchanged as did the laboratory and electrocardiograph findings. It was the opinion of the attending physicians that this man should be retired from the U. S. Coast Guard for medical reasons. This patient was re-examined on March 4, 1948 at which time there was apparently no change in his condition.

Recommendations:
It is the opinion of the examiners that this patient is no longer fit for active duty in the U. S. Coast Guard because of symptoms and laboratory findings consistent with arteriosclerotic disease with anginal syndromes and possibly myocardial infarct in the past. His condition was not brought about by his own vicious habits and did not exist prior to enlistment in the U. S. Coast Guard, and was aggravated by service duties. Further, it is the opinion of the Board that he should be retired from further duty in the U. S. Coast Guard.

FACTS ARE AS FOLLOWS: This 43 yr old white male USCG, was readmitted to this hospital for observation and medical survey with the chief complaint of intermittent precordial pain of one year's duration. He was first seen in this hospital in DEC 42 following the electrocardiograph finding consistent with myocardial damage. The pain was induced by exertion radiated to the mandible and was associated by shortness of breath on exertion. There was no history of edema, paroxysmal nocturnal dyspnea or hypertension. During the year prior to his admission the only treatment consisted of a reduction diet on which he lost 20 or 30 lbs. The physical findings on the first admission revealed moderate obesity, clear lungs and a heart that displayed no murmurs with normal blood pressure. There were no signs of congestive failure. The EKG showed changes consistent with myocardial damage possibly due to an old posterior infarct. He was discharged on Convalescent Leave and returned at this time for readmission

PRESENT EXAMINATION: Well developed well nourished white male moderately obese. Head and neck within normal limits, pupils equal and round, reactive to light. Increased AP diameter of chest. Lungs clear. Left border of the heart in the midclavicular line. Rhythm regular sounds of good quality, no murmurs. Abdomen obese with liver palpable at right costal margin. No clubbing, cyanosis or edema of extremities. Reflexes equal and active. No pathological neurological signs.

LABORATORY DATA: Kahn negative. RBC 4,200. Normal differential. Hgb 15.7Gms. Urine normal. Electrocardiograph consistent with myocardial damage. Chest x-ray at previous admission showed the heart not to be enlarged, the lungs clear.

COURSE: Patient was placed on mild sedation, was given nitroglycerine for relief of substernal pain which occurred occasionally. Moderate exertion produced slight dyspnea but there was no edema. His hospital course was afebrile except for slight fever of two days associated with upper respiratory infection. The remainder of the course was uneventful.

GENERAL INSTRUCTIONS

1933

1. A Health Record will be opened (issued) for each person commissioned, warranted, appointed, or enlisted in the Coast Guard: For cadets, upon reporting at the Academy; for an officer appointed from civil life, upon reporting at first unit; for enlisted persons, upon enlistment.

2. The medical officer, if any, shall have custody of the Health Records of all persons attached to the unit, including the personnel of smaller units attached to a larger unit. If there be no medical officer attached, the custody of the Health Records will devolve upon the executive officer, if he be a commissioned officer; otherwise the custody of the Health Records will devolve upon the commanding officer. The officer having custody of the Health Records shall be responsible for their proper care, continuation, and disposition.

3. In case of medical examination for promotion, retirement, annual commissioned officers' examination, or medical survey, the Health Record shall be furnished to the president of the board. If not received, it should be requested. When the board shall have finished with the Health Record, it shall be returned to its custodial officer. In all cases, brief notation of the findings of the board will be made on the Medical History Sheet, signed by the president of the board. This notation does not take the place of the full report which is submitted for administrative action.

4. A person on detached duty at some distance from where his Health Record would be kept may be given custody of his Health Record.

5. If a Health Record is lost or destroyed, a new one shall be immediately opened in full by the first custodial officer aware of such loss, who will note the fact in the new record and continue the record with such previous data as may be obtainable. If the old record be found, all data subsequent to its loss will be detached from the new and attached to the old record. A skeleton Health Record shall not be issued.

6. No photographs, folded papers, or forms are to be attached to the Health Record. The findings on laboratory and other reports in the case shall be entered on the Medical History Sheet.

7. **Transfer.**—Upon transfer of any person, except as a patient, the Health Record shall be forwarded through official channels to the new destination, or if the person is ordered to unusual, detached, or uncertain duty, it shall be retained or forwarded, as the case may be, with the person's service record. (See par. 4.)

8. The Health Record shall accompany a patient when transferred to or from hospital or when applying at an out-patient office. It shall not be forwarded through official channels, but shall be taken by the patient in a sealed envelope or by a responsible person accompanying him, and delivered with the patient to the official receiving the patient. Upon the patient's return to his unit the Health Record is to be delivered to the custodial officer.

9. If for any reason it becomes necessary to forward the Health Record to Headquarters, other than for termination of service noted thereon, it shall be accompanied by a letter stating the reason.

10. **Physical Examination Record.**—The Coast Guard Board or officer making the request for physical examination shall send to the medical board or officer two forms for physical examination record, already made out down to but not including place and date. The medical board or officer shall make out the rest of the Physical Examination Record in duplicate. In case of appointments or promotion of an officer, both forms shall be mailed by the board or officer direct to Headquarters. When promotion is made the original will be forwarded to the unit for insertion in the Health Record on top of the last Physical Examination Record. The Health Record shall be retained, but altered to show the promotion and new rank. No part of the Health Record is to be sent to Headquarters at this time. In case of enlistment both forms shall be returned to the enlisting officer, who will forward the original to Headquarters with other supporting papers after enlistment has been accomplished. The duplicate will be placed in the man's Health Record. In cases of reenlistment both forms will be forwarded to Headquarters for action and reenlistment will not be effected until duplicate copy is returned showing Headquarter's action. Upon receipt of duplicate copy from Headquarters same will be inserted in the Health Record.

11. The record shall be typewritten, if possible, and must be completely filled in as called for by the items on the form and in accordance with the instructions relative to the making of physical examinations. If any space is insufficient, the space under "Remarks" may be used.

12. The nature and degree of all physical defects of persons accepted for service in the Coast Guard must be fully described in order that no improper claims for compensation or pension may be allowed. Particular attention should be paid to those conditions which may not be disqualifying but which might be made the basis of such claims on the ground that they have developed or have become disabling while the person was in service. Waivers may be recommended by the medical examiner in accordance with the instructions relative to physical examinations, but the waiver must be authorized by the Commandant before the person is accepted.

INSTRUCTIONS

Enter result as "Primary reaction" (PR); "Accelerated reaction" (AR); "Immunity reaction" (IR) or "Failure" (F).

Inspect primary vaccinations ten (10) to fifteen (15) days after vaccination, revaccinations two (2) to four (4) days after revaccination and later if a primary or slow accelerated reaction is developing. Upon a revaccination first make a control scarification unless the "multiple pressure" method is used.

PR.

Primary reactions are those in which the broadest redness occurs eight (8) to fourteen (14) days after vaccination; they always have a vesicle.

AR.

Accelerated reactions are those in which the broadest redness occurs four (4) to seven (7) days after vaccination; they also have a vesicle.

IR.

Immunity reactions are those in which the broadest redness occurs eight (8) to seventy-two (72) hours after vaccination; such a reaction is evidence of immunity only if fully potent vaccine was used. The vaccine should be kept constantly at or below freezing or be used within two weeks after leaving the manufacturers and be kept in an icebox meanwhile. If these conditions are not known to have been fulfilled, an apparent immunity reaction should be marked with a question mark (IR?).

F.

Failures are all other reactions or no reaction.

When either vaccination or inoculation is completed and entered on the record sheet, a duplicate entry shall be made on a duplicate sheet which shall be immediately forwarded to Headquarters.

History Sheet. In the case of change in name, the name shall be corrected wherever appearing in the Health Record.

14. **Termination of Health Record Sheet.**—Upon termination of a person's service (discharge, resignation, desertion, retirement, or death) the termination or Health Record Sheet shall be filled in and the Health Record forwarded to Headquarters. If for reasons other than physical disability, a physical examination of the person shall be made in accordance with Coast Guard Regulations, and notations made as called for by the form. Termination of service should be understood as definite separation from the service or from active duty in case of retirement. Discharge for immediate reenlistment, at the same unit, resignation of temporary status to continue in regular status, or retirement with continuation on active duty are not to be considered as termination of service.

15. **Dental Record.**—The Dental Record is intended for the use of dental officers only. The record of first dental examination should be filled in at the first visit to the dental officer. All dental treatments following the first examination shall be recorded on the proper diagram and noted on the reverse of the sheet with sufficient entries to show beginning and end of treatment, diagnosis, and nature of treatment.

16. Dental treatments shall not be entered in the Medical History Sheet except those incident to treatment of a medical condition. However, notes of unusual dental conditions or treatments which may be of medical interest may be made in the medical history.

17. When a patient is sent for dental treatment, the Health Record will be sent to the dental officer concerned. Upon completion of treatment and necessary entries on the Dental Record Sheet, the dental officer will immediately return the Health Record to the custodial officer.

18. Dental officers shall notify the proper medical officer of any case which may require medical attention.

19. When dental work is done by a private dentist, the person will take a blank dental record sheet to the dentist and request him upon completion of treatment to enter briefly thereon the dental work done. This sheet shall then be inserted in the Health Record.

20. **Vaccination and Inoculation Record.**—Smallpox vaccination and typhoid prophylaxis shall be noted in the spaces provided for these entries. These spaces shall be used only for these operations done after the person has entered the Coast Guard. Statements of these operations done previously shall be noted in the Medical History. Results of smallpox vaccination shall be entered as "PR" (primary reaction); "AR" (accelerated reaction); "IR" (immunity reaction); of "F" (failure). These terms are explained on the back of the record sheet. When vaccination or inoculation is completed, report of same with result shall be entered on the record sheet.

21. **Medical History Sheet.**—As the medical history is continuous, care must be taken to indicate the name of the place and date of each entry and to number the sheets consecutively. The full name, serial number, rank, or rating of the patient shall be entered upon each sheet. The name of a Coast Guard unit is usually sufficient when a man is treated there; as, "CHELAN", "BASE TWO", etc. The name of the city or town should be stated when necessary to complete the sense; as, "U.S. Marine Hospital, Stapleton, N.Y."; "U.S.P.H.S. Relief Station, Philadelphia, Pa.", etc.

22. Daily entries are not obligatory, but entries shall be made as often as required to give concisely the diagnosis, origin, misconduct status, and all essential details regarding symptoms, course, laboratory findings, treatment or refusal of treatment, and results. If a conflicting opinion relative to origin, misconduct status, etc., is subsequently expressed by the same or some other medical officer, the reason for such change shall be fully stated. Diagnosis shall conform by name and number to the Official Nomenclature of the U.S. Public Health Service.

23. Trivial affections not requiring admission to the sick list may be indicated by a "note." No case of venereal disease and no case involving absence from duty on account of sickness shall be recorded as a "note" on the Medical History Sheet.

24. Should a wrong entry be made, it shall not be erased or changed, but an additional entry shall be made showing wherein and to what extent the original entry is in error, then signed by the medical officer.

25. In the case of a unit having a pharmacist's mate but no medical officer attached to it, the pharmacist's mate shall make and sign entries in the Health Record covering treatments given by him. In case there is neither medical officer nor pharmacist's mate, entries should be signed by the officer who gives the treatment.

26. As the Health Record is to continue during a person's entire service, it may become too bulky, by reason of accumulation of Medical History Sheets, to be conveniently handled. In such cases these sheets may be removed and forwarded to Headquarters, except a few sheets of the latest dates. An abstract will be made of the removed sheets when received by Headquarters and the abstract will be forwarded to the unit to be inserted in the Health Record. After the receipt of the abstract the unit when forwarding additional Medical History Sheets from time to time will enter upon the Abstract Sheet the data as shown in the Medical History Sheets prior to mailing to Headquarters. In this manner the Abstract Sheet will always be current after it is once issued.

27. The Medical History Sheets for officers are kept in the same manner as for enlisted men, but should be disposed of in the following manner: Upon completion of annual physical examination, all sheets containing medical history entries made during the preceding 12 months shall be detached and forwarded attached to annual physical examination reports to the Commandant, U.S. Coast Guard, care being taken to place the name in full, together with the date on the top sheet. If on the sick list at the time, procedure may be delayed until discharged from treatment. Attention is invited to the fact that the complete Health Record should be taken by the officer to the examining board at time of examination. (See par. 3.)

28. The Syphilitic Abstract Sheet will only be inserted in the Health Record after a diagnosis of syphilis has been made by a medical officer. Marine hospitals and other stations will be furnished a supply of blank Syphilitic Abstract Sheets, and when a diagnosis of syphilis has been established the sheet will be filled in as called for by the form and used thereafter to record syphilitic history. This abstract does not take the place of the usual entries made in the Medical History, but it is additional thereto.

29. The Abstract of Service Sheet appearing on the reverse side of the Termination of Service Sheet is self-explanatory. Upon receipt of a Health Record at a Coast Guard unit the necessary entry will be made on this sheet.

FACTS ARE AS FOLLOWS: This 48 yr old white male BMlc USCG, was readmitted to this hospital for observation and medical survey with the chief complaint of intermittent precordial pain of one year's duration. He was first seen in this hospital in DEC 47 following the electrocardiograph finding consistent with myocardial damage. The pain was induced by exertion radiated to the mandible and was associated by shortness of breath on exertion. There was no history of edema, paroxysmal nocturnal dyspnea or hypertension. During the year prior to his admission the only treatment consisted of a reduction diet on which he lost 20 or 30 lbs. The physical findings on the first admission revealed moderate obesity, clear lungs and a heart that displayed no murmurs with normal blood pressure. There were no signs of congestive failure. The EKG showed changes consistent with myocardial damage possibly due to an old posterior infarct. He was discharged on Convalescent Leave and returned at this time for readmissio

PHYSICAL EXAMINATION: Well developed well nourished white male moderately obese. Head and neck within normal limits, pupils equal and round, reactive to light. Increased AP diameter of chest. Lungs clear. Left border of the heart in the midclavicular line. Rhythm regular sounds of good quality, no murmurs. Abdomen obese with liver palpable at right costal margin. No clubbing, cyanosis or edema of extremities. Reflexes equal and active. No pathological neurological signs.

LABORATORY DATA: Kahn negative. WBC 4,800. Normal differential. Hgb 15.7Gms. Urine normal. Electrocardiograph consistent with myocardial damage. Chest x-ray at previous admission showed the heart not to be enlarged, the lungs clear.

COURSE: Patient was placed on mild sedation, was given nitroglycerine for relief of substernal pain which occurred occasionally. Moderate exertion produced slight dyspnea but there was no edema. His hospital course was afebrile except for slight fever of two days; associated with upper respiratory infection. The remainder of the course was uneventful.

FINDINGAS AND RECOMMENDATION OF THE BOARD: It is the opinion of the members of this Board that this patient is no longer fit for Service in the U.S. Coast Guard, and that he should be retired for physical disability. It is further the opinion of the members of this Board that his condition is incident of the Service, did not exist prior to enlistment in the U.S. Coast Guard, and is not due to his own vicious habits. It is further recommended that he be granted Sick Leave pending action of Coast Guard Headquarters upon the recommendation of this Board.

March 8, 1948

From: Senior Surgeon Robert K. Maddock, U. S. Public Health Service & Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service

To: President, Coast Guard Retiring Board

Subject: Francis, Norman Leo (221-351), BMlc, U. S. Coast Guard; examination for retirement.

We have carefully and separately examined BMlc Norman Leo Francis, U. S. Coast Guard, as to his past and present physical and mental condition, together with records pertaining to his case, and report as follows:

BMlc Norman Leo Francis is 48 years, 10 months and 7 days of age and has been in the U. S. Army for 2 years, in the U. S. Lighthouse Service for 16 years and in the U. S. Coast Guard for 6 years, 8 months and 2 days.

He has suffered from some of the common ailments including contusion, right great toe; hepatitis, toxic; obesity; jaundice; etc., which are shown to have originated in the line of duty and which have no bearing on his present condition.

He was first admitted to this hospital on December 11, 1947 with chief complaints of intermittent substernal pain radiated to the mandible, of about fifteen months duration. This symptom was accompanied by shortness of breath on exertion but there was no history of nocturnal dyspnea or edema. In December, 1946, he experienced a severe episode of this substernal pain but did not seek medical advice until some time later at which time he was placed on a reducing diet. His symptoms, however, persisted and one week prior to the first hospital admission, he had an electrocardiograph taken which was reported to show myocardial damage and hospitalization was advised.

Physical Examination:

General,--well developed, well nourished, rather plethoric white male, who did not appear acutely ill though rather intense and apprehensive.
EENT,--not remarkable.
Lungs,--revealed no rales or dullness.
Heart,--was not enlarged to percussion; rhythm was regular; sounds of good quality and no murmurs detected. Blood pressure, 140/80.
Liver,--was just palpable at the right costal margin and was not tender.
Extremities,--There was no edema, clubbing or cyanosis of the extremities.

Laboratory Studies:

Urinalysis,--color, straw; sp.gr., 1.036; reaction, acid; albumin, blood, sugar, casts, pus, zero.
Kahn,--negative.
White blood count, 5,600; hemoglobin percent, 16.9.gm; small mononuclears, 26; transitionals, 4; eosinophiles, 7; neutrophiles, 62; basophiles, 1.

~~"5(1)"~~

(8)

Laboratory Studies (Con'd)
NPN,--30 mgm %.
Fasting blood sugar,--108 mgm%.
Sedimentation rate,--2 mm/hr.
Electrocardiograph,--"myocardial damage, probable old posterior infarct."
Xray of chest,--"Heart size, T-D value, Ungerleider's table, is minus 10%. Essentially a negative chest."

Hospital Course:
The patient was placed initially on bed rest for observation as well as a reducing diet, and electrocardiographic studies revealed myocardial damage, coronary type, suggestive of a possibly old myocardial infarct. He had occasional episodes of substernal pain relieved by nitroglycerine but was, after one week's observation, allowed to be ambulatory without any exaggeration of his symptoms. The remainder of his hospital course was essentially uneventful and he was discharged on two weeks' convalescent leave, to return at the end of that time for re-examination and disposition.

He returned to the hospital on January 16, 1948, for re-examination, in the interval having had substernal pain on occasions precipitated by exertion, and exertional dyspnea. The physical findings remained unchanged as did the laboratory and electrocardiograph findings. It was the opinion of the attending physicians that this man should be retired from the U. S. Coast Guard for medical reasons. This patient was re-examined on March 4, 1948 at which time there was apparently no change in his condition.

Recommendations:
It is the opinion of the examiners that this patient is no longer fit for active duty in the U. S. Coast Guard because of symptoms and laboratory findings consistent with arteriosclerotic disease with anginal syndromes and possibly myocardial infarct in the past. His condition was not brought about by his own vicious habits and did not exist prior to enlistment in the U. S. Coast Guard, and was aggravated by service duties. Further, it is the opinion of the Board that he should be retired from further duty in the U. S. Coast Guard.

RECORD OF PROCEEDINGS

of a

COAST GUARD RETIRING BOARD

convened at the

U. S. Marine Hospital,

San Francisco, California,

Case of Norman L. Francis, Boatswain's Mate First Class,
U. S. Coast Guard.

COURTS AND BOARDS SECTION
Received 3/17/48

U. S. Marine Hospital,
San Francisco, California,
Monday, March 8, 1948.

The board met at 2:10 p.m.

Present:

Captain Gordon A. Littlfield, U. S. Coast Guard, president;
Commander George H. Miller, U. S. Coast Guard, member;
Lieutenant Commander Wayne L. Goff, U. S. Coast Guard, member and recorder;
Senior Surgeon Robert K. Maddock, U. S. Public Health Service, member;
Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service, member.

Harold Worster, yeoman, first class, U. S. Coast Guard, entered as reporter and was duly sworn.

The board decided to sit with open doors.

Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, the party under examination, entered and stated that he did not desire counsel.

The recorder read the precept and the modifications thereto, and the order to the party under examination, copies hereto prefixed, marked "A", "A(1)", "A(2)" and "B".

The recorder informed the board and the party under examination that Senior Surgeon Robert K. Maddock, U. S. Public Health Service, and Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service, were designated orally on February 24, 1948, by William Y. Hollingsworth, Medical Director, U. S. Marine Hospital, San Francisco, California, to act as medical members of the board convened in this case.

The party under examination was informed of his rights.

The party under examination stated that he did not object to any member.

The board and the recorder were duly sworn.

No witnesses not otherwise connected with the inquiry were present.

A letter appended, marked "C", was received from headquarters, transmitting the papers named therein, which are appended, marked "1(1)" to "3", all of which were read by the recorder.

The medical members were directed to examine into the past and present physical and mental condition of Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard; letter of instructions appended, marked "4". Such examination having previously been made the board proceeded.

The party under examination was asked by the president whether he wished to be retired and replied in the affirmative.

The party under examination was duly sworn as a witness.

Examined by the recorder:

1. Q. Francis, state the nature of your disability?
A. Coronary thrombosis or heart ailment disease.

2. Q. What is its cause?
A. Well, I don't know exactly.

3. Q. How long have you suffered from it. That is how long have you noticed symptoms which might indicate that you had this disease?
A. Well, symptoms I experienced about a year ago on and off, I don't know what it was at the time it started. I would say approximately a year ago, I can't say exactly. This distressed condition appeared in the chest upon exertion, climbing stairs or bending over on my knees in performing work, that is, painting and things like that, which I had to raise to my feet and take deep breaths to relieve the condition. However, this was in a rather minute form in the beginning and until October, correction, September of last year at which time I went on leave, the condition became more prominent. I was still unfamiliar with the cause or what it indicated. I experienced what I was told afterwards was a heart attack, about the last of September of last year 1947 in Las Vegas, Nevada, while sitting down in my ~~room~~ room at an auto court. The result was that for three days I was practically incapacitated still unfamiliar with what the condition was. I decided to lave Las Vegas, I was accompanied by my wife at the time, and go to Los Angeles to the Hotel Huntington, and there for two weeks I just rested up, laid around and did nothing. The condition still remained in a less degree than has been at Las Vegas. I returned to my station at the termination of leave about October 24, I believe it was, I am not sure. About October 26, I reported to Doctor Dunkley, a Public Health doctor at San Luis Obispo, California, for diagnosis and treatment. Doctor Dunkley put me on a diet, a 1500 calorie diet. I reported at four week intervals for further examination. Finally on December the 10th, the day I was to report to Doctor Dunkley again, I expressed the opinion, and if I can in this case; that I had symptoms of heart ailment.

At that time the doctor's opinion was that there was not a heart condition, however, he said he would take an electrocardiograph, which he did on that day, the results of which were shown to his associate Doctor Cotor, an ex-Army doctor, in his office. He immediately stated that I had heart trouble and that I should report to the Marine Hospital for further diagnosis and treatment. Doctor Dunkley contacted the District Office and a dispatch was forwarded from the District to the Commanding Officer, Monterey with orders to instruct me to report to the Marine Hospital.

4. Q. Francis, is there anything further you would like to add?
A. No, Sir.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as the party under examination.

The medical members submitted a report, which was sworn to, read, and appended marked "5(1)" and "5(2)".

Senior Assistant Surgeon (R) John D. Talbert, U. S. Public Health Service, the junior medical member of the board, was duly sworn as a witness.

Examined by the recorder:

1. Q. Doctor, from what cause does boatswain's mate, first class Francis's disability proceed?
A. From arteriosclerotic heart disease with coronary insufficiency.

2. Q. Is the disability permanent?
A. Yes.

3. Q. State the facts and reasons on which you base your conclusions, as to this permanency.
A. Well, from the nature of the ailment which we regard as due to arteriosclerosis of the coronary arteries and insufficiency of the blood supply to the heart muscles, and the fact that at the present time there seems to be no method of permanently relieving this condition. The fact that the observation of the patient during the past few months has revealed that his symptoms persist in spite of treatment and limited activity.

4. Q. Is boatswain's mate, first class Francis's disability such as to incapacitate him for active service?
A. Yes.

5. Q. State all the facts and reasons for your conclusions. Include details of recourse to medical stimulants which would be necessary in order to enable the Coast Guard to depend upon Francis to perform duty in active service.
A. The condition renders him incapable for active duty by the limitations imposed on his physical activities with the symptoms that have been described in the previous report. Recourse has been made to the usual medication used in this condition along with reduction in weight and physical activities with only temporary and transient relief in his symptoms. At the present time his capacity for physical exertion is such that very mild activity or exercise produces symptoms of coronary insufficiency.

6. Q. Have all reasonable measures for the amelioration of the disabling conditions been tried?
A. Yes.

7. Q. What were such measures and what were the results?
A. I think that would be answered in question five.

8. Q. Is his disability the result of an incident of service?
A. Yes.

9. Q. Was there any information before the medical members of the board which would lead you to believe that his condition might be due to vicious practices of his own?
A. There is none.

The party under examination did not desire to cross-examine this witness.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as a member.

Senior Surgeon Robert K. Maddock, U. S. Public Health Service, the senior medical member of the board, was duly sworn as a witness.

Examined by the recorder:

1. Q. Doctor, you have heard the questions that were put to Doctor Talbert, if these same questions were put to you would your answers be essentially the same?
A. Yes.

2. Q. Doctor, do you have anything to add to the testimony previously given?
A. No.

The party under examination did not desire to cross-examine this witness.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as a member.

Neither the board, the recorder, nor the party under examination desired to call any more witnesses.

Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, the party under examination, made the following oral statement:

"Well, having any dependents at my age as it is, 48 years, the amount of money derived from a disability pension is similarly insufficient to take care of the needs of two people. It has been my contention that I rate a consideration for retirement in the grade higher than the present one prior to retirement if retirement is approved, to affect the better financial income; that would help considerably at the present time. Physical disability would not allow me very good chances of making a living on the outside, except in a very minor degree. Well I think that is just about it.

Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, the party under examination, desired to make no argument.

The recorder desired to make no argument.

The inquiry was finished, the parth thereto withdrawing, having been informed that he would receive due notification when he might regard himself as discharged from further attendance before the board.

After full and mature deliberation the board finds as follows:

FINDING OF FACTS

That Norman L. Francis, boatswain's mate, first class, U. S. Coast Guard, is incapacitated for active service by reason of arteriosclerotic heart disease with coronary insufficiency; that his incapacity is permanent; is the result of an incident of service; and is not the result of his own vicious habits.

INSTRUCTIONS

It is MOST IMPORTANT that the following instructions be observed strictly. Each part of the form serves a definite purpose which it cannot do unless properly made out and forwarded as promptly as possible. The copies returned to the Coast Guard become a part of the medical record of the person.

No letter of transmittal is necessary with any part of the form. All copies should be signed.

In order that each copy may arrive at its intended destination, no one of the three copies should be attached as enclosures to other papers. Extra copies should be made for that purpose.

TO THE COAST GUARD OFFICER:

1. Make out the application in triplicate. At the same time, fill in the name of the person (surname first, in capital letters), Service number, and rating, and the name and address of the Coast Guard unit on the Final Medical Certificate. All three copies are to be delivered to the medical officer (see par. 5).

2. This form will be used for all cases requiring treatment. Do NOT use this form when requesting physical examinations. NCG–2501 is to be used for this purpose only.

3. When a patient has been discharged from inpatient treatment to continue treatment as outpatient, or when discharged from outpatient treatment to continue treatment as inpatient, make out another application in triplicate for the patient to deliver to the medical officer when applying for further treatment.

RETURN MEDICAL CERTIFICATE

TO THE MEDICAL OFFICER:

4. Make out all three copies of the certificate carefully and completely. Detach each copy from the Final Medical Certificate. Retain one copy for your file. Return the original and one copy as promptly as possible to the Coast Guard unit, as requested in the application.

5. In case of outpatient treatment, a new application is not necessary each time the patient returns for continuation of treatment. The original application is valid until treatment has been completed or suspended.

6. In case an applicant at an outpatient office is sent on to hospital without being admitted as outpatient, or given only temporary relief pending admission to hospital, do not make out the certificate, but send it to the hospital to be made out and returned from there. Do not consider this a transfer.

7. When a patient is received under any circumstances without this form in triplicate, make out the certificate from blank forms kept on hand, and return the original and one copy to the patient's Coast Guard unit. A supply of blank forms may be obtained from the medical section, Coast Guard Headquarters.

8. The certificate may be held a reasonable time for diagnosis, but if there is a possibility that the diagnosis will be that of a disease due to misconduct and that the certificate will not reach the Coast Guard unit before the 5th or 20th of the month, notify the Coast Guard unit of the probable diagnosis, in order that the pay officer may take proper action.

9. If the certificate is returned with diagnosis of "under observation", make out and return another certificate, in duplicate, from blank forms on hand, when the diagnosis has been made.

10. In case of a diagnosis of a disease due to the patient's own misconduct (see Public Health Service Bureau Circular No. 40, pars. 30 to 39), have the patient fill in the acknowledgment at the bottom of the certificate.

11. In case of a patient under treatment, where the diagnosis is changed to a disease due to the patient's own misconduct, make out another certificate in duplicate with the change of diagnosis, date of change, and forward immediately the original and one copy to the Coast Guard unit to which the patient is attached. (See Public Health Service Bureau Circular No. 40, par. 38.)

TO THE COAST GUARD OFFICER:

12. When the certificates are received, forward the original promptly to Headquarters, retaining the carbon copy at the unit.

13. When the receipt of the certificate seems unduly delayed, allowing time for diagnosis, inquiry should be made for it.

1.Up to a recent date,my information concerning myself was;that I was born in KANSAS CITY,MISSOURI,and that my name was NORMAN.LEO.FRANCIS.Recently,I wrote the OFFICE OF VITAL STATISTICS OF THE STATE OF MISSOURI for a delayed copy of my BIRTH CERTIFICATE,but I was informed that the record of my birth in that state was not on hand.Having on hand the address of my Foster mother whom I had never met or written to and who had not seen me since my early childhood;I wrote her requesting certain information regarding my birth and etc.Her answer to my letter revealed that my legal name was KING,but due to some reason on my mother's part,I was christened FRANCIS and that I was born in COUNCIL BLUFFS,IOWA.

2.All of my Government records state my name as NORMAN.LEO.FRANCIS and place of birth as KANSAS CITY,MISSOURI.To assume my legal name of KING would cause con--siderable confusion in those records so I have proceeded to have my name legally changed to FRANCIS in order to keep my records clear.However the place of birth remains to be changed.I am inclosing a Photostatic copy of delayed BIRTH CERTIFICATE and ORDER AUTHORIZING CHANGE OF NAME,for use of your office.

2. It will be seen from the above correspondence that Francis complained to the Agent at Point Reyes concerning a delay in transmitting a telegram to Francis notifying him of the death of his mother.

3. It is recommended that Francis be severely reprimanded for conduct unbecoming an employe of the Lighthouse Service and for behavior that would tend to bring discredit to and reflect upon the personnel of the Service. The President and General Manager of the Northwestern Pacific Railroad, who brought this matter to the attention of this office, has been notified of this recommendation.

Mr. H. C. Emmens,
Chief Special Agent,
San Francisco.

Dear Sir:-

Agent Atwood at Pt. Reyes phoned asking that I go immediately to Pt. Reyes to handle case concerning one Mr. Francis, A Government employe at Pt. Reyes Lighthouse.

Mr. Atwood states that on the morning of December 15th, he received telegram (night letter) consigned to Mr. Norman Francis addressed Pt. Reyes Lighthouse, concerning the death of some relative at Oakland, California.

The Pt. Reyes Lighthouse is situated some ten miles from the station and Agent ordinarily mails such messages, but as it happened one of the trucks from the Lighthouse was at Pt. Reyes at the time message was received and Mr. Atwood dispatched wire by driver of such truck, which meant that the addressee received message some twelve hours earlier than had it been mailed as U. S. postage.

At 3 p.m., December 17th, two days later, Francis called at Station at Pt. Reyes and proceeded to abuse and harrass Mr. Atwood regarding the handling of this telegram. Francis wanted to know why message had not been dispatched by special carrier or phoned and when Mr. Atwood attempted to explain Francis hit him in the eye.

As Francis is a Government employe he should be reported to the proper authorities. Capt. W. R. Kane is man in charge at Pt.Reyes Lighthouse.

Yours truly,

(Signed) C. J. Bush

Special Agent.

Dear Sir:

Am enclosing copy of report from one of our Special Agents concerning an assault upon Mr. T. I. Atwood, Agent at Pt. Reyes, by a Government employe at the Pt. Reyes Lighthouse.

As the dispute occurred over delivery of a Western Union telegram, will you kindly advise whether the matter was handled properly by Mr. Atwood, and, if so, would it not be advisable for you to make complaint to proper authorities and have the man who caused the trouble either disciplined or dismissed? Will you please advise me action taken.

Mr. W. S. Palmer,
President & General Manager,
Northwestern Pacific RR Co.,
San Francisco.

Dear Sir:

Again referring to your letter of December 19th, concerning service on a night letter received at Pt. Reyes Station, December 15th, addressed to Norman Francis:

The message was filed in our Oakland office at 9:45 p.m., December 14th, addressed to "Mr. Norman Francis, Pt. Reyes, Calif.," but later changed to read "Mr. Norman Francis, Lighthouse Keeper, Pt. Reyes Station, California." The clerk who accepted the message from the sender is no longer in our service and his statement is unobtainable at this time, as to why or under what circumstances the change in the address was made. We have endeavored to communicate with the sender, Mr. Sullivan, but find that he is a traveling man and not at home. We did, however, telephone to his residence and conversed with his sister, who states she is positive that Mr. Sullivan knew nothing of the distance the lighthouse is from the station, and that he was simply sending the message to an address furnished by another member of the family. She further stated that Mr. Sullivan was probably in such a nervous condition that it would not have occurred to him to offer to pay any charges for special delivery, even though he knew the distance from the station.

According to the report furnished by Special Agent Bush, the telegraph service was properly performed at Point Reyes Station and good judgment was used by the manager when the message was promptly handed to the lighthouse truck driver for delivery at the lighthouse, as the sender addressed it to the station only.

I am very sorry that Mr. Atwood should receive such outrageous treatment at the hands of the addressee while handling a commercial message for this Company. However, I do not think the complaint against Francis should be made to the lighthouse officials by the Western Union; under the contract we look to the Railroad Company as our agent for the handling of our commercial business, and it occurs to me that as Mr. Atwood is the Agent of the Railroad Company that it would perhaps be more effective if your Company preferred the charges against Mr. Francis.

Trusting that this will, upon reflection, meet with your views, I am

Yours truly,

Dear Sir:

Am enclosing copy of correspondence exchanged with the Western Union Telegraph Company, concerning assault upon Mr. T. I. Atwood, Agent for this Company and for The Western Union Telegraph Company, at Point Reyes, by one Norman Francis, who is reported to be an employe at Pt. Reyes Lighthouse.

You will note from the correspondence that Mr. Atwood handled the receipt and delivery of the telegram in accordance with prescribed rules and from all information available the assault upon our Agent was entirely unprovoked.

Will you kindly advise whether some disciplinary action should not be taken by the officers in charge of the Lighthouse Service so as to prevent any future trouble of this character occurring at Pt. Reyes or elsewhere?

Norman L. Francis, 2nd Assistant Keeper,

(Through the Keeper)

1. This office is in receipt of a letter from the Northwestern Pacific Railroad, dated January 9th, 1926, enclosing copies of letters pertaining to an assault made by you at 3 P.M., December 17, 1925, on Mr. T. I. Atwood, Railroad Agent at Point Reyes. Copies of the following letters are enclosed:

December 18, 1925: C. J. Bush, Special Agent, Northwestern Pacific Railroad, to H. C. Emmons, Chief Special Agent.
December 19, 1925: W. S. Palmer, President, Northwestern Pacific Railroad, to M.T. Cook, Gen. Mgr., Western Union Telegraph Co.
January 6, 1926: M. T. Cook, General Manager, Western Union Telegraph Co., to W. S. Palmer.
January 9, 1926: W. S. Palmer to Superintendent of Lighthouses.

2. It appears from this correspondence that the telegram addressed to you was properly handled by the Railroad Agent at Point Reyes in accordance with the rules of the Company, and to the satisfaction of its officials, and that there was no reason why you should raise an argument on the point with the Agent at Point Reyes, especially several days after the message was received. The behavior and conduct of a Lighthouse Keeper must be such even when off the station, as to not bring discredit to the Lighthouse Service. If there is a display of ungovernable temper on the part of an employee off the station, it is fair to assume that a repetition of the affair covered by the enclosed correspondence might occur with the personnel at the light station to the detriment and inconvenience of the Service as well as to the inconvenience of some of the Lighthouse personnel.

3. However, before making any decision or taking any action in the case, it is desired to give you full opportunity to present your side of the case, and you are directed to make a full report of the matter an an early date. This office is informed that there was a witness to the affair at the Point Reyes Railroad Station, the witness claiming that you were very abusive.

For and in the absence of the Superintendent.

Supt. of Lighthouses,
San Fran., Cal.

In accordance to your letter I am making my report of the matter.

Have only to say that it was approximately two days and 1/2 after receiving telegram I made assault on Mr. Atwood, Agent at Pt. Reyes, and that after coming from my mother's funeral at Oakland.

The only reasons is that in a death case I felt that the telegram should have reached me the quickest possible way, the use of the telephone from Pt. Reyes to L-House station being the quickest. It not having been attempted it served in a way to make me angry, which in my case doesn't happen to be uncontrolable or ungovernable temper as mentioned in correspondence received at your office, and again in my anger it wasn't until after Mr. Atwood explained about the telegram that I attempted to hit him, which left no impression if such was the case.

After this occurrence I realized I had gone about the matter the wrong way and I personally apologized to Mr. Atwood a few days later, saying so in regard to above.

I can only say I'm sorry that any discredit or inconvenience is brought about to the Lighthouse Service by any act of mine.

Respectfully,

(Signed) Norman Francis,

The Bureau is in receipt of a report from the Superintendent regarding your conduct in assualting the railroad station agent at Point Reyes on December 17, 1925.

Your conduct in this instance was thoroughly reprehensible and reflected discreditably upon the personnel of the Lighthouse Service, and you are severely reprimanded and warned to observe the Regulations, lest future violations lead to more drastic disciplinary action. INSTRUCTIONS

The nominee's name (include full Christian name and middle initial or initials, if any) should be correctly spelled and the official name of the position and station accurately stated. In nominating a person already in the Lighthouse Service his last appointment should be examined for official name of position, station, salary, etc.

In case a nominee's legal residence as stated on this nomination is different from that contained in his last appointment, or is different from that stated on the eligible register if the nomination is for probationary appointment, a statement to that effect should be made under "Remarks."

The instructions in regard to transfers of employees, as set forth in Regulations, 1927, articles 415 and 429, should be carefully followed.

Under "Action recommended" indicate clearly the kind of appointment desired, as temporary, probationary, etc. If temporary, indicate under that heading or under "Remarks" the period for which appointment is desired and the necessity therefor.

If a license from the Steamboat Inspection Service is required for the position to which appointment is recommended, state grade, waters, and tonnage covered by the license, and whether or not the same is sufficient to cover the position.

When it is proposed to fill a new position, indicate the fact by inserting, after the words "Previous incumbent," the words "New position" and give the date of Department letter. Always ascertain that proper report or recommendation for the disposition of the services of the previous incumbent has been made before submitting recommendation for the appointment of a successor.

In recommending the reinstatement, or original appointment, of a person whose papers show that he has already served under some branch of the Department of Commerce, include a brief note of that fact on the nomination.

Recommendation for permanent or temporary appointment or extension of appointment to positions for which eligible registers are maintained by the Civil Service Commission at Washington, D. C., or for appointment to excepted positions, or for transfer, promotion, reduction, or reinstatement, shall not be forwarded through the civil service district secretary, but all other recommendations for permanent or temporary appointment or extension shall be forwarded through the district secretary.

When a person recommended for probationary appointment, or reinstatement, states that he has two or more members of his family in the Government service, he should be directed to properly fill out civil service Form No. 1769, which should be forwarded with the nomination.

When a person recommended for reinstatement has been out of the service over one year, Form S. S. 93–A, supplemental, should be submitted in duplicate.

In recommending the appointment of a keeper, state under "Remarks" whether or not quarters are furnished by the Government for his family.

After "Other eligibles considered" superintendents will state the names of the eligibles who "declined" or "failed to reply," and those "who were merely considered without other action," and will indicate the same after each name by the use of the key terms "D," "FR," and "C," respectively.

Opposite "Rank on eligible list" superintendents will state whether the person recommended stands first, second, or third, as the case may be, of the eligibles available for appointment to the position in question.

In submitting nominations for temporary appointment, state under "Remarks" whether or not the work is job employment, and, if job employment, make certificate that upon completion of the work the services of a person in the position will no longer be required. State also as definitely as possible the period for which the services of the person will be needed.

2. George W. L'Hommedieu, the present Keeper of the Piedras Blancas Light Station is being retired for disability effective April 1st, and it is desired to transfer to this station an efficient and energetic keeper who will be able to bring this station back to a satisfactory condition from the very unsatisfactory condition to which it has retrogressed during the incumbency of the outgoing keeper. This is a large station in an isolated position with numerous facilities to be kept up including a landing wharf, hoisting equipment, water pumping equipment, special water storage tanks, rain shed, large first-order light and gas engine operated fog signal. On account of the exposed position of this station subject to salt spray and drifting sand, there is an unusual amount of work involved in keeping the station in order and it is desired to compensate the new keeper of this station in accordance with his responsibilities.

3. If Francis is transferred under the provision of Bureau Circular Letter No. 390 of June 12,1933, he would receive a salary of $1500.00 per annum except for the promotion restriction of Section 202 of the Economy Act of June 30,1932, which has limited his pay to $1440.00 per annum. At the present time Francis is receiving a cash salary of $1620.00 as First Assistant Keeper at Los Angeles Harbor, and to transfer him as Keeper of Piedras Blancas at $1440.00 per annum would place him in a salary below that of the present First Assistant Keeper at Piedras Blancas who receives $1500.00 per annum.

4. It is apparent that this is a case in which the provisions of Circular Letter No. 390 would work a gross injustice and certainly the Department would not wish to assign Francis to this difficult station with pay below that now being received by the First Assistant Keeper of the Station. It is recommended that the necessary steps be taken to authorize Francis' transfer and promotion with pay at the rate of $1500.00 per annum.

5. It is requested that this office be advised by telegram of the action taken in this matter.

Norman L. Francis,
Keeper,
Piedras Blancas Light Station.

1. There is enclosed a letter of reprimand and warning to First Assistant Keeper Joseph Harrington, covering the use of discourteous language to you, and preferring unsubstantiated charges. The original copy of this letter is to be delivered to the First Assistant Keeper, and the carbon copy retained for the station files.

2. The First Assistant Keeper denied that he had used the particular expression charged by you, and as there were no witnesses to corroborate your statement, this particular charge will necessarily be considered not proven. However, the First Assistant Keeper admits that he did use profane and improper language to you, being angry because you had charged him with an offense of which he claims he was not guilty.

3. Your charges that the First Assistant Keeper is prone to argument, is contemptuous in his manner to you, and is lacking in general mechanical ability, are too general in character to require action by the Superintendent, beyond a warning that such actions will tend to lower his standing in the Service and prevent possible promotion. The Keeper of a station is expected to be able to handle the men on the station so as to prevent waste of time in useless argument, and also to be able to train the assistant keepers in such parts of the station work as they may not be able to handle properly.

4. The charges preferred against you by the First Assistant Keeper were not substantiated by the statements of the Second and Third Assistant Keepers, and these charges will be dropped. It was not found that your absences from the station, or leaving your children at home alone, constituted any violation of the rules of the Lighthouse Service. No evidence, other than the First Assistant Keeper's statement, was obtained showing intoxication on your part.

5. Unofficial complaint was made by all the Assistant Keepers that at numerous times your language in giving orders has been rude, abusive and profane, and your manner of speaking unnecessarily curt and domineering, especially if any question arose as to the best method of doing some item of station work. Your attention is called to paragraph No. 11, 'Instructions to Employees', 1927 edition, covering the use of abusive and profane language in giving and enforcing orders.

6. Regarding your statement in the letter of February 22nd that you propose to take legal action against First Assistant Keeper Harrington, you are advised that the Superintendent will regard with disfavor any action on your part tending to place matters of this nature before the public.

1. Subject man is being released from the U.S. Marine Hospital about 5 January, 1948, and will return to Piedras Blancas with Mrs. Francis for the purpose of vacating the Officer in Charge quarters at that station.

2. FRANCIS has a serious heart condition and will be unable to take any active part in packing or moving his gear. Mrs. Francis is also in poor health and consequently will require assistance of the station personnel in moving their belongings.

1.On advice that information at this time is limited regarding retirement of former lighthouse service personnel(Civil Service)inducted into the Coast Guard, possible information is requested from Headquarters.I was enlisted into the regular Coast Guard from Civil Service status on 8 July,1941;retaining present position as Keeper-in-charge of Piedras Blancas Light-Station in the rating of Boatdwain's Mate first class.

2.On 1 December,1945,I concluded twenty years of Lighthouse Service including Coast Guard.I have had two years of service in the Army in World War 1.It is my desire to retire on the accumulated years of Government service at the ter--mination of present enlistment which expires 8 July,1947,but I will accept earliar retirement if convenient to the service,should retirement be approved.

3.For the past four years I have been suffering from acute attacks of Sinus, including arthritis which has settled in the Lombar region adjacent to an old injury contracted in the lighthouse service while on duty.Complications set in at more frequent intervals and only temporary relief can be obtained because of the climatic conditions the duties of a lighthouse keeper subjects him to.

SUMMARY, SERIAL CHANGES, AND IMPLICATIONS:

Unfortunately, this record is technically no better than the one taken yesterday. The rhythm is irregularly irregular, most likely atrial fibrillation. The tracing is quite consistent with an anterior myocardial infarction.

CLINICAL RECORD | **NARRATIVE SUMMARY** ew

DATE OF ADMISSION	DATE OF DISCHARGE	NUMBER OF DAYS HOSPITALIZED
8 May 1961	17 May 1961	9

(Sign and date at end of narrative)

This 62 year old white male entered FMAH for the second time on 8 May 1961. He was referred from the U. S. Public Health Service in San Pedro because of congestive heart failure and auricular fibrillation. The patient states that he has had five myocardial infarctions, the last one occurring in June 1960, where he was hospitalized at U.S. Naval Ordnance Test Center Hospital, at China Lake, California. At this time the patient was in congestive failure and he was placed on Digitalis 100 mg daily and also started on Dicumarol. The Dicumarol was discontinued by the patient in December 1960 because he stated "it made him sick". He had been doing fairly well until one month prior to entry when he noted the gradual onset of dyspnea on exertion, paroxysmal nocturnal dyspnea, mild ankle edema and nocturia times two. Physical examination and chest x-ray at U. S. Public Health Service showed the patient with congestive heart failure and he was referred here for treatment.

PHYSICAL EXAMINATION: The patient is an elderly, obese, white male who appeared in no acute distress. Pulse 120 and irregular, blood pressure 172/108. Examination of the lungs revealed some basilar rales. The heart was not markedly clinically enlarged. The rate was 120 and irregular and the heart sounds were distant, but no murmurs could be heard. The abdomen was quite obese and soft, but nontender. A questionable liver edge could be felt. Extremities: There was a 1+ bilateral pitting edema.

LABORATORY DATA: Electrocardiograms showed auricular fibrillation and an old anterior and posterior infarctions. The white blood count was 5,200 with a normal differential. Hematocrit was 55%. Total protein was 7.2 gms with 3.7 gms of albumin. BSP was 21.5% retention. Urinalysis: Reaction alkaline, specific gravity 1.019, negative for sugar and albumin, microscopic examination was within normal limits. FBS 117 mg%, cholesterol 265 mg%. Prothrombin time was 15 seconds for 71%. Cephalin flocculation was negative at 48 hours.

HOSPITAL COURSE: The patient was placed on modified bed rest, digitalis was continued, he was given diuril 500 mg b.i.d. and given a shot of Mercuhydrin. In addition to this he was placed on a low salt diet. On this regime the patient became normotensive and he diuresed quite rapidly, losing 16 pounds in four days. On this therapy his pulse came down to 80 from 120. The patient was still fibrillating when he was discharged. He was discharged on17 May and was to be followed at regular intervals at U. S. Public Health Service.

FINAL DIAGNOSIS: 4700 Arteriosclerotic heart disease
4831 Auricular fibrillation, due to Diagnosis 1

CONDITION ON DISCHARGE: Improved.
