You are advised that for the time being and perhaps for all time no assistant keeper will be employed for service at Waackaack Light Station as there are several other stations that also have a fog signal to care for that are being maintained in an efficient manner by one man.

Consideration will be given to the matter of allowing you to annually hire a man to assist you for about twenty days with pay at the rate not to exceed three dollars per day for necessary scaling and painting that cannot be done by one man. The employment of a man in this matter will each year be subject to prior approval by this office.

I respectfully request a transfer to a landstation in the event of a vacancy for the position of keeper or assistant keeper or if any Keeper or assistant keeper of such station has an application for this station as I am alone here my wife was injured when she come here with our furniture and fell trying to climb over the railing as here was no accomodation to get up on station she has been ashore most of the time since I come here and now I was compeled to send her away to friends for her health and Doctors care it is very hard for us to be separated at this time of life especially as we have always been together during the last 20 years of my service but as she cant regain her health here I am willing to do the best I can here alone if the office could give me hope of an early transfer to a more convenient station.

The reason I asked for a transfer from Waackaack Lightstation was that it was not posible at my age

I respectfully report that I rendered assistance to Oscar Dedrick after his launch run into drift ice and tore a big hole on each side of the bow 1. oclock this a.m. hearing his cries for help I went out in the station boat and found that his launch was leaking badly but he managed to run to shallow water at the Midle Ground before the launch filled. I took him and the fittings that we could reach to the Light Station where my wife had hot coffee for us and I furnished Dedrick with dry socks after which I took him ashore to Athens as he was afraid that his old parents would be worried. Dedrick runs his launch as night ferry between Athens and Hudson.
