Wallace

All communications should be addressed to the U. S. Light House Engineer, Light House District.

U. S. GENERAL LIGHT HOUSE DEPOT

Office of U. S. Light House Engineer, Light House District.

Ans inclosures.

Jamaica Plain, November 15 80

Subject: Point Loma lens.

The Light House Board
Washington D.C.

Sirs:

In reply to Boards letter of 13 November I have the honor to return tracing showing the position of the guide rollers at the upper end of the lens. as requested.

Should the lens be too high its height can be diminished in any one or all of the three following ways.

The Spider cylinder marked no 1 red can be lowered 2½ inches

The Columns supporting the lens marked no 2 red can be lowered 4 inches

The base marked no 3 red can be cut off

so as to lower it 2 inches.
Please send me three blue prints
of tracing.

Respectfully Yours
W. T. Arap
Major of Engineers U.S.A.
Engineer 3d L.H. District
