FACTS ARE AS FOLLOWS: This 48 year old, white, male, Coast Guardsman was admitted to this hospital August 18th, 1944. On admission the patient complained of a sharp, compression like pain substernally, radiating to the left arm on exertion. This complaint had been present for 3 weeks prior to admission. The pain lasted for 15 to 30 minutes and would be relieved by rest. The attacks at first were minor, but gradually the pain became worse on exertion of any type and occasionally occurred during rest. He has had no definite dyspnea or orthopnea.

Physical examination revealed a middle aged well nourished, well developed, white, male not appearing acutely ill. The heart was not enlarged to percussion. No arrhythmias were noted. The heart sounds were somewhat poor quality. The blood pressure was 132/82.

During the period of hospitalization the patient has continued to have occasional bouts of precordial pain which have been relieved by nitroglycerine, grains 1/100. However, his general condition has steadily improved. The blood Kline and Eagle were negative. Urinalysis was within normal limits. Sedimentation rate 14 mm in 1 hour. CBC showed a RBC of 5,040,000, hemoglobin 15.7 grams, WBC 5,300, neutrophiles 67%, lymphocytes 33%. X-rays of the heart and lungs were essentially negative. Electrocardiogram showed ventricular rate 65, rhythm normal sinus, P-R interval .13, T1 up but low, elevated takeoff of S-T 2 and 3, T2, T3 up and very high voltage, T4 inverted. The clinical conclusion was that the tracing was consistent with a fairly remote anterior myocardial infarction. There were no essential changes on two repeat tracings.

It is recommended that this patient be given a Medical Discharge from the Coast Guard. The patient will not be a menace to himself and to the public and he may be released to his own custody. The patient has been informed of the board's findings and does not desire to submit a statement in rebuttal.

November 2, 1944

From: Surgeon Luther L. Terry and P. A. Surgeon (R) Carl T. Johnson

To: President, Coast Guard Retiring Board

Subject: Examination of Roy Pembroke MacLauchlan, Boatwain's Mate,U.S.Coast Guard

We have carefully and separately examined Roy Pembroke MacLauchlan, Boatwain's Mate, U. S. Coast Guard, as to his past and present physical and mental condition, together with the records of this hospital pertaining to his case, and report as follows:

Boatwain's Mate Roy Pembroke MacLauchlan is 48 years, 2 months and 18 days old, and has been in the U. S. Coast Guard 3 years, 4 months and 1 day; and in the Lighthouse Service, at Lewes,Delware,for 19 years, 4 months and 29 days.

The following history was obtained from the patient: He had diphtheria at the age of 10 years; a lipoma was removed from his right arm at the U. S. Marine Hospital, Baltimore, in January 1943.

The patient was admitted to this hospital August 18th, 1944. He complained of a sharp, compression like pain substernally radiating to the left arm on exertion. This complaint had been present 3 weeks prior to admission. The pain would last for 15 to 30 minutes and would be relieved by rest. The attacks at first were minor, but gradually the pain became worse on exertion of any type, and occasionally occurred during rest. He had had no definite dyspnea or orthopnea.

The physical examination revealed a middle aged, white, male, not appearing acutely ill. The heart was not enlarged to percussion. No arrhythmias were noted. The heart sounds were of somewhat poor quality. The blood pressure was 132/82.

Laboratory data: The blood Kline and Eagle were negative. Urinalysis was within normal limits. The sedimentation rate (Wintrobe) was 14 mm. in 1 hour. The complete blood count revealed a red blood count of 5,040,000; hemoglobin 17.7 grams; white blood count 5,300; neutrophiles 67%; lymphocytes 33%. X-rays of the heart and lungs were essentially negative. The electrocardiographic tracing showed a ventricular rate of 65, normal sinus rhythm, P-R interval .13, T1 up, but low, elevated takeoff of S-T2 and 3, T2, T3 up and very high voltage,

T4 inverted. The clinical conclusion was that the tracing was consistent with a rather remote anterior myocardial infarction. There were no essential changes on two repeat tracings.

During the period of hospitalization the patient continued to have occasional bouts of precordial pain which were relieved by nitroglycerin grains 1/100. His condition steadily improved.

It was our impression that this patient was suffering from infarction of the myocardium due to arteriosclerotic coronary thrombosis and anginal syndrome.

In view of the fact that the man was thought to be unfit for duty in the U. S. Coast Guard, a Board of Medical Survey was written recommending that he be retired from the Service.

At the time of his discharge from the hospital October 10th, 1944, his condition was generally improved over that at the time of admission.

We believe that Boatwain's Mate, 1/c, Roy Pembroke MacLauchlan is suffering from infarction of the myocardium, due to arteriosclerotic coronary thrombosis and anginal syndrome and that this condition renders him totally disabled for active service in the U. S. Coast Guard and should be retired.

We believe that this man's condition is permanent and that his incapacity is incident to service and not the result of his own misconduct.

Respectfully,

Luther L. Terry,
Surgeon, U.S.P.H.S.

Carl T. Johnson,
P. A. Surgeon (R), U.S.P.H.S.

Gentlemen:

Claim of Roy P. MacLauchlan (227-401) BM1, U. S. Coast Guard (Retired), for an increased rate of retired pay over that rate which he was receiving during the period February 1, 1945 to June 30, 1946 is referred to your office for direct settlement. This claim for an increase in his retired pay is based on the fact that he was in receipt of retired pay based on his military service during the period February 1, 1945 to June 30, 1946, which exceeded his "saved rate" of retired pay, excluding $60.00 per annum for quarters. Comptroller General's Decision B-70029 dated October 23, 1947, allowed former Lighthouse Service personnel to include the quarters allowance in computing their rate of retired pay.

You will note that Mr. MacLauchlan was retired for physical disability, and therefore his retired pay is not subject to a withholding tax.

Inclosed is Treasury Department Form 2249, showing the rate of pay he was receiving at the time of his change in status - from civilian to military. Also inclosed is a copy of his retirement letter dated January 31, 1945.

By direction of the Commandant.

In reply to your letter of 21 February, 1947, you are advised that prior to 1 July, 1946, you were receiving the "saved pay" of the Lighthouse Service, which was greater than the military rate in your case at that time, but due to the provisions of Public Law 474-79th Congress, effective 1 July, 1946, the new military rate exceeded the "saved pay." Accordingly, you now receive the pay of a BM1c with over three (3) years' military service for pay purposes.

GENERAL INSTRUCTIONS

1933

1. A Health Record will be opened (issued) for each person commissioned, warranted, appointed, or enlisted in the Coast Guard: For cadets, upon reporting at the Academy; for an officer appointed from civil life, upon reporting at first unit; for enlisted persons, upon enlistment.

2. The medical officer, if any, shall have custody of the Health Records of all persons attached to the unit, including the personnel of smaller units attached to a larger unit. If there be no medical officer attached, the custody of the Health Records will devolve upon the executive officer, if he be a commissioned officer; otherwise the custody of the Health Records will devolve upon the commanding officer. The officer having custody of the Health Records shall be responsible for their proper care, continuation, and disposition.

3. In case of medical examination for promotion, retirement, annual commissioned officers' examination, or medical survey, the Health Record shall be furnished to the president of the board. If not received, it should be requested. When the board shall have finished with the Health Record, it shall be returned to its custodial officer. In all cases, brief notation of the findings of the board will be made on the Medical History Sheet, signed by the president of the board. This notation does not take the place of the full report which is submitted for administrative action.

4. A person on detached duty at some distance from where his Health Record would be kept may be given custody of his Health Record.

5. If a Health Record is lost or destroyed, a new one shall be immediately opened in full by the first custodial officer aware of such loss, who will note the fact in the new record and continue the record with such previous data as may be obtainable. If the old record be found, all data subsequent to its loss will be detached from the new and attached to the old record. A skeleton Health Record shall not be issued.

6. No photographs, folded papers, or forms are to be attached to the Health Record. The findings on laboratory and other reports in the case shall be entered on the Medical History Sheet.

7. **Transfer.**—Upon transfer of any person, except as a patient, the Health Record shall be forwarded through official channels to the new destination, or if the person is ordered to unusual, detached, or uncertain duty, it shall be retained or forwarded, as the case may be, with the person's service record. (See par. 4.)

8. The Health Record shall accompany a patient when transferred to or from hospital or when applying at an out-patient office. It shall not be forwarded through official channels, but shall be taken by the patient in a sealed envelope or by a responsible person accompanying him, and delivered with the patient to the official receiving the patient. Upon the patient's return to his unit the Health Record is to be delivered to the custodial officer.

9. If for any reason it becomes necessary to forward the Health Record to Headquarters, other than for termination of service noted thereon, it shall be accompanied by a letter stating the reason.

10. **Physical Examination Record.**—The Coast Guard Board or officer making the request for physical examination shall send to the medical board or officer two forms for physical examination record, already made out down to but not including place and date. The medical board or officer shall make out the rest of the Physical Examination Record in duplicate. In case of appointments or promotion of an officer, both forms shall be mailed by the board or officer direct to Headquarters. When promotion is made the original will be forwarded to the unit for insertion in the Health Record on top of the last Physical Examination Record. The Health Record shall be retained, but altered to show the promotion and new rank. No part of the Health Record is to be sent to Headquarters at this time. In case of enlistment both forms shall be returned to the enlisting officer, who will forward the original to Headquarters with other supporting papers after enlistment has been accomplished. The duplicate will be placed in the man's Health Record. In cases of reenlistment both forms will be forwarded to Headquarters for action and reenlistment will not be effected until duplicate copy is returned showing Headquarter's action. Upon receipt of duplicate copy from Headquarters same will be inserted in the Health Record.

11. The record shall be typewritten, if possible, and must be completely filled in as called for by the items on the form and in accordance with the instructions relative to the making of physical examinations. If any space is insufficient, the space under "Remarks" may be used.

12. The nature and degree of all physical defects of persons accepted for service in the Coast Guard must be fully described in order that no improper claims for compensation or pension may be allowed. Particular attention should be paid to those conditions which may not be disqualifying but which might be made the basis of such claims on the ground that they have developed or have become disabling while the person was in service. Waivers may be recommended by the medical examiner in accordance with the instructions relative to physical examinations, but the waiver must be authorized by the Commandant before the person is accepted.
