The Bureau is in receipt of a report from the Superintendent, relative to your not placing the fog signal at your station into operation during a dense fog on July 15. This is a serious lapse of duty on the part of a keeper, and you are hereby reprimanded for your neglect of duty in this instance and cautioned against a repetition, which would lead to more serious action being taken. The fact that you have been reprimanded will be made a part of your official history.

Office of Supt., 2d Dist.,
Chelsea, Mass.,
August 7, 1934.

F. R. Macy, Asst.Kpr.,
Eastern Point Light Station,
(Through the Keeper)

The Superintendent has given careful consideration to the Keeper's report of July 15, 1934, relative to your not placing the fog signal at your station in operation during dense fog at 1:40 A.M., on said date until your attention was called to this delinquency by the keeper.

Apparently little heed has been taken to letter of warning which was sent you on March 14, 1934, as a result of a previous similar case of neglect of duty and that you continue to manifest your lack of conception as to the responsibility of your position by allowing the existence of such a serious condition as has now twice been reported.

In considering your case the writer has noted your previous service in this district which up to the time of the above-mentioned reports has been satisfactory insofar as the official records of this office are concerned. In view of this fact one more chance will be given you and should any further report as to your neglecting duty or apparent sleep on watch be made to this office there will be no other alternative than to recommend to the Commissioner of Lighthouses, your immediate dismissal from this Service.

A copy of this letter is also being forwarded to the Commissioner for his information and it is trusted that you will be guided accordingly so that it will not be necessary to take such action as referred to above.

(Signed) Eaton
Supt.

Copy to the Commissioner of Lighthouses. Reference is made to district's indorsement on copy of letter of March 14, 1934, which was addressed to the above keeper. It is recommended that the Bureau also send a letter of reprimand in this instance.

1. In reference to previous correspondence between the keeper, yourself and this office, relative to your reported neglect of duty and the use of disrespectful language in addressing the keeper.

2. While no action will be taken in this particular instance, you are cautioned that a repetition of the above or similar violation of the regulations for this Service will result in drastic action being taken by this office.

3. A copy of this letter is being forwarded to the Commissioner of Lighthouses with request that same be made a part of your official record.

Copy for the Commissioner of Lighthouses:

As stated in paragraph three above, it is requested that the above letter be made a part of the official history of the employee in question. The neglect of duty mentioned above has reference to an instance where the Assistant Keeper who was on watch at the time did not place the fog signal at his station in operation until the fog was thick and it was necessary for the keeper to direct him to do so. The disrespectfuly language resulted when the keeper directed the assistant to promtply attend to this duty. It is believed that the above letter is sufficient caution at this time and that there will be no repetition of the instance.

Referring to your letter of September 13th, in which you request consideration for transfer to certain Stations in this District in the event of a vacancy, you are advised in this connection that the Superintendent most certainly would not consider your promotion to Keeper at a one man Station, particularly after the recent reports of your serious neglect of duty.

You may prove your interest in your work by keeping awake while on watch, and otherwise performing the duties of your present position in such a manner as to obviate the necessity of the Keeper having to report your laxity.

The Bureau is in receipt of a report from the Superintendent, relative to your not placing the fog signal at your station into operation during a dense fog on July 15. This is a serious lapse of duty on the part of a keeper, and you are hereby reprimanded for your neglect of duty in this instance and cautioned against a repetition, which would lead to more serious action being taken. The fact that you have been reprimanded will be made a part of your official history.

(Through the Keeper)

The Superintendent has given careful consideration to the Keeper's report of July 15, 1934, relative to your not placing the fog signal at your station in operation during dense fog at 1:40 A.M., on said date until your attention was called to this delinquency by the keeper.

Apparently little heed has been taken to letter of warning which was sent you on March 14, 1934, as a result of a previous similar case of neglect of duty and that you continue to manifest your lack of conception as to the responsibility of your position by allowing the existance of such a serious condition as has now twice been reported.

In considering your case the writer has noted your previous service in this district which up to the time of the above-mentioned reports has been satisfactory insofar as the official records of this office are concerned. In view of this fact one more chance will be given you and should any further report as to your neglecting duty or apparent sleep on watch be made to this office there will be no other alternative than to recommend to the Commissioner of Lighthouses, your immediate dismissal from this Service.

A copy of this letter is also being forwarded to the Commissioner for his information and it is trusted that you will be guided accordingly so that it will not be necessary to take such action as referred to above.

EATON,
Superintendent.

Copy to the Commissioner of Lighthouses. Reference is made to district's endorsement on copy of letter of March 14, 1934, which was addressed to the above keeper. It is recommended that the Bureau also send a letter of reprimand in this instance.

I realize my responsibility on the station, especially on days when there is fog. Regret I have not seen fog come in on several occasions.

I no longer stand my watch in the house, as I have hitherto done as I realize it has been a poor place for me to see the fog approaching from the reverse side. Regret very much that I ever stood my watch in the house. From now on I will spend my night watches in the engine room. Regretting that a complain ever had to be made against me.

1. Reference is made to report received at this office from the keeper stating that at 1:40 A.M., July 15, 1934, he awoke and found dense fog outside and the fog signal not in operation. The report further states that it was necessary to call you and that the said signal was not placed in proper operation until 2 A.M.

2. The fact is noted that the above is a repetition of a similar case on record in this office when at 5:30 on the morning of January 8, you likewise neglected to place the fog signal in operation at the proper time and then again at 10:40 P.M., on May 22nd, you failed in this respect in spite of the letter of caution previously forwarded you on March 14, 1934, and made a part of your official record at the Bureau office in Washington.

3. You are directed in this connection to advise this office whether you realize your responsibility as a lighthouse keeper while on watch and if you appreciate the embarrassment to which the government and particularly this Service would become liable in the event some accident or tragedy should result from the failure of the fog signal at your station to operate at required times. You are further directed to advise where you maintain your watch and why you continue to disregard previous warnings also, give any reasons you may have as to why you should not be dismissed from the Service.

4. Prompt reply to the above is requested.

Copy for the Commissioner of Lighthouses:

As stated in paragraph three above, it is requested that the above letter be made a part of the official history of the employee in question. The neglect of duty mentioned above has reference to an instance where the Assistant Keeper who was on watch at the time did not place the fog signal at his station in operation until the fog was thick and it was necessary for the keeper to direct him to do so. The disrespectful language resulted when the keeper directed the assistant to promptly attend to this duty. It is believed that the above letter is sufficient caution at this time and that there will be no repetition of the instance.

EATON,
Superintendent.

When I came on watch and did not hear it sounding I thought some thing had gone wrong with it that he could not fix as the fog was then clearing in the Harbor and he had taken his children to school I decided to wait for his return so as to know what might be required to repair it When he returned after giveing me the answer I reported he then went and Started it and it kept rounding for 3 houre which made me sure it had not been going from the Start

he knew that the clockwork sometimes stuck and had to be started by hand and he had no excuse for not attending to it as the weather was mild a smooth sea and no ice on the Breakwater to make it dangerous This case at least is at Variance with his claim never to have neglected his duty

Sir:

1. Please advise this office by return mail if you would accept the position of Assistant Keeper at Brant Point Light Station. The base pay of this position is $840 a year and in addition to this you would receive a bonus of $240 a year, also 45¢ a day for subsistence, making a total of $1242. a year.

2. Quarters for Assistant Keeper are not furnished at the station, and you would have to provide yourself a dwelling place at your own expense outside of the reservation and furnish your own light and heat.

For and in the absence of the Superintendent.
Respectfully,

Chief Clerk.
