Summary of case history:

Chief Complaint: "Weakness and tiredness". For six weeks patient had complained of malise, anorexia, progressive weakness, shortness of breath, and a chronic cough productive of thick white phlegm. Headaches relieved by aspirn had been frequent. He had few other complaints. He was developed and nourished, rather pallid, alert, cooperative. A thickened indurated area two inches in diameter present on skin of right shoulder. The lymph glands were small shotty and freely movable. Eyes, ears, nose, throat, head, neck, thorax and heart negative. Blood pressure 130/90, the liver was two finger breadths palpable and the spleen three finger breadth palpable. Red blood 2,580,000 h.b. 8.1 gms., total white count has varied between 79,200 and 110,000. Differential white count shows 99% small mononuclear cells which have been classified as micro myelosytes. Platelet count 110,000, icteric index 5 units, cephalin flocculation liver function test positive in 24 hours. Blood urea nitrogen and blood uric acid are both moderately elevated. BMR is increased. Study of the bone marrow aspirated from the sternum shows a profound increase in the micro and macro myelocytes and myeloblasts. The bone marrow picture is typical of acute myelogenous leukemia.

The patient has been informed of the board's findings and does not wish to submit a statement of rebuttal. If discharged into his own custody he will not constitute a menace to himself or to the public safety and is not likely to become a public charge.

Headaches relieved by aspirn had been frequent. He had few other complaints. He was developed and nourished, rather pallid, alert, cooperative. A thickened indurated area two inches in diameter present on skin of right shoulder. The lymph glands were small shotty and freely movable. Eyes, ears, nose, throat, head, neck, thorax and heart negative. Blood pressure 130/90, the liver was two finger breadths palpable and the spleen three finger breadth palpable. Red blood 2,580,000 h.b. 8.1 gms., total white count has varied between 79,200 and 110,000. Differential white count shows 99% small mononuclear cells which have been classified as micro myelosytes. Platelet count 110,000, icteric index 5 units, cephalin flocculation liver function test positive in 24 hours. Blood urea nitrogen and blood uric acid are both moderately elevated. BMR is increased. Study of the bone marrow aspirated from the sternum shows a profound increase in the micro and macro myelocytes and myeloblasts. The bone marrow picture is typical of acute myelogenous leukemia.

My dear Lieutenant Salter:

In reply to your letter of 14 November, 1946 please be advised that the claim of Mrs. Bertie May Midgett for the final pay due the estate of her husband, Don Dosson Midgett, Boatswain's Mate, first class, USCG, was forwarded to the General Accounting Office for settlement under date of 3 September, 1946.

Due to the large number of claims submitted to that office for settlement it will be some time before settlement of her claim is made.

However, it is suggested that you contact the Claims Division, General Accounting Office, Washington, D. C. relative to this matter inasmuch as that office has sole jurisdiction in the settlement of the final pay due.

By direction of the Commandant.

Very truly yours,

the matter. Sometime about the first of Sept. last.

Dawson D. midget then a first class seaman and serving on one of the 75-foot Patrol boats attached to Section Base # 8 Norfolk, Va. was refused leave to answer the last request of an Aunt who was dying, and due to the urgent call a dying woman the boy left without permission and was absent without leave several days.

Upon his return, as a punishment his rating was change to

seaman 2nd class, restricted 3 weeks and was required to pay half or more of his month pay.

This boy is married to my daughter who is about to become a another and their financial status is desperate. When my family was in Norfolk it was possible for me to assist them but having rent to pay it is impossible for them to get along on $36.00 per month, with all the additional expenses incident to child birth.

Midgett has made the proper request for a discharge or and transfer by letter to Headquarters but to date it appears that no action has been taken.

It is requested that due to the circumstances stated about that Midgett be transfered to Cape May. so that I can assist them, or transfered to a coast guard station. As a last resort it is requested that he be given a

Mr. L. M. Hopkins,

Sir:

Have been referred to you for help in collecting a bill for rent and gas from one of your employees, Mr. D. D. Midgett, Asst. Keeper, on Seven Foot Knoll Light.

Mr. Midgett left me with rent and three months gas bills that he left on the table when he moved almost a year ago. I think I have been fair and given him plenty time to come back and pay. Have written him several letters which he has ignored. Now I am appealing to you to help me collect an honest debt. Went to Custom House here in City and they told me to write you.

Am enclosing bill and also letter in which he promised to come back and pay. Hope you can help me for I certainly need it now. Thank you -
