FPD:GB

June 12, 1935.

Superintendent of Lighthouses,
Custom House,
2nd & Chestnut,
Philadelphia, Penna.

1. The 11th District is in great need of a Mechanician who can take care of the maintenance work involved in the use of several hundred internal combustion engines also auxiliary mechanical and electrical machinery at some 56 light stations, 50 or more motor boats and five Lighthouse tenders.

2. The needs of the Mechanician in this position are administrative. The amount of work that must be planned in this position is so large that the Mechanician in charge has no time for any manual work; he has to be able to plan the overhaul of this machinery and electrical apparatus according to seasonal requirements; he has to direct the maintenance operation of a number of machinists and mechanics also electricians by issuing work orders and keeping note of their travel and activities throughout the District and at the Detroit Lighthouse Depot shop.

3. This work is now in charge of Mechanician Robson, who has been in the Service for a number of years, but on account of his age and personality difficulties the work has become out-of-hand and is not being properly handled by him. It is a big responsibility and requires a man of some administrative ability, the ability to initiate, order, arrange, classify and carry on a large program of work with only general supervision on the part of the technical staff.

4. It has been suggested that possibly Mr. Leslie Millar, formerly in this work in this District, now understood to be Mechanician in your District, might be interested in returning to this District as Mechanician to take the place of Mr. Robson. Mr. Robson receives $250 per month, and it is not known whether his successor could be paid the same amount or not. Certainly, anyone who can handle this position successfully deserves this salary, although from the point of compensation alone the position ranks just below the Associate Engineer who receives $3200 per year. All of the technical men of this district carry very heavy loads and have been specialized in certain divisions of work, and are so thoroughly loaded up that they can not take over the burden of the Mechanician's work and follow it through in detail as should be.

(continued)

Superintendent 4th District.

The Mechanician's work is a division by itself in this District, and might well be handled independently under the Mechanician in charge.

5. It is believed that Mr. Robson would carry on very successfully in a smaller District, such as the 4th, where the duties could not be so honorous as they are in this District and where the amount of equipment must certainly be much less for which he would be responsible. Should a transfer be effected, no doubt his salary would have to be reduced somewhat to correspond to the duties and responsibility. Mr. Robson has done some excellent things for the Lighthouse Service in the way of devising contacts for radiobeacon operation, effecting synchronizing apparatus. He has an inventive sort of mind and understands the maintenance of internal combustion engines thoroughly, can diagnose their troubles and effect repairs. He has a good knowledge of radio apparatus, especially radiobeacons, and it is thought he would make a valuable man for the 4th District.

6. This office has in mind another solution of the problem in this District and that would be to employ an additional Assistant Lighthouse Engineer with mechanical and electrical training and ability to take charge in an administrative manner of this particular division, assuming all the duties enumerated above which are expected of the Mechanician in this District. Such a position is thoroughly warranted, but due to the difficulties of getting any new position created, this office is rather skeptical as to the results if a recommendation were placed with the Bureau for the creation of this new position.

7. This matter is being put to you quite frankly, without attempting to cover up any of the points involved and with a view of requesting you, if you so desire, to put the matter up to Mr. Millar for his reaction and for your comment.

8. Your frank comment on the proposal mentioned in this letter would be very much appreciated at your earliest convenience.

F. P. Dillon
Superintendent of Lighthouses.

June 20,1935.

Superintendent of Lighthouses,
11th L.H.District,
Detroit, Michigan.

1. Reference is made to your letter of June 12th, relative to the return of Mr. Leslie Millar to the 11th District, in place of Mechanician Robson.

2. This matter was referred to Mr.Millar, who first appreciates greatly your consideration of him, and desires to thank you for such consideration.

3. However, Millar has a family of seven children, one less than a year old, and his wife has, within a year, undergone an extremely delicate operation, and therefore, he requests that he be permitted to remain where he is for the time being.

4. While the Eleventh District tugs at his heart strings, and he feels he could fill the job fully, he also feels it is one of those times when such a move is impossible. However, he wishes to be kept in mind for a similar chance in the future,-- say two or three years.

5. This office regrets that it cannot assist you in this matter, after Millar's very appreciative but frank statement relative to the matter.

Detroit, Michigan.

1. In the matter of contract for Leslie V. S. Millar dated March 5, 1931, vice John H. Neal, to be retired, per your letter of February 6, 1931.

2. Mr. Neal is past retirement age and is functioning under an extension "not to exceed March 4, 1931". Retirement Circular No. 64 of September 6, 1930, interprets the Act of April 23, 1930, as not applying "in the matter of continuance certificates", and Bureau Circular No. 196 of November 3, 1930, appears to provide in cases such as that now under consideration that "the employee may retire on the first day of any month he may select within the period of his authorized extension."

3. In the instant case, March 4, 1931, we regarded as the ultimate date for termination of his extension, and recommendation for retirement was submitted to Bureau on December 30, 1930, effective at the close of March 4, 1931.

Superintendent of Lighthouses,
3760 Jefferson Ave., East,
Detroit, Michigan.

1. The Bureau has approved Leslie V. S. Millar's transfer to this district as Mechanician at a salary of $225.00 per month with the understanding that it involves a transfer from a registered position in the Eleventh District to a registered position in the Fourth District. It is my understanding that Mr. Millar does hold a registered position as Machinist in the Eleventh District. I am enclosing herewith Contract Form 205 covering the position in this district as Mechanician, with the request that it be forwarded to Mr. Millar with instructions to report for duty in this office on the morning of March 5, 1931.

2. Mr. Millar's pay for services in this district cannot begin until March 5, 1931, since the present Mechanician will receive pay until the close of March 4, 1931.

3. I appreciate the liberal view you have taken in regard to this matter, as expressed in your letter dated January 26, 1931.

Dear Mr. Park:

Our present mechanician will retire at the close of March 4, 1931, and I am therefore anxious to arrange for the transfer to this District of Leslie Millar, provided you are agreeable. It is my understanding that I will have to submit to the Bureau Form 375 properly filled out by Mr. Millar. I therefore would appreciate it if you would have Mr. Millar fill out this application form and have the jurat or oath at the bottom of the reverse side completed and all returned to me as soon as practicable. After receipt of this Form 375 properly executed, I will, with your approval, forward same to the Bureau together with a letter asking for Mr. Millar's transfer and appointment to the position of mechanician in this District, at the same time stating that it is my understanding that the Eleventh Superintendent will not offer objection to the proposed change. If these are not in accordance with your views, please advise me.

Superintendent of Lighthouses.
