SUBJECT: Charges against 1st Asst. Keeper Miller.

REFERENCE: Your letter June 10th and previous correspondence.

1. The contents of your letter of June 10th have been noted. The statements contained in your letter supply no additional information and no corroborated evidence, therefore there is no change in the situation as covered by previous correspondence and by letter from this office June 6th. The information heretofore submitted, as well as that contained in your letter of June 10th is based entirely upon statements and information furnished by the 2nd Assistant Keeper, which is uncorroborated. The letter of June 10th from 2nd Assistant Keeper Warrington, which accompanied your letter of June 10th, was presumably solicited by yourself as this office has made no request on the 2nd Assistant Keeper for a report in the matter. While the 2nd Assistant Keeper may, as he states, have personal knowledge of certain matters, his statements are unsupported by evidence to prove or corroborate his statements, therefore his statements cannot be given any more weight than the statements of the 1st Assistant Keeper which are likewise without proof, it being one man's word against anothers.

2. Further correspondence at this time on the subject of charges against the 1st Assistant Keeper is unnecessary and uncalled for unless or until such time as you have definite evidence that you can support by proof or corroboration to show that the 1st Assistant Keeper is guilty of misconduct or non-compliance with Service regulations.

Subject: Charges Keeper making false report against 1st. asst. Keeper.

The fact that 1st. asst Miller denies the Charges that he left the Station April 16. at 3.15 Pm and did not return untill 12.15 a. m on April 17th is Positively false. He parks his Car under my front windows and as I was on watch untill 12 P.M. April 16th I neccessarily was in and out of the house every few minutes, and at 12 Pm April 16th his Car was not there. But when I came out of the tower at 12.15 am. April 17th his Car was under the windows, and I met him coming in the door.
So I can not see why my word is not as good as his, and why the Keeper should be blamed for bringing false-

I have a great many compliments as to the better appearance of this station now to what it was a few years back and I should think it would be to my credit that I work and make my assistant work also.

SUBJECT: Charges against 1st Asst.Keeper Miller.
REFERENCE: Your letter May 1,1932.

1. The subject of your letter of May 1,1932 has been investigated, and it is found that you have no direct knowledge that the 1st Assistant Keeper has made false entries in the Record of Absences, and while it appears that the Second Assistant Keeper is of the belief that certain entries are not correct, there is no evidence to prove that such is the case. This condition necessarily places you in the position of having made charges which are unsupported by proof or evidence, and would indicate attempted oppression of a subordinate contrary to service regulations.

2. You are hereby cautioned for your action in making charges against the 1st Assistant Keeper without having adequate evidence or proof to support the charge, and advised that a repetition of this character will result in more drastic disciplinary measures being taken. The fact that you have been cautioned will form a part of your official history.

REFERENCE: Letter from this office May 13th and your reply May 19th.

1. In reference to charges involving the matter of making false entries in the Record of Absences, it is noted that while you verbally stated that you had not made false entries in the station records, your reply to charges of May 19th states that you "do not care to make any statement at the present" which in itself raises doubt in the matter and leads to the belief that, while not admitted, the charges may have some foundation of fact. Investigation of the matter, however, has not disclosed evidence to either prove or disapprove the charges , in view of which no further action will be taken at this time, but you are advised to exercise care on all occasions when making entries in Record of Absences or other station records since proof of falsification of records will result in action being taken as provided for by Par.2 of Instructions to Employees.

2. Your countercharge of May 19th stating that the Keeper made false entries in Record of Absences on March 6,1930, (over two years ago) is entirely unsupported by any information or evidence to prove your charge. The fact that your charge is based on an elleged occurrence over two years ago and is unsupported by proof, indicates that your purpose was to bring discredit upon the Keeper if possible, which condition is amply covered by Par.111 of Instructions to Employees. You are hereby cautioned for your action and disregard of service regulations in this instance and advised that a repetition will result in more drastic disciplinary measures being taken. The fact that you have been cautioned will be made a part of your official history.

SUBJECT: Charges.

REFERENCE: The attached correspondence.

1. In accordance with your orders I have investigated the charge that First Assistant Miller made false entries in the station leave record book.

2. From conversation with the Keeper in regard to the incident referred to I learned that there is no accurate check on the going and coming of the keepers at this station. There has been no attempt to keep a clock running in the room where the leave book is kept for keepers to sign before leaving and on returning from absence. He was sure, however, that he was able to check up on the time but it seems that there is some doubt as to the accuracy of his method as each man depended on his own watch with unlimited opportunity for setting the same to suit the purpose of the occasion. With a time clock in the leave book room there could be no doubt as to the intent of the individual if his entry in leave book was not in accord with the clock.

3. First Assistant Keeper Miller stated that he had not made false entries in the station records. He is not sure that he was home at 8:15, April 16th, the date on which he is reported to have falsified the record, but he is "pretty positive" that he was and he could not understand why he should have set down the time as 8:15 P.M. on April 16th if it was 12:15 A.M. on the 17th, as charged. He also stated that he always charges his full time when he returns from leave. Second Assistant Warrington stated that he had no written notes of the occasions when the First Assistant is alleged to have under-charged his time. He made mental notes of the occurrences and later on reported them to the Keeper who made a check mark on the line indicated by Second Assistant, who checked First Assistant's return by his own watch. Asked if he knew whether his timepiece registered the same time as First Assistant's, he was unable to say that it did. As the Keeper has no direct knowledge

of the matter charged against the First Assistant there seems to be only the question as to which Assistant is the more dependable.

4. The First Assistant is reasonably sure that his entries in the record book are true. In this belief he stands along. The Second Assistant thinks that the entries referred to are false but he has no proof. The Keeper stands with the Second Assistant making it two to one.

5. But on another matter which has nothing to do with the case except for purposes of comparison, the Keeper stated in my hearing that the First Assistant Keeper always returned to station drunk. When Second Assistant was being questioned he said he had never seen the First Assistant drunk. It must be borne in mind that he had checked up on the First Assistant's time of return to station. This time he is aligned with the First Assistant against the Keeper, as the First Assistant denied ever being drunk.

6. The conclusion I have drawn from this discussion with the three keepers of Montauk Point Light Station, that the charge of falsifying the books is not justified by the evidence.

7. In the course of conversation with the keepers, the First Assistant took occasion to tell the Keeper that "you are always nagging me". The Keeper's retort was couched in words that would have a tendency to excite ill feeling in any man, it was to the effect that the nagging was caused by First Assistant being late in turning to for work in the morning. This was told in language that was sneering and sarcastic. At this time I asked the Keeper and Assistants if they were familiar with the Instructions to Employees, as neither of them appeared to know much about them I read them extracts concerning "Obedience to Orders," Article 5, and "Oppression of Subordinates," Article 11. I then instructed the Keeper to see that the clock was kept running as a means for checking the time of departure and return of keepers taking trips away from the station.

8. Notice was given to Keeper Buckridge by letter from this office of March 10, 1932, as to the procedure in case of disobedience to orders or any act of insubordination, and he was told to submit proof in writing properly witnessed and it would receive prompt attention. His charges that the First Assistant has falsified the station records is unsupported by proof and is not prepared in accordance with instructions from this office.

9. It is recommended that the Keeper be cautioned against making charges without adequate evidence to back them, and that he

advised to conform to Instructions to Empl yees in all matters, especially to Article 11 - A and B, and 183, and that his reply to countercharges by First Assistant Miller of May 19, 1932, is premature, as no reply has been asked for, and is contrary to instructions with which he should be familiar, in that there are implied countercharges against Assistant Miller in his letter. It is also noted that the Keeper states that the charge is beyond his recollection and "I am having the Second Assistant sign this as he has no recollection of this charge either".

Respectfully submitted.

SUBJECT: First Assistant Keeper's leave.
REFERENCE: Your letter of March 7, 1932.

1. You are advised that the records of this office show that First Assistant Miller was granted fifteen (15) days of annual leave beginning February 28th and ending March 13th, 1932, without substitute. You state that Miller said he would sign the book and go on watch at noon but you do not say that he signed the book thereby ending his leave, a point that you should have noted before taking it for granted that Miller had returned to duty. As keeper of Montauk Point Light Station you should be competent to handle such situations at the station.

2. Regarding Assistant Keeper Miller's refusal to remove the old property from the station, which is a direct violation of the Instructions to Employees, Paragraph 5, and you should be guided accordingly. If you are unfamiliar with the Instructions your attention is invited to same, Paragraph 4(b) to 15, inclusive. If you can submit proof in writing with a reliable witness of any act of disobedience to orders or any insubordination on the part of your assistants it will receive prompt attention, as will also a statement from you that you are unable to command the respect and obedience of your subordinates.

When Mr Luther was here in November 1931 her wrote me from 307 that Miller had to get all the junk and trash ~~to~~ his father had collected out of the barn. and that is still there. I have told him several times he had better get it out, but all he would say, he would when he could.

So now I am asking you what I am going to do with such a man? One who I can place no dependence in whatever. I am getting at my wits end as I am held responsible for every thing he does, or does not do.

Memo Re present conditions at Montauk Point Lt. Sta.

The keeper states that the two assts respond to his orders better than at time he complained of them but they take their time and do the work in their own way = First ass't absent.

The second assistant was asked how things were going since the hearing - and he said that so far as he knew everything was alright =

The keeper has too ~~little~~ weak a spirit for a successful manager of assts. he requested me to write orders for work in the station inspection book so he could show them to the assts as his authority for doing the work, this ought not to be necessary, the keeper has ample authority for directing the work and should not find it necessary to be given written orders for any necessary work required of the assts. He should be transferred at the first opportunity to a one man station.

Respectfully submitted

Memo

Was at Montauk Pt Light 6/12/31 -

1st Asst Keeper Miller absent, but no record in leave book - Keeper said had gone to town for the afternoon -

It is evident that the keeper has worked since he came there, and says that he has expected each asst to do his share to place & keep station in condition, but has found both to be slow workers - The principal trouble is apparently the fact that the former keeper was slack & negligent & the asst did little other than to stand watches, and when called upon by new keeper to do some work they did not relish the idea - This was admitted by 2d asst Warrington, who indicated that he was willing to do his work & keep his record clean - Although given the opportunity he made no claim that the keeper was overdoing

or Experience conceding that Kpr was right in expecting assts to work -

The keepers indicated no desire to get rid of assts., but did want them to perform their duty.

I found nothing or evidence to show that the Keepers was exceeding his authority, acting improperly, or "wild" as stated in attached letter -

The actual letter is believed to be the result of family discussion & grievances which are believed to be more fanciful than real - Ade -

Mr. yates,

Dear Sir. I know that you get plenty of crank letters but this is the first one that I have ever written and I hope you will have patience with me, my husband does not know I am writing this, My purpose of doing so is because I understand the rules are that the assn't Keepers can not say anything against the Keeper.

I dont see why we have to take so much from him and have no right to say anything.

My husband works every day he is real slow but does his

work good, Buckridge flies around here and there and is very slack. Sometimes the men do his work over after him, he or his wife watches them to see if they keep working. This is one of their troubles and another one is the very insulting remarks he makes to his men which naturaly causes hard feeling between them another trouble is every time any of us go in the stores or see our neighbors they all have something to tell us that the Keeper said about us, this you will think is very foolish but it makes things very unpleasant just the same.

I did not hear the argument that my husband and the Keeper had, my husband says

he was very insulting and called him bad names.

all last summer they had a house full of company or boarders we had to put up with their noise which I suppose is all right because he is Keeper.

The Keeper has letters come from your office which are not offical, [redacted], and I myself saw him with his ear at Warrington's door listening.

My husband and I both feel very much discouraged, and disgusted with all this peeking and spying that is going on around here.

We have lived here 14 yrs. I would hate to see my husband

SUBJECT: J.A.Miller, 1st Asst.Keeper.
REFERENCE: Your letter June 1,1931.

1. You are advised that 48 hours leave means exactly what the expression implies and no more. An employee who leaves the station at 12:05 A.M. on May 29th and returns at 11:20 P.M. on May 31st, has been absent for 71-1/4 hours and not 48 hours.

2. In connection with your remark concerning the office assuming responsibility; your attention is invited to the fact that you are employed and paid salary as Keeper at Montauk Point Light Station, and so long as you hold this position you necessarily will be held responsible for the efficient maintenance of the station and proper conduct of station affairs.

SUBJECT: Charges .
REFERENCE: Letter from this office of May 20th and your letter of May 22nd.

1. Your reply to charges of insubordination, disobedience of orders, and addressing contemptable and disrespecful language to a superior, is not by any means satisfactory. You admit that you refused to perform work as ordered by the Keeper, and state that you do not recall that you addressed the Keeper in language as stated in charges.

2. In regard to your action in refusing to paint the ball on top of the lantern; you are advised that this or any other necessary work connected with the station that may be ordered done by the Keeper, is a part of the duties of the position you hold and for which you are paid, and so long as you occupy the position of Assistant Keeper you are expected to perform such duties, or if for any reason you are personally unable to perform items of work assigned to you that involve climbing etc., you are expected to arrange to have such portions of your duties performed without expense to the Government, and this without refusal of duty, and without argument or dispute with the keeper, otherwise you are obviously unfitted for the position of Assistant Lighthouse Keeper.

3. Your statements that you do not recall address ing improper language to the keeper may well be interpreted as a restricted admission of the charge.

4. Your attention is invited to the fact that the requirements of Par.5 of Instructions to Employees, are clear and specific; your conduct in this instance shows complete disregard of these requirements, for which you are hereby cautioned and advised that a repetition of such conduct

will result in action being taken with the view of your separation from this service.

5. In this connection attention is invited to the fact that you were cautioned for inefficiency on June 3, 1927.

I read 1st. asst. Miller's report to you, and have this to say. He must have spells of loss of memory as well, when he states he cannot recall saying any of the things charged against him. 2nd asst Warrington heard the whole talk and he will corroborate any thing that I said he said, in my first letter, if you care to write him about it. As to Miller's dizzy spells, he never said any thing to me about them and as his breath reeks of whiskey most of the time and on two occasions he fell down the stairs to his quarters when coming back late at nights. I can imagine he has something of the sort

Yours of the 20th received and in reply wish to state that on the morning of the 18th, when the keepers ordered me to paint the ball on tops of the lanterns towers I wish to advise that as I am subject to dizzy spells. I told the keepers that I did not care to tackle the job and he said if I did not do it he would report me to the superintendent I refused to do it and told the keepers to go ahead and report me, there were several words that passed between the keepers and I that morning but I dont recall any statement that I would be a son of a bitch if I would paint the ball, nor that I did not give a D. You are advised that your explanation concerning your failure to make any attempt to accomplish or assist in accomplishing any of the painting work that had been ordered done on two different occasions is not by any means satisfactory. Your mere statement that there has been a number of odd jobs about the Station that had to be attended to which prevented the accomplishment of the painting work ordered, indicates that your efficiency is far below that expected of first assistant keepers of light Stations and also a lack of interest on your part in the position you hold as well as the work of the Service. You are hereby cautioned for your conduct as referred to herein and advised that you will be expected to show a very material improvement in your efficiency as first assistant keeper as well as interest in the work of the Station as otherwise further and more drastic disciplinary measures will be taken.

SUBJECT: Charges, Inefficiency.

1. You are hereby charged with inefficiency as First Assistant Keeper of Montauk Point Light Station, New York, in that when the Station was inspected on May 16, 1927, it was found that the exterior of all structures on the Station, also the signal house sashes are in need of painting, which work was ordered done at two previous inspections. Notwithstanding the conditions stated, and the orders referred to, neither the other two keepers or yourself have made any attempt to accomplish any of the painting referred to which is urgently needed. The condition referred to and necessity for painting is clearly evident and should be obvious to any interested and efficient keeper or assistant keeper, and the fact that you have made no attempt to at least assist in remedying the condition referred to indicates that your interest and willingness, as well as your efficiency as First Assistant Keeper is far below the standard expected and required of assistant keepers in this Service.

Your reply without date to letter from this office of October 26th concerning your application for 23 days of shore liberty or leave has been received.

In reply you are advised that this office cannot see its way clear to approve leave for such a long period as 23 days, during which time the station and property will be in charge of a person other than an employeeof this Service. It is considered that a keeper should not leave a station in charge of a substitute for a longer period than a week or ten days, and if you desire to make application for such leave, consideration will be given to approving it.

Referring to your letter of April 17,1914 requesting transfer, in the event of a vacancy, to any land station.

You are informed that it would be impracticable for this office to consider your transfer to any station, unless you had previously filed a request for transfer to the particular station where there is a vacancy. As most vacancies have to be filled promptly, there would not be time to write to those who state they would accept any station, to see if they would accept transfer, and, if we should nominate you without first writing, the position for which you were nominated might be just the one station in the District you would not care to go to. The enclosed circular letter explains the method of filing lists of stations and positions to which you would accept transfer.

In this connection your attention is invited to the fact that the list filed by you contains the names of only four stations. By filing a new list giving a larger number of stations to which you would accept transfer, your chances of being transferred would be better.

(Item #23)

The regular tour of duty at this station consists of twelve hours. On the first tour I go on duty 12 o'clock mid-day, watch weather conditions and on the approach of fog the fog signal machinery and apparatus must be put in operation at once which requires oiling and fueling during period of fog.

12 Hours

At sunset I proceed to put the illuminating apparatus in operation, which is a incandescent oil vapor lamp giving a white flash every ten seconds and a revolving clockwork. The vaporizer tube is heated by means of alcohol torches for a period of ten minutes, the revolving clockwork throughly oiled the lamp lighted and kept burning at full intensity the revolving clockwork kept wound up by hand and strict watch kept until 12 o'clock midnight at which time my first tour expires.

Next I go on reserve duty for twenty-four hours. Much of which time I use in helping to paint the main dwelling consisting of fifteen rooms and four hallways, four outside buildings and a tower which require painting

and whitewashing inside and out, polish brass, clean lens and lantern daily escort visitors in the tower on the prescribed hours, do minor repairs about the station and keep the grounds and reservation in good condition.

The second tour I go on duty 12 o'clock midnight, transfer air on to the oil tank at intervals so as to keep the illuminating apparatus burning at full intensity and proper air pressure, wind the revolving clockwork by hand at certain periods and make certain that the light is flashing on time. If fog should arise during the tour the fog signal machinery and apparatus must be put in operation at once and the signal sounded on time, and strict watch kept until sunrise at which time I extinguish the

SUBJECT: Charges .
REFERENCE: Letter from this office of May 20th and your letter of May 22nd.

1. Your reply to charges of insubordination, disobedience of orders, and addressing contemptable and disrespecful language to a superior, is not by any means satisfactory. You admit that you refused to perform work as ordered by the Keeper, and state that you do not recall that you addressed the Keeper in language as stated in charges.

2. In regard to your action in refusing to paint the ball on top of the lantern; you are advised that this or any other necessary work connected with the station that may be ordered done by the Keeper, is a part of the duties of the position you hold and for which you are paid, and so long as you occupy the position of Assistant Keeper you are expected to perform such duties, or if for any reason you are personally unable to perform items of work assigned to you that involve climbing etc., you are expected to arrange to have such portions of your duties performed without expense to the Government, and this without refusal of duty, and without argument or dispute with the keeper, otherwise you are obviously unfitted for the position of Assistant Lighthouse Keeper.

3. Your statements that you do not recall address ing improper language to the keeper may well be interpreted as a restricted admission of the charge.

4. Your attention is invited to the fact that the requirements of Par.5 of Instructions to Employees, are clear and specific; your conduct in this instance shows complete disregard of these requirements, for which you are hereby cautioned and advised that a repetition of such conduct

will result in action being taken with the view of your separation from this service.

5. In this connection attention is invited to the fact that you were cautioned for inefficiency on June 3, 1927.

6. The fact that you have been cautioned will be made a part of your official history in the Lighthouse Service.

Through the Keeper,
Montauk Point Light Station,
Montauk, L.I., N. Y.

SUBJECT: Charges.
REFERENCE: Letter from this office May 13th and your reply May 19th.

1. In reference to charges involving the matter of making false entries in the Record of Absences, it is noted that while you verbally stated that you had not made false entries in the station records, your reply to charges of May 19th states that you"do not care to make any statement at the present" which in itself raises doubt in the matter and leads to the belief that, while not admitted, the charges may have some foundation of fact. Investigation of the matter, however, has not disclosed evidence to either prove or disapprove the charges , in view of which no further action will be taken at this time, but you are advised to exercise care on all occasions when making entries in Record of Absences or other station records since proof of falsification of records will result in action being taken as provided for by Par.2 of Instructions to Employees.

2. Your countercharge of May 19th stating that the Keeper made false entries in Record of Absences on March 6,1930, (over two years ago) is entirely unsupported by any information or evidence to prove your charge. The fact that your charge is based on an elleged occurrence over two years ago and is unsupported by proof, indicates that your purpose was to bring discredit upon the Keeper if possible, which condition is amply covered by Par.111 of Instructions to Employees. You are hereby cautioned for your action and disregard of service regulations in this instance and advised that a repetition will result in more drastic disciplinary measures being taken. The fact that you have been cautioned will be made a part of your official history.

Gentlemen:

Reference your file Misc 2884100. Inclosed is a letter of Mr. John A. Miller, a retired member of the former Lighthouse Service, in which he claims the difference due in retired pay based on gross salary, which includes the amount deducted as a charge for occupancy of Government quarters, over that paid him based on net salary, for the period August 1, 1943 to June 30, 1947. In this connection, reference is made to the Comptroller General's decision of October 23, 1947 (B-70029).

Also inclosed is Standard Form 50 (9 Part), describing this retirement. This form shows correct computation of retired pay to be $1341.27 per annum, whereas, for the period August 1, 1943 to June 30, 1947, Mr. Miller was paid at the rate of $1201.77 per annum - an underpayment of $139.50 per year, or $11.63 per month.

Computation of the amount due and appropriations chargeable are as follows:

2041255 - Retired Pay, Former Lighthouse Service, Coast Guard,		1944	$127.93
2051255 - " " " " "		1945	$139.50
2061255 - " " " " "		1946	$139.50
2071255 - " " " " "		1947	$139.50
	TOTAL furnished		$546.43

For tax withholding purposes, the records of this office show that Mr. Miller claims 3 exemptions.

Mr. Miller's mailing address is R.F.D. Box 116, East Hampton, L. I., New York. and his claim is forwarded for settlement. No part of this claim has been or will be paid by this office.

By direction of the Commandant.

SUBJECT: Charges.
REFERENCE: Letter from this office May 13th and your reply May 19th.

1. In reference to charges involving the matter of making false entries in the Record of Absences, it is noted that while you verbally stated that you had not made false entries in the station records, your reply to charges of May 19th states that you "do not care to make any statement at the present" which in itself raises doubt in the matter and leads to the belief that, while not admitted, the charges may have some foundation of fact. Investigation of the matter, however, has not disclosed evidence to either prove or disapprove the charges, in view of which no further action will be taken at this time, but you are advised to exercise care on all occasions when making entries in Record of Absences or other station records since proof of falsification of records will result in action being taken as provided for by Par. 2 of Instructions to Employees.

2. Your countercharge of May 19th stating that the Keeper made false entries in Record of Absences on March 6, 1930, (over two years ago) is entirely unsupported by any information or evidence to prove your charge. The fact that your charge is based on an alleged occurrence over two years ago and is unsupported by proof, indicates that your purpose was to bring discredit upon the Keeper if possible, which condition is amply covered by Par. 111 of Instructions to Employees. You are hereby cautioned for your action and disregard of service regulations in this instance and advised that a repetition will result in more drastic disciplinary measures being taken. The fact that you have been cautioned will be made a part of your official history.

SUBJECT: Charges.
REFERENCE: Letter from this office of May 20th and your letter of May 22nd.

1. Your reply to charges of insubordination, disobedience of orders, and addressing contemptable and disrespectful language to a superior, is not by any means satisfactory. You admit that you refused to perform work as ordered by the Keeper, and state that you do not recall that you addressed the Keeper in language as stated in charges.

2. In regard to your action in refusing to paint the ball on top of the lantern; you are advised that this or any other necessary work connected with the station that may be ordered done by the Keeper, is a part of the duties of the position you hold and for which you are paid, and so long as you occupy the position of Assistant Keeper you are expected to perform such duties, or if for any reason you are personally unable to perform items of work assigned to you that involve climbing, etc., you are expected to arrange to have such portions of your duties performed without expense to the Government, and this without refusal of duty, and without argument or dispute with the keeper, otherwise you are obviously unfitted for the position of Assistant Lighthouse Keeper.

3. Your statements that you do not recall addressing improper language to the keeper may well be interpreted as a restricted admission of the charge.

4. Your attention is invited to the fact that the requirements of Par. 5 of Instructions to Employees, are clear and specific; your conduct in this instance shows complete disregard of these requirements, for which you are hereby cautioned and advised that a repetition of such conduct

will result in action being taken with the view of your separation from this Service.

You are advised that your explanation concerning your failure to make any attempt to accomplish or assist in accomplishing any of the painting work that had been ordered done on two different occasions is not by any means satisfactory. Your mere statement that there has been a number of odd jobs about the Station that had to be attended to which prevented the accomplishment of the painting work ordered, indicates that your efficiency is far below that expected of first assistant keepers of Light Stations and also a lack of interest on your part in the position you hold as well as the work of the Service. In view of the fact that additional men are employed to assist the Keepers of Montauk Point Light Station during the months of July and August in order that work may be less arduous, it would be rather illogical to grant leave to the regular keepers when such men are employed, and this office could not see its way clear to grant leave in July.

Superintendent:-

In regard to the claim of the Amagansett Lumber Co, I wish to state that I did do business with that concern about that time.

I bought some lumber and building material and it was agreed what lumber was left over after the job was completed would be taken back and I would be given credit for it.

I paid the bill in full and have a receipt for same, Mr. Parsons promising he would send me a check for the lumber, which was returned a few days later, this he failed to do.

October 17th, I took all my slips and receipts and checked over his books and one bag of coal was charged to my account which I knew nothing about, I paid the $1.32 which settled and balanced the account to date, It wasn't a matter of paying the bill, it was the fact that Parsons did not want to make good to me for the lumber that I had returned, I have all my receipts which will verify my statement and will forward them if you should care to see them.

Dear Keeper Buckridge:

I examined and treated John Miller on December 27th for a contusion of his ~~right~~ knee. I have seen him again this afternoon and feel that it will be to his advantage to be relieved of climbing the tower for a few days.

I have advised him to save the leg all that he can.

Very truly yours,

David Edwards

1. Herewith returned are Form 79 - Application for Sick Leave - and Form 76 - Application for Annual Leave - both dated Jan.15,1937. The Form 76 is apparently intended to apply for annual leave for the period Jan.1st to Jan.14th, and the Form 79 is obviously application for sick leave for the same period of Jan.1st to Jan.14th. Obviously application for sick leave and application for annual leave cannot be considered for the same period of absence. Application for any sick leave should necessarily cover only time when an employee is incapacitated for duty on account of illness, and the application should be prepared strictly in accordance with the requirements of the printed form.

he fell striking his knee. When I returned to the station on Dec 27.th his knee was swolen quite badly & he limped considerable, but he seemed to be able to do his work and said nothing to me about releaving him. Jan 1. 1937 he came to me and said he wanted some time off to rest his knee and I told him if he took more than four days he would have to get the Superintendents permission, the reason for his letter of Jan 1st.) He had been to the doctor twice before I returned to the station and three times after, He seemed To lose his limp quickly after he took his leave and could stay away from the station 8 to 10 hrs at a time on several occasions so it would seem that his knee improved quite rapidly after he began his leave.

I wish to explain that due to the fact that Drs. David Edwards the regular marine surgeon went away on vacations, I was receiving treatments from Drs. Edwards from December 27th 1936 up until January 6th 1937, at which time he was succeeded by Drs. Glanville who gave me treatments from January 6th to January 13th 1937 inclusive.
In my letter of January 1st, when I requested sick leave I also enclosed a medical certificate signed by Drs. Edwards which I took for granted would answers for that period from January 1st, to January 6th 1937.

John A. Miller,

Annagansett, N. Y.

Your telegram of October 17,1913 stating that you would be unable to report at Plum Beach Light Station before the 20th of the month, has been received.

The orders from this office directing you to report for duty at Plum Beach Light Station were dated September 29,1913. The date that you were to report at Plum Beach Lt. Sta.was October 16.
