Subject: Leroy L. Myers; retirement

Reference: (a) Application Form 9

In the computation of the retired pay of the subject employee, it is noted that the last five-year period extends from November 19, 1934 to the close of November 30, 1939, which is 12 days in excess of five years. It is noted also that while the rate of pay during the last five-year period did not change from $1800 per annum, the extension for the period from 1 July, 1938 to 30 June, 1939, shows that the pay received was $1740 per annum, which is $60 less than the rate of pay for a full-year period. However, this $60 appears to be taken up in the additional 12 days.

This is not understood in view of the fact that no leave without pay is shown at the top of page 2 of Form 9 in the tabulation of all active government service. Explanation is requested promptly.

By direction,

R. J. CROSS,
Assistant to the Chief Personnel Officer.

Mr. Leroy L. Myers

1. Your further report, dated January 11, 1938, regarding light being out from 9:35 to 10:45 P. M. on the night of December 22, 1937, has been received.

2. Regardless of your explanation that the kitchen is the only place warm and comfortable enough to stand watches, the fact that the light was out for about three quarters of an hour before you knew it was out, is evidence that watches are not stood in such place and manner as to give continuous and best possible attention to the light when in operation, as required by Instructions to Employees, 1927.

3. It is a serious thing for a light as important as yours to be out for over an hour, and does not speak well for the efficiency of the keeper on watch for it to be out nearly three quarters of an hour without his knowing it. When such a thing occurs during the watch of the principal keeper it is even more reprehensible.

4. You are cautioned not to let such a condition occur again. To this end see that visits to the light for observing its operation are made at frequent intervals during watches, in any event not less frequently than once each half hour.

Sirs:

With reference to your form CA 34, dated January 11, 1937, your file 474681 Lf 41558, relative to injury sustained by Mr. Leroy L Myers, Keeper, Ram Island Ledge Lighthouse, Maine:

Mr. Myer's injury was not received in performance of his duty but was the result of an accident at his home while on leave of absence. He was referred to the U. S. Marine Hospital at Portland, Maine, for treatment on December 15, 1936, under the provisions of Act of Congress approved August 28, 1916 (39 Stat.,538) and was given Lighthouse Form 207 for admittance.

It was evidently an error on the part of the Marine Hospital in submitting your form CA-20 in this case.

Respectfully,

The Tax Collector at Phippsburg, Maine, advises that he has an unpaid tax bill against you for tax on your automobile. The automobile was valued at $425 and the tax rate is $45 per thousand, making the tax $19.13.

While keepers who reside on Government reservations are exempt from the payment of poll tax or tax on personal property which is kept within such reservation, it is considered that they are required to pay tax on an automobile which is used on the public ways. You are therefore directed to pay this tax at the earliest possible date or submit an explanation as to why you should not pay the tax.

Mr. Everett A Harrington,
Clerk and Collector,
Town of Phippsburg, Maine.

Sir:

I am in receipt of your letter of January 11 regarding unpaid taxes of Leroy L Myers while stationed at Fort Popham Lighthouse, Maine.

It has been held that Government employees residing on Government reservations are exempt from the payment of poll tax and from the payment of taxes on personal property which is within the confines of such Government reservation. This exemption has been extended to include motor boats, which, while used for occasional trips outside of reservation for mail, supplies, etc., are generally kept at the reservation. Light keepers who own automobiles and use them on the public highways are, however, required to pay personal property tax on such automobiles or the excise tax which has taken the place of such personal property tax. If you will advise me just what part of the $25.88 stated in your letter applies to the personal property tax on Mr. Myers' automobile, I will be glad to take the matter up with him and see that he pays it provided it is a legal obligation.

2. The sheriff and all officers in the City of Bath were notified, but have found no trace of Drews, who, it is understood, is the father of the child.

Sir:

This P.M. 4.15 Boat No. 128-A came ashore west of tower, engine running and no one aboard, came in from off shore. Keeper went ashore and telephoned the Coast Guard Sta. They came 5.45 P.M., took the boat off the ledge and took it to Portland 6.30 P.M. Very little damage done. Can't say what happened to the man that had the boat. There was quite a sea running at the time and they done good work launching and getting away from the ledge. McBride and Myers assisted them in making the boat fast and holding it until they got here.

Respectfully,

I am pleased to note from your report of June 11, 1933, the assistance rendered by yourself and Lloyd L McBride, second assistant, in assisting in the salving of motor boat No. 128-A from the ledge west of the light tower, where it had drifted, unoccupied, from seaward, and to commend you and Mr. McBride for your prompt action, which, no doubt, saved the boat from destruction.

This matter has been reported to the Commissioner of Lighthouses at Washington to be made a part of your official histories.

Mr. Leroy L. Myers
Keeper, Ram Island Ledge Light Station, Maine

1. Your further report, dated January 11, 1938, regarding light being out from 9:35 to 10:45 P. M. on the night of December 22, 1937, has been received.

2. Regardless of your explanation that the kitchen is the only place warm and comfortable enough to stand watches, the fact that the light was out for about three quarters of an hour before you knew it was out, is evidence that watches are not stood in such place and manner as to give continuous and best possible attention to the light when in operation, as required by Instructions to Employees, 1927.

3. It is a serious thing for a light as important as yours to be out for over an hour, and does not speak well for the efficiency of the keeper on watch for it to be out nearly three quarters of an hour without his knowing it. When such a thing occurs during the watch of the principal keeper it is even more reprehensible.

4. You are cautioned not to let such a condition occur again. To this end see that visits to the light for observing its operation are made at frequent intervals during watches, in any event not less frequently than once each half hour.

In the computation of the retired pay of the subject employee, it is noted that the last five-year period extends from November 19, 1934 to the close of November 30, 1939, which is 12 days in excess of five years. It is noted also that while the rate of pay during the last five-year period did not change from $1800 per annum, the extension for the period from 1 July, 1938 to 30 June, 1939, shows that the pay received was $1740 per annum, which is $60 less than the rate of pay for a full-year period. However, this $60 appears to be taken up in the additional 12 days.

This is not understood in view of the fact that no leave without pay is shown at the top of page 2 of Form 9 in the tabulation of all active government service. Explanation is requested promptly.

Mr. Leroy L. Myers
Keeper, Ram Island Ledge Light Station, Maine

1. Your further report, dated January 11, 1938, regarding light being out from 9:35 to 10:45 P. M. on the night of December 22, 1937, has been received.

2. Regardless of your explanation that the kitchen is the only place warm and comfortable enough to stand watches, the fact that the light was out for about three quarters of an hour before you knew it was out, is evidence that watches are not stood in such place and manner as to give continuous and best possible attention to the light when in operation, as required by Instructions to Employees, 1927.

3. It is a serious thing for a light as important as yours to be out for over an hour, and does not speak well for the efficiency of the keeper on watch for it to be out nearly three quarters of an hour without his knowing it. When such a thing occurs during the watch of the principal keeper it is even more reprehensible.

4. You are cautioned not to let such a condition occur again. To this end see that visits to the light for observing its operation are made at frequent intervals during watches, in any event not less frequently than once each half hour.

This P.M. 4.15 Boat No. 128-A came ashore west of tower, engine running and no one aboard, came in from off shore. Keeper went ashore and telephoned the Coast Guard Sta. They came 5.45 P.M., took the boat off the ledge amd took it to Portland 6.30 P.M. Very little damage done. Can't say what happened to the man that had the boat. There was quite a sea running at the time and they done good work launching and getting away from the ledge. McBride and Myers assisted them in making the boat fast and holding it until they got here.
