Referring to Mr. A. J. Quidley, who is now employed on Light Vessel at Cape Henry. Answer to Question 23, P.C.B.Form No.14

The duties of this employee are to share the watches with principal keeper in care of light and fog signal and the labor of keeping same in state of perfect cleanliness and efficiency, and in cleaning, painting and minor repairs of the entire station, which is a 2-story frame house on interbraced iron piles on a submarine foundation, surmounted by a glazed lantern in which is mounted a fresnel lens for display of light, which may be either a kerosene wick lamp or incandescent oil vapor light. The fog signal is a bell operated by clockwork machinery. Communication with shore is by motor launch. Each of two keepers is allowed 5 days ashore per month and during absence of principal keeper, the assistant is in full charge of station.

The attendance upon minor lights grouped under this station is an important duty and requires skill and considerable risk in operating motor launch oftentimes under stormy conditions, and knowledge of the care and operation of acetylene gas apparatus.

Letter from the Master, Tender Mayflower, to this Office, dated April 19th, 1930.

Copy of letter from this Office to the Keeper, Thimble Shoal Light Station, dated April 21st, 1930.

Letter from the Asst. Keeper, Thimble Shoal Light Station, to this Office, dated April 24th, 1930, with indorsement of April 26th thereon, from this Office to the Master, Tender Mayflower.

Letter from the Master, Tender Mayflower, to this Office, dated April 29th, 1930.

Form 65 for the month of April signed by the Principal Keeper Thimble Shoal Light Station to this Office, received May 2nd, 1930, recording his absence from 6 AM, Apr. 19, to 5 PM, Apr. 26.

2. The explanation of the First Asst. Keeper of this station of his failure to sound the fog-signal at once on the actual approach of fog in accordance with Art. 191, Instructions to Employes, is not considered satisfactory. In Par. 1 of his letter dated April 24th, 1930, he states that the diaphone was in operation at 8 AM on the 19th of April which is contradicted by the Master of the Mayflower in his letter of April 29th.

O.K. 5/13

3. In view of the above it is recommended that this employe be reprimanded by the Bureau for failure to make all preliminary preparations for sounding the fog-signal promptly when weather conditions appeared to warrant such precaution.

4. Return of all papers is requested after serving their purpose.

We are requesting your assistance in clarifying the following information:

Each U.S. Lighthouse Service employee (allegedly) has duty records kept at your location. We are trying to clarify the duty dates at the Cape Hatteras Light Station for a man named **Amasa Jones Quidley**.

Here's the information we have: Quidley's granddaughter says he served at Cape Hatteras from 1919-1925, but has also written that her grandfather was at that lighthouse during WWI, which doesn't match (the war being over in 1918). In other communication about lighthouse keepers after 1912 (when records are scant or nonexistent), Commissioner King's clerk stated the dates as "20 August 1917 until 30 September 1923" for Amasa Quidley. Unaka Jennette (one of the head keepers at Cape Hatteras) stated in his notes "1919?" The question mark leads us to believe he did not know the year Amasa Quidley arrived because Unaka was not on board at that lighthouse until 1919.

Please let me know if you can find anything to help us clear up the mystery. Your help is greatly appreciated!

Sincerely,

Chris Eckard

The Commandant,

Sir: Re: FA-PA; CG-75

Transmitted herewith for administrative examination and report is the claim of Amasa Quidley, Box 65, Buxton, North Carolina, for the difference alleged to be due for retired pay based on gross salary, over that paid based on net salary, as an employee of the United States Lighthouse Service, for the period January 1933 through June 30, 1947.

The administrative report should include copies of the appointments during the last 5 years of service rendered on which the retirement pay was based, indicating the effective date of retirement and whether subsistence or quarters were in addition to or deducted from his gross pay. The amount of subsistence or quarters involved should be furnished.

The report should clearly show the amount of retirement pay currently being received and the basis on which it was computed. In the event a supplemental amount is due, the amount which should be paid and the basis on which it should be computed should be furnished, indicating the period over which an adjustment is due.

If any amount is found due for the period claimed, a short form pay roll should also be furnished indicating thereon the appropriation, symbol, and account number chargeable.

The enclosure should be returned with your report.

Respectfully,

P. E. Bours
