T. N. Robinson, First Assistant Keeper,
Point Arguello Light Station.

(Through the Keeper)

1. It has been brought to the attention of this office that for some time past you have been negligent in the matter of carrying out instructions issued by this office to the keeper in the matter of operating the control valve on the pipe line used for supplying water to the Navy radiocompass station. It is further noted that on March 5, after you had been frequently cautioned by the keeper in this matter, you again left the valve open, with the result that the Navy supply tanks were allowed to overflow and the supply tank on the Sudden Ranch was depleted of its supply of water which this Service has agreed to maintain for the use of the stock on the Sudden Ranch.

2. You are directed in future to comply explicitly at all times with the instructions given you by the keeper regarding the control valve on the water supply line, and you are warned that any further reports of negligence on your part will result in more drastic action being taken.

3. The fact that you have been reprimanded for neglect of your duties will be noted on your official record.

T. N. Robinson, First Assistant Keeper,
Point Arguello Light Station.

(Through the Keeper)

1. It has been brought to the attention of this office that for some time past you have been negligent in the matter of carrying out instructions issued by this office to the keeper in the matter of operating the control valve on the pipe line used for supplying water to the Navy radiocompass station. It is further noted that on March 5, after you had been frequently cautioned by the keeper in this matter, you again left the valve open, with the result that the Navy supply tanks were allowed to overflow and the supply tank on the Sudden Ranch was depleted of its supply of water which this Service has agreed to maintain for the use of the stock on the Sudden Ranch.

2. You are directed in future to comply explicitly at all times with the instructions given you by the keeper regarding the control valve on the water supply line, and you are warned that any further reports of negligence on your part will result in more drastic action being taken.

3. The fact that you have been reprimanded for neglect of your duties will be noted on your official record.
