Inclosure: (A) Form letter to be returned to Commandant.

1. Under the provisions of reference (a) you are hereby tendered a (~~xxxxxxxxxxxxxxxxxxxxxxxxx~~)(regular enlistment) of three years as **boatswain's mate, 2nd cl.** subject to the physical examination prescribed by paragraph 6 of reference (a), and evidence that you meet the qualifications for enlistment contained in Personnel Instructions, U. S. Coast Guard, except for age and marriage.

2. For your information paragraph 6, mentioned above, reads as follows:

> "Each candidate shall be required to take the standard physical examination. If his service, as computed pursuant to section 6 of the Act of August 5, 1939, is less than fifteen years, the standard of physical qualification shall be the same as that required for original appointment; Provided, That minor defects may be waived upon the recommendation of Chief Medical Officer of the Coast Guard. If the service of the candidate shall exceed fifteen years, physical defects may be waived by the Secretary of the Treasury unless they impair ability to perform all the duties of his grade or are likely to result in premature retirement."

3. You are advised that, having accepted an enlistment in the Coast Guard, you will be eligible for promotion in the same manner and under the same regulations as other men in the Coast Guard in the same rate. You are further advised that your enlistment is for general service and that you may be transferred and assigned to duty as the needs of the Service require.

Boston, Massachusetts,

Miss Lila Rose,
Great Salt Pond & Block Island Bkw. Light,
Block Island, Rhode Island.

My dear Miss Rose:

Before Mr. Littlefield departed on authorized leave of absence, he gave me your letter, with instructions that I make appropriate reply as soon as the information you desired was available.

At the time of Mr. Littlefield's departure it was not definitely established that the officers-in-charge, Coast Guard Stations, would be instructed to assist the lighthouse keepers in preparing records and required reports. However, instructions have now been issued, effective as of 1 July, 1940, whereby the officers-in-charge, Coast Guard Stations, will be responsible for the proper maintenance and operation of all units comprising the station.

Consistent with such instructions, the officer-in-charge of the Block Island Coast Guard Station should shortly visit the Block Island Light Station and furnish such assistance as may be required to prepare the necessary records and reports.

Very truly yours,

J. J. GLYNN,
Chief Boatswain (L),
United States Coast Guard.

June 20, 1940

My dear Oswald.

I have started to make dads book up, the "Record of Public Property" and as you probably know in the Lighthouse Dept. we had no stock catalogue, therefore there are several articles we do not know the price of. For instance in our record we have a Marine Clock, and this is

not listed as such in the Catalogue. During the time dad has been here and even in the old books there has never been an article priced.

I was talking with Mr. Haglane and he said I would have to estimate the price, but before doing any more, I thought it best to drop you a line and ask your advice, I have a few sheets made up but there I borrowed from the station

3/

as we have not received
any of the Farms 2571.

Trusting you and
your family are in the
best of health, Best regards
from mother and dad.
Don't we be seeing you
on the Island soon.

Respectfully
Lila Rose.

Dear Sir:

The Commission has received a report of the examination had by Earl A. Rose on January 12, 1940, at the United States Marine Hospital, Chelsea, Massachusetts, where he was referred with Form CA-16.

From the information contained in this report, it does not appear that the disability found on examination was due to an injury sustained in the performance of duty, or proximately caused by the conditions of Mr. Rose's employment as a lighthousekeeper in your Service.

Upon the present evidence he would not be entitled to any benefits of the Compensation Act.

REPORT TO U. S. EMPLOYEES' COMPENSATION COMMISSION

Date January 12, 1940

By orders of the ~~commandant, USCG~~

Name of Beneficiary Earl A. Rose E.C.C.No. ~~State No.~~ - - - - -

Sent to Hospital By CA-16 For examination and observation in connection with disability retirement.

Date Admitted December 14, 1939 12:00 noon Date discharged January 4, 1940

Beneficiary's statement of nature of injury About 5 yrs. ago an "abscess" on rt. side of neck was lanced - has had pain on use of right arm ever since.

Sustained - When _____ Where _____ How _____

Physical examination on December 14, 1939 revealed a moderately obese white male, age 52 years, ambulant ~~and rational.~~ Temperature - 97°, Pulse - 78, Respiration - 20, Blood pressure - 138/78, Height - 66 inches, Weight - 185. Retinal arteries were slightly tortuous showing early arteriosclerotic changes. Left ear drum was perforated. Air and bone conduction was deficient on left. There was a scar just below the right mandibular angle which patient stated gives him pain on direct or light stroking of right side of neck face or behind ear. When attention was directed to some other part of the body, he did not notice finger pressing over the same area. The scar resulted from incision of an abscess some five years ago. There has been no change in the tissue about it and the scar does not interfere with movements of his neck. There was some limitation of motion of left shoulder joint on external rotation. He used the right arm without any limitation while dressing but on direct examination showed weakness that varied from time to time. Reflexes were physiologically normal. X-ray examination of shoulders showed slight increased density at the upper border of the tuberosity and a little increased radiability just below this area. Dr. Healey thought that the picture looked more like a beginning bursitis although there was no evidence of calcification of the bursa. Dr. Keefer examined the patient and advised local physio therapy and light massage to the left shoulder joint. Laboratory examinations were entirely negative including complete blood count except for slight leucocytosis - 12,400 - which is a normal count for many individuals. EKG showed normal mechanism with left axis deviation.

~~Nature of treatment~~

~~Beneficiary's physical condition on~~

Nature and amount of the disability resulting from the injury remaining when beneficiary left hospital or at the present time, expressed in terms of function:

Opinion as to whether the present disability is permanent or will be lessened or will disappear with treatment or with the passage of time. If the latter, what treatment is needed or how much time?

REMARKS: Patient requested his own discharge on 1/4/40 stating that he was feeling fine and there was no limitation of motion of either arm and that he felt he was able to perform all the work pertaining to his rating.

Subject: Leave.

1. Reference is made to the fact that you were granted leave of absence by the former 3rd Lighthouse District Superintendent for the period 21 September to 5 October, with authority to employ Hugh O. Pierce as substitute keeper.

2. Form 46 has been received from you covering 4½ days for Mr. Pierce, and although no month is given on the form it is assumed the dates are for OCTOBER 1 to 5. Advise if this assumption is correct.

3. Also, the Service Card you sent in shows Mr. Pierce's service from 21 September to 21 October. It is believed that this latter date is in error and that you meant 21 September to 5 October, 1939. Advise if this latter date is correct.

4. A copy of the Form 79 as approved by the former 3rd District Superintendent cannot be located, and it is requested therefore that you please forward two copies of that form to this office, indicating on both copies the time you left and the time you returned to the station.
