GENERAL INSTRUCTIONS

1933

1. A Health Record will be opened (issued) for each person commissioned, warranted, appointed, or enlisted in the Coast Guard: For cadets, upon reporting at the Academy; for an officer appointed from civil life, upon reporting at first unit; for enlisted persons, upon enlistment.

2. The medical officer, if any, shall have custody of the Health Records of all persons attached to the unit, including the personnel of smaller units attached to a larger unit. If there be no medical officer attached, the custody of the Health Records will devolve upon the executive officer, if he be a commissioned officer; otherwise the custody of the Health Records will devolve upon the commanding officer. The officer having custody of the Health Records shall be responsible for their proper care, continuation, and disposition.

3. In case of medical examination for promotion, retirement, annual commissioned officers' examination, or medical survey, the Health Record shall be furnished to the president of the board. If not received, it should be requested. When the board shall have finished with the Health Record, it shall be returned to its custodial officer. In all cases, brief notation of the findings of the board will be made on the Medical History Sheet, signed by the president of the board. This notation does not take the place of the full report which is submitted for administrative action.

4. A person on detached duty at some distance from where his Health Record would be kept may be given custody of his Health Record.

5. If a Health Record is lost or destroyed, a new one shall be immediately opened in full by the first custodial officer aware of such loss, who will note the fact in the new record and continue the record with such previous data as may be obtainable. If the old record be found, all data subsequent to its loss will be detached from the new and attached to the old record. A skeleton Health Record shall not be issued.

6. No photographs, folded papers, or forms are to be attached to the Health Record. The findings on laboratory and other reports in the case shall be entered on the Medical History Sheet.

7. **Transfer.**—Upon transfer of any person, except as a patient, the Health Record shall be forwarded through official channels to the new destination, or if the person is ordered to unusual, detached, or uncertain duty, it shall be retained or forwarded, as the case may be, with the person's service record. (See par. 4.)

8. The Health Record shall accompany a patient when transferred to or from hospital or when applying at an out-patient office. If shall not be forwarded through official channels, but shall be taken by the patient in a sealed envelop or by a responsible person accompanying him, and delivered with the patient to the official receiving the patient. Upon the patient's return to his unit the Health Record is to be delivered to the custodial officer.

9. If for any reason it becomes necessary to forward the Health Record to Headquarters, other than for termination of service noted thereon, it shall be accompanied by a letter stating the reason.

10. **Physical Examination Record.**—The Coast Guard Board or officer making the request for physical examination shall send to the medical board or officer two forms for physical examination record, already made out down to but not including place and date. The medical board or officer shall make out the rest of the Physical Examination Record in duplicate. In case of appointments or promotion of an officer, both forms shall be mailed by the board or officer direct to Headquarters. When promotion is made the original will be forwarded to the unit for insertion in the Health Record on top of the last Physical Examination Record. The Health Record shall be retained, but altered to show the promotion and new rank. No part of the Health Record is to be sent to Headquarters at this time. In case of enlistment both forms shall be returned to the enlisting officer, who will forward the original to Headquarters with other supporting papers after enlistment has been accomplished. The duplicate will be placed in the man's Health Record. In cases of reenlistment both forms will be forwarded to Headquarters for action and reenlistment will not be effected until duplicate copy is returned showing Headquarter's action. Upon receipt of duplicate copy from Headquarters same will be inserted in the Health Record.

11. The record shall be typewritten, if possible, and must be completely filled in as called for by the items on the form and in accordance with the instructions relative to the making of physical examinations. If any space is insufficient, the space under "Remarks" may be used.

12. The nature and degree of all physical defects of persons accepted for service in the Coast Guard must be fully described in order that no improper claims for compensation or pension may be allowed. Particular attention should be paid to those conditions which may not be disqualifying but which might be made the basis of such claims on the ground that they have developed or have become disabling while the person was in service. Waivers may be recommended by the medical examiner in accordance with the instructions relative to physical examinations, but the waiver must be authorized by the Commandant before the person is accepted.

13. **Extension of enlistment or change of name** shall be noted on the Medical History Sheet. In the case of change in name, the name shall be corrected wherever appearing in the Health Record.

14. **Termination of Health Record Sheet.**—Upon termination of a person's service (discharge, resignation, desertion, retirement, or death) the termination of Health Record Sheet shall be filled in and the Health Record forwarded to Headquarters. If for reasons other than physical disability, a physical examination of the person shall be made in accordance with Coast Guard Regulations, and notations made as called for by the form. Termination of service should be understood as definite separation from the service or from active duty in case of retirement. Discharge for immediate reenlistment, at the same unit, resignation of temporary status to continue in regular status, or retirement with continuation on active duty are not to be considered as termination of service.

15. **Dental Record.**—The Dental Record is intended for the use of dental officers only. The record of first dental examination should be filled in at the first visit to the dental officer. All dental treatments following the first examination shall be recorded on the proper diagram and noted on the reverse of the sheet with sufficient entries to show beginning and end of treatment, diagnosis, and nature of treatment.

16. Dental treatments shall not be entered in the Medical History Sheet except those incident to treatment of a medical condition. However, notes of unusual dental conditions or treatments which may be of medical interest may be made in the medical history.

17. When a patient is sent for dental treatment, the Health Record will be sent to the dental officer concerned. Upon completion of treatment and necessary entries on the Dental Record Sheet, the dental officer will immediately return the Health Record to the custodial officer.

18. Dental officers shall notify the proper medical officer of any case which may require medical attention.

19. When dental work is done by a private dentist, the person will take a blank dental record sheet to the dentist and request him upon completion of treatment to enter briefly thereon the dental work done. This sheet shall then be inserted in the Health Record.

20. **Vaccination and Inoculation Record.**—Smallpox vaccination and typhoid prophylaxis shall be noted in the spaces provided for these entries. These spaces shall be used only for these operations done after the person has entered the Coast Guard. Statements of these operations done previously shall be noted in the Medical History. Results of smallpox vaccination shall be entered as "PR" (primary reaction); "AR" (accelerated reaction); "IR" (immunity reaction); of "F" (failure). These terms are explained on the back of the record sheet. When vaccination or inoculation is completed, report of same with result shall be entered on the record sheet.

21. **Medical History Sheet.**—As the medical history is continuous, care must be taken to indicate the name of the place and date of each entry and to number the sheets consecutively. The full name, serial number, rank, or rating of the patient shall be entered upon each sheet. The name of a Coast Guard unit is usually sufficient when a man is treated there; as, "CHELAN", "BASE TWO", etc. The name of the city or town should be stated when necessary to complete the sense; as, "U.S. Marine Hospital, Stapleton, N.Y."; "U.S.P.H.S. Relief Station, Philadelphia, Pa.", etc.

22. Daily entries are not obligatory, but entries shall be made as often as required to give concisely the diagnosis, origin, misconduct status, and all essential details regarding symptoms, course, laboratory findings, treatment or refusal of treatment, and results. If a conflicting opinion relative to origin, misconduct status, etc., is subsequently expressed by the same or some other medical officer, the reason for such change shall be fully stated. Diagnosis shall conform by name and number to the Official Nomenclature of the U.S. Public Health Service.

23. Trivial affections not requiring admission to the sick list may be indicated by a "note." No case of venereal disease and no case involving absence from duty on account of sickness shall be recorded as a "note" on the Medical History Sheet.

24. Should a wrong entry be made, it shall not be erased or changed, but an additional entry shall be made showing wherein and to what extent the original entry is in error, then signed by the medical officer.

25. In the case of a unit having a pharmacist's mate but no medical officer attached to it, the pharmacist's mate shall make and sign entries in the Health Record covering treatments given by him. In case there is neither medical officer nor pharmacist's mate, entries should be signed by the officer who gives the treatment.

26. As the Health Record is to continue during a person's entire service, it may become too bulky, by reason of accumulation of Medical History Sheets, to be conveniently handled. In such cases these sheets may be removed and forwarded to Headquarters, except a few sheets of the latest dates. An abstract will be made of the removed sheets when received by Headquarters and the abstract will be forwarded to the unit to be inserted in the Health Record. After the receipt of the abstract the unit when forwarding additional Medical History Sheets from time to time will enter upon the Abstract Sheet the data as shown in the Medical History Sheets prior to mailing to Headquarters. In this manner the Abstract Sheet will always be current after it is once issued.

27. The Medical History Sheets for officers are kept in the same manner as for enlisted men, but should be disposed of in the following manner: Upon completion of annual physical examination, all sheets containing medical history entries made during the preceding 12 months shall be detached and forwarded attached to annual physical examination reports to the Commandant, U.S. Coast Guard, care being taken to place the name in full, together with the date on the top sheet. If on the sick list at the time, procedure may be delayed until discharged from treatment. Attention is invited to the fact that the complete Health Record should be taken by the officer to the examining board at time of examination. (See par. 3.)

To: District Coast Guard Officer, Eighth Naval District.

Subject: WAKEFIELD, Earl K., BM1c, Galveston Jetty Light Station.

Reference: (a) Letter from Galveston Jetty Light Station, 31 August, 1942 (815).

1. Reference (a) indicates that at 1150, August 31, 1942, the Galveston Jetty Light Station radio beacon was placed in operation using a temporary antenna to replace the antenna destroyed in the hurricane of 29 and 30 August, 1942.

2. During the hurricane of September, 1941, the radio antenna at Galveston Jetty Light Station was carried away. In each instance the Officer in charge of this unit, WAKEFIELD, Earl K., displayed extraordinary initiative and ingenuity in the erection of a temporary antenna and placing his radio beacon in operation. The Commanding Officer, Coast Guard Base, Galveston, Texas, considers that Wakefield has displayed a high degree of resourcefulness and devotion to duty in the rapidity with which service was restored at this unit.

3. It is therefore recommended that Wakefield be commended for this highly satisfactory performance of duty and initiative displayed in erecting temporary antennas to place his station in operation.
