U. S. Marine Hospital

Thursday, 22 August, 1946

The board met at 3:45 p.m.

Present:

Captain Gordon A. Littlefield, U. S. Coast Guard, president;
Commander Louis M. Thayer, Jr., U. S. Coast Guard, member;
Lieutenant Commander Clement Vaughn, Jr., U. S. Coast Guard, member and recorder;
Senior Surgeon Sidney P. Cooper, U. S. Public Health Service, member;
Surgeon Howard D. Fishburn, U. S. Public Health Service, member.

Woodrow W. Wissler, yeoman, first class, U. S. Coast Guard, entered as reporter and was duly sworn.

The board decided to sit with open doors.

Elmer R. Williams, boatswain's mate, first class, U. S. Coast Guard, the party under examination, entered and stated that he did not desire counsel.

The recorder read the precept and the modifications thereof, and the order to the party under examination, copies hereto prefixed, marked "A," "A(1)," "A(2)," and "B."

The party under examination was informed of his rights.

The party under examination stated that he did not object to any member.

The board and the recorder were duly sworn.

A letter appended, marked "C" was received from Headquarters, transmitting the papers named therein, which are appended, marked "1(1)" to "3," all of which were read by the recorder.

The medical members were directed to examine into the past and present physical and mental condition of Elmer R. Williams, boatswain's mate, first class, U. S. Coast Guard; letter of instructions appended, marked "4." Such examination having previously been made, the board proceeded.

The party under examination was asked by the president whether he wished to be retired and replied in the affirmative.

The party under examination was duly sworn as a witness.

Examined by the board:

1. Q. State the nature of your disability.
A. It is a hernia, a rupture. It comes out when I lift or strain. I can't do the work.

2. Q. What is the cause of your disability?
A. It came out in '39 first and they operated on it and about a month after they operated on it, it came through small again; and then in 1944 it came out again large. I came in here for another operation and within about a month of the operation in 1944, it came out again. And then in August of '45 I came here for another operation. The doctor sent me home and recommended light duty, but I couldn't perform the duties that were assigned to me. In June I came back again for another examination.

3. Q. How long have you suffered from this disability?
A. Since '39. The first time the hernia came out, I think, was in February, '39.

Examined by the board:

4. Q. Where are you stationed?
A. I am stationed at Lime Point Light.

Reexamined by the recorder:

5. Q. Williams, do you desire to say anything further concerning your case?
A. No sir.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as the party under examination.

The medical members submitted a report, which was sworn to, read, and appended, marked "5(1)" and "5(2)."

Surgeon Howard D. Fishburn, U. S. Public Health Service, the junior medical member of the board, was duly sworn as a witness.

Examined by the recorder:

1. Q. From what cause does Williams' disability proceed?
A. Williams' disability proceeds from a recurrent hernia of the right inguinal region.

2. Q. Is his disability permanent?
A. Yes.

3. Q. Is Williams' disability such as to incapacitate him for active service?
A. Yes.

4. Q. Have all reasonable measures for the amelioration of the disabling condition been tried?
A. Yes.

5. Q. Is his disability the result of an incident of service?
A. Yes.

6. Q. Was there any information before the medical members of the board which might lead you to believe that his condition is due to vicious practices of his own?
A. None whatever.

The board did not desire to examine this witness.

The party under examination did not desire to cross-examine this witness.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as a member.

Senior Surgeon Sidney P. Cooper, U. S. Public Health Service, the senior medical member of the board, was duly sworn as a witness.

Examined by the recorder:

1. Q. Doctor Cooper, you have heard the questions asked of Doctor Fishburn. If the same questions were asked of you, would your answers be essentially the same?
A. Essentially the same, with the one exception that if Mr. Williams had an operation and this operation were successful he would probably be able to continue his duty. However, I think his refusal of an operation is within reason.

Examined by the board:

2. Q. Doctor, in your report you state the chances of a third operation definitely correcting this condition are not good. The last remark, would it or would it not qualify that statement?

A. I do not think it qualifies my written report. I think this man has, with a certain type of operation, a fifty percent chance of success.

The party under examination did not desire to cross-examine this witness.

Neither the board, the recorder, nor the party under examination desired further to examine this witness; the witness resumed his seat as a member.

Neither the board, the recorder, nor the party under examination desired to call any more witnesses.

Elmer R. Williams, boatswain's mate, first class, U. S. Coast Guard, the party under examination, did not desire to make a statement.

Elmer R. Williams, boatswain's mate, first class, U. S. Coast Guard, the party under examination, desired to make no argument.

The recorder desired to make no argument.

The inquiry was finished, the party thereto withdrawing, having been informed that he would receive due notification when he might regard himself as discharged from further attendance before the board.

After full and mature deliberation, the board finds as follows:

FINDING OF FACTS

That Elmer R. Williams, boatswain's mate, first class, U. S. Coast Guard, is incapacitated for active service by reason of a right inguinal hernia; that his incapacity is permanent; is the result of an incident of service; and is not the result of his own vicious habits.

To: President, Coast Guard Retiring Board

Subj: WILLIAMS, Elmer R., BMlc, U. S. Coast Guard; examination for retirement.

We have carefully and separately examined BMlc Elmer R. Williams, U. S. Coast Guard, as to his past and present physical and mental condition, together with records pertaining to his case, and report as follows:

Mr. Williams is 56 years, 4 months and 25 days of age and has been 5 years, one month and 20 days in the U. S. Coast Guard, and 19 years 5 months and 23 days in the Light House Service.

He has suffered from astigmatism hypermetropia, presbyopia, has had typhoid inoculations and anti-tetanus inoculations, all of which have no bearing on his present condition.

This patient presented himself to the examining board of medical officers at the U. S. Marine Hospital, San Francisco, on August 8, 1946, for examination prior to appearing before a retiring board. He complains of pain in the right groin when on his feet for a long period of time or when performing any straining or lifting. He has had two previous operations for hernia on the right side, the first being in May 1939, which was followed by a recurrence. He returned to the hospital in 1944 and had the second operation performed. A herniation occurred shortly after the 2nd operation and has been a cause for complaint since that time. His general health is good.

Physical examination: This man is a well developed, well nourished male of about stated age. Weight: 177 lbs; height: 6'. Head: grey hair. No exostosis or scars noted. The patient wears glasses. Pupils are somewhat irregular but react to light and accomodation . There is slight retraction of both eardrums and hearing is decreased slightly. Tonsils have been removed. Patient wears artificial dentures.
Neck: Thyroidectomy scar from operation performed in 1941. There is no evidence of thyrotoxicosis at this time.
Extremities: A few varicose veins are noted on the left leg with incompetent saphenous veins.
Chest: The lungs are negative to physical examination.
Heart: is of normal size; pulse is regular, no murmurs are heard; blood pressure: 116/100.
Back: There is slight limitation of motion in all directions, in keeping with the age of the patient.

8-22-46

Physical Examination (continued)
Abdomen: No masses; no tenderness; no rigidity noted. There are bilateral inguinal hernia scars with a small hernial recurrence on the right.
Rectal examination: reveals moderate prostatic enlargement.

Conclusions: This man has had two unsuccessful operations for the repair of a right inguinal hernia. The chances of a third operation definitely correcting this condition are not good and patient has been advised against further surgery, by the surgical staff of this hospital. We consider this condition sufficient to incapacitate him for regular duty with the U. S. Coast Guard and such incapacity is a result of incidents of service and not the result of his own vicious habits. Additional physical findings which contraindicate surgery are a mild hypertension and prostatic hypertrophy.

1. Reference is made to your letter dated 5 February, 1947, in which you state that you do not know when you were overpaid the difference between $88.00, which you received for the period 1-15 December, 1946, and $121.25 overpaid in your account.

2. When your pay record was received at HQ, 6 January, 1947, and audited, it was discovered that for the period 1 July, 1946 to 30 November, 1946 your pay and allowances amounted to $880.75. A checkage of $12.00, subsistence, was made in your account to cover the period 1700 3 September, 1946 to 1300 13 September, 1946, when you were in the hospital, and payments were made to you in the amount of $990.00, a total of charges amounting to $1002.00. Since you earned only $880.75, you were overpaid $121.25.
