Commissioner of Lighthouses:

Referring to Bureau telegram June 21st, relative to the request of the Cherry Growers Union at Sturgeon Bay, Wisconsin, fur use of the Eagle Bluff Lighthouse Reservation and buildings temporarily during cherry picking season, etc.

On June 23rd, received the following Night Letter dated June 22nd:

"We need location for cherry pickers camp. Former site closed at last minute. Would there be chance to use old Eagle Bluff Lighthouse buildings for camp if security against damage were provided. Tower itself can be shut off from rest of house. Glad to arrange conference if action seems favorable.

(Sgd.) H. W. Ullsperger,
Manager, Fruit Growers Union"

On receipt of the above telegram a conference was arranged with a Mr. Witte representing Mr. Ullsperger who couldmot be present. Mr. Witte stated it was their intention to arrange a camp for some 75 to 100 men and boys, mostly boys. They would have two or three men overseers or directors in charge of the camp, one of whom will always be at the camp. They propose to have approximately three women as cooks. They have not decided whether to cook in the lighthouse residence or in a tent provided for that purpose. I suggested the residence would probably be the proper place in which to cook and house the women and directors.

They provide tents with a capacity to take care of eight boys, which they intend to erect on the reservation. They would occupy the premises a little over a month, from approximately July 10th to August 10th, depending on the weather conditions and ripening of cherries. Mr. Witte assured the Superintendent that extreme care would be taken of the property and guarding against damage by fire, etc., as well as the property would be left in as good condition as when they commenced occupancy thereof.

Noted

Referring to confirmation of my telegram of June 23rd, wherein I recommended Bureau approval at a nominal rental, it is stated

that this office believes that some amount for rent must be charged, and inasmuch as the business of fruit growing and taking care of the fruit means work for a great many people and pupils of schools, this Service did not care to make any profit, so to speak, on this property and would only charge this nominal sum for rent.

The Fruit Growers Union is a cooperative association of some 525 fruit growers. Mr. H. W. Ullsperger is Manager with headquarters at Sturgeon Bay. It is believed that this association is reliable and would be responsible for the proper care of the property and repairs to any damage incurred.

Noted. Bu has already granted approval under certain conditions, and advised Rep Schneider; prob no further action necessary?
